## Insects

Story by Andrew Frinkle

Insects are a kind of animal. Insects are also known as bugs. Insects can be found all over the world. Crickets, ants, grasshoppers, butterflies, ladybugs, and bees are some common insects.

Insects are invertebrates, so they do not have backbones. They have exoskeletons. This means they have their bones on the outside, like a shell. That makes them similar to crustaceans. Some insects, like butterflies, can change as they grow.

Insects always have six legs. If something has eight legs, like a spider, it is not an insect. Insects usually have three body segments. The head is where the eyes, mouth, and brains are. The thorax is where the legs and wings connect. The abdomen is where the guts and organs are.

The colorful illustrations take up the entire spread and contain a large number of details that are interesting to study. The book is designed for a wide range of ages and will last a long time. Babies can examine the illustrations, older children can read for themselves and study the facts. Special book formatting, paperback only, so that the child can read easily, paragraphs instead of solid blocks of text, double spaces between sentences, semantic hyphenations. *The Insect World*, 1902      Daily Warm-Ups: Reading, Grade 4 Sarah Clark, 2006-05 Quick, easy, effective activities support standards and help students improve skills they need for success in testing      **First Facts: Bugs** DK, 2011-07-18 Children reach an age when suddenly they want to simply learn. Everywhere they look, it's how, why, where, what. Studies suggest that between the ages of 4 and 7, children's brains are the most like sponges, absorbing information at an extraordinary rate. Children at this age have grown out of flaps and other novelties and are perhaps only just learning to read; they need a range of books covering a lot of topics that suit this pre-reading and early reading level. At preschool, the emphasis is on play, going on to learning how to read and write, so home is where their interests can be really indulged. This is an age where learning is pure fun, so the titles of the books reflect this. The First Facts books are small springboards that eventually lead onto a bigger picture      *Evidence-Based Reading, Grade 4* Carson-Dellosa Publishing, 2015-01-05 Evidence
