Reading For Pleasure:

Reading for Pleasure Kenny Pieper, 2016-12-01 In *Reading for Pleasure* Kenny Pieper has gathered a range of tried and tested strategies to get kids reading and enjoying it. We hear too often that kids don't read any more. Kenny thinks it should be every teacher's mission to prove this isn't true. In a squeezed curriculum it can be tempting to accept pupils' lack of reading and make excuses that there is not enough time to give to the luxury of personal reading. Teachers do this at our peril. Reading is the essential building block of further literacy development as well as a skill, hobby and habit that we can take with us forever. Kenny Pieper takes the act of reading for granted as many but sadly not all adults do. You're reading this right now. However, this isn't the case for everyone. Kenny teaches kids whose lives are terrifying obstacle courses of reading-related problems. They know they struggle with reading so they try to avoid reading at all costs. They leave school not merely unaffected by this strange reading thing but saddled with a great deal of emotional baggage about being an outsider, even more entrenched in a belief that reading is for others more intelligent than them. Then there are the children who can read perfectly well but chose not to, unconvinced of the importance of reading in their lives. What difference does it make to them? We have to answer that question in school. We have a duty to put an end to illiteracy and aliteracy. Kids need reading role models and as a teacher that role model is you. You may be the only adult who that reluctant reader will ever see reading. Teachers are critical in giving all children the gift of being able to read well and to value reading. Topics covered include the author's personal reading journey, how reading enabled him to become the first person in his family to go to university and convinced him that fostering a love of reading is his moral duty as an educator, illiteracy and aliteracy, reluctant readers, book reviews, prioritising personal reading by devoting ten minutes each lesson to it, habitual reading, the reading environment, interest inventories, technology, e-readers, Accelerated Reader programmes, recommended reading, building a class library, bookmarks, book tweets, book speed dating, libraries, librarians, literacy and class inequality, parental involvement, podcasting, reading records, reading dialogue, journals, the rights of the reader, reading aloud, silent reading and literacy and gender amongst others. The benefits we can all reap when kids become confident readers who read for pleasure are obvious. Discover strategies which will get kids talking about books, get them thinking about books, get them reading books, encourage independent reading, develop literacy skills and establish a classroom culture where reading is expected and celebrated. Suitable for primary and secondary teachers, leaders and SENCOs or just anyone with an interest in or responsibility for getting kids to read.

The Seven E's of Reading for Pleasure Sue Cowley, 2014-01-16 In this short book Sue Cowley gathers together a huge variety of techniques that will all boost reading for pleasure in your school or setting. She explains a range of approaches that teachers and practitioners can use with their children to help them become highly motivated readers. how this process can impact a child's identity as a reader in classrooms that promote equality, inclusion, and diversity. The profile and importance of Reading for Pleasure has grown significantly over the last few years and is now firmly embedded in both government policy and the Ofsted framework. Developing a Reading for Pleasure school that is truly inclusive of the whole school community, however, can require a culture shift in relation to the teaching of reading, representation in the reading environment, and the knowledge and attitudes of the school community. This book seeks to use the current research, teacher case studies, and the voices of children to address some of the issues that teachers and pre-service teachers encounter when trying to develop an inclusive Reading for Pleasure culture within their schools. Each chapter is co-authored by teachers and researchers and includes case studies and children's perspectives. It provides practical and evidence-based advice, lesson ideas, and creative ideas to both support and challenge all school leaders, staff, and student teachers in their journey to create readers rather than children that can just read.

Promoting Reading for Pleasure in the Primary School Michael Lockwood, 2008-06-30

This practical and focused book draws on the author's own research project in order to identify good practice in promoting reading for enjoyment. It presents specific activities which teachers can use to develop their own whole school and classroom practice, enabling them to put the fun back into reading. Each chapter features case study material and provides examples of planning from schools that have successfully created thriving reading cultures through schemes such as reading assemblies, book clubs, library loyalty cards, school book evenings, and quizzes. There is also an extensive annotated list of print and internet-based resources. Topics covered include: Becoming a reading for pleasure school; Promoting a love of reading in the early years; Developing reading enjoyment in the later primary years; Getting boys reading; Promoting Reading for Pleasure in the Primary School. This book is written for all those involved in education who would like to see as many children as possible develop a love of reading. It will be particularly relevant for pre-service and in-service K-8 teachers, teaching assistants, advisers, and consultants, and teacher educators and researchers.

Becoming a Reading Teacher Jane Spiro, Amos Paran, 2023-04-10

This book encourages readers to think about reading not only as an encounter with written language but as a lifelong habit of engagement with ideas. We look at reading in four different ways: as linguistic process, personal experience, collective experience, and as classroom practice. We think about how reading influences a life, how it changes over time, how we might return at different stages of life to the same reading, how we might respond differently to ideas read in an L1 and L2. There are 44 teaching activities, all founded on research that explores the nature, value, and impact of reading as an authentic activity rather than for language or study purposes alone. We consider what this means for schools and classrooms and for different kinds of learners. The final part of the book provides practical stepping stones for the teacher to become a researcher of their own classes and learners. The four parts of the book offer a virtuous join between reading, teaching, and researching. It will be useful for any teacher or reader who wishes to refresh their view of how reading fits in to the development of language and the development of a reading life.
