This book particularly connects to those who are at the beginning levels of their mapping journey. From the Foreword by Heidi Hayes Jacobs: A step-by-step guide to successful curriculum mapping initiatives. While curriculum mapping is recognized as a highly effective method for serving students' ongoing instructional needs and creating systemic change, the means for putting this data-based decision-making process into practice may not always be clearly understood. Drawing on her experience in working with thousands of educators across the country, Janet A. Hale offers specific steps for coordinating and sustaining strong mapping efforts that become embedded in school culture. The author explores the stages of contemplating, planning, and implementing a curriculum mapping initiative and helps the reader examine critical components that affect a learning organization's progress through each phase. The book presents powerful tools and features that significantly enhance curriculum mapping efforts. Samples of four types of curriculum maps: Diary, Projected, Consensus, and Essential.
