Restoring Our Soul:

Restoring Our World Soul Colleen Mac Dougall, 2012-10 What to do to set our world right again The author posits that it is less about getting it right and more about standing back long enough to see together what at the core of our global noise is agitating and demanding our attention Getting at the root of these disturbances we can move past the posturing and the grabs for power and get serious about preserving the inalienable Rights of Life that is liberty meaning dignity and realization of potential that all world peoples possess We can create conditions within which the ideals of equality justice and peace can progressively be made real in our world Creating such conditions is possible in proportion to our will to re position to get out front and to implant the less divisive sensibilities of soul into the heart of our global politic and into the very soil of our nations Approaching our historical dilemmas through the lens of these sensibilities identified in the book and convening our United Nations around their demands our recycling and projections of fear can be calmed There is indeed a way to get beyond the politics of right and to turn the tide on problems that remain stubbornly resistant to clinical religious and military intervention 100% of proceeds go to Tashinga Women Trust an apolitical independent economic initiative for women in Zimbabwe

Restoring the Soul of the World David Fideler, 2014-11-20 Humanity's creative role within the living pattern of nature Explores important scientific discoveries that reveal the self organizing intelligence at the heart of nature Examines the idea of a living cosmos from its roots in the earliest cultures to its eclipse during the Scientific Revolution to its return today Reveals ways to reengage our creative partnership with nature and collaborate with nature's intelligence For millennia the world was seen as a creative interconnected web of life constantly growing developing and restoring itself But with the arrival of the Scientific Revolution in the 16th and 17th centuries the world was viewed as a lifeless clock like mechanism bound by the laws of classical physics Intelligence was a trait ascribed solely to human beings and thus humanity was viewed as superior to and separate from nature Today new scientific discoveries are reviving the ancient philosophy of a living interconnected cosmos and humanity is learning from and collaborating with nature's intelligence in new life

enhancing ways from ecological design to biomimicry Drawing upon the most important scientific discoveries of recent times David Fideler explores the self organizing intelligence at the heart of nature and humanity's place in the cosmic pattern He examines the ancient vision of the living cosmos from its roots in the world soul of the Greeks and the alchemical tradition to its eclipse during the Scientific Revolution to its return today He explains how the mechanistic worldview led to humanity's profound sense of alienation for if the universe only functioned as a machine there was no longer any room for genuine creativity or spontaneity He shows how this isn't the case and how even at the molecular level natural systems engage in self organization self preservation and creative problem solving mirroring the ancient idea of a creative intelligence that exists deep within the heart of nature Revealing new connections between science religion and culture Fideler explores how to reengage our creative partnership with nature and new ways to collaborate with nature's intelligence Restore My Soul Janice McWilliams, 2022-11 How is your self care These soul restoring practices lead to a rich satisfying life Have you tried self care but found that you still feel overwhelmed anxious depressed and are struggling emotionally The most effective efforts aren't desperate last ditch attempts but practiced daily moment by moment and hour by hour Janice McWilliams a therapist and spiritual director uses the life of Jesus as her model to help her clients achieve new levels of peace and fulfillment In Restore My Soul Janice shares her practical counseling insight to help you understand and practice the essential skills to manage your thoughts live well with your emotions establish soul restoring rhythms and live a fulfilling life With these practices you'll become increasingly comfortable and confident in working through your inner experiences in real time Instead of burning out you can follow the lead of Jesus toward a sustainable fulfilling life **Restoring the Soul** Miriam Bundy, Stuart Bundy, 1999 What happens to the soul when tragedy strikes How can we hold on to what we know is true when God seems so far away The Bundys found out first hand when Miriam was diagnosed with terminal cancer They chose not to lose hope and sought the peace God promised **Restore** Robert K.
