understand how writing enables the experience of our bodies as selves and at the same time to see the work of our writing in mediating selves to make them accessible to institutional perceptions and constraints These writers argue that what a body does and can do cannot be disentangled from the media we use nor from the times and cultures and technologies with which we engage To the discipline of composition this is an important discussion because it clarifies the impact s of literacy on citizens freedoms and societies To the classroom it is important because it helps compositionists to support their students as they enact learn and reflect upon their own embodied and embodying writing
