Decentralizing Governance G. Shabbir Cheema, Dennis A. Rondinelli, 2007-08-01 The trend toward greater decentralization of governance activities now accepted as commonplace in the West has become a worldwide movement This international development largely a product of globalization and democratization is clearly one of the key factors reshaping economic political and social conditions throughout the world Rather than the top down centralized decisionmaking that characterized communist economies and Third World dictatorships in the twentieth century today s world demands flexibility adaptability and the autonomy to bring those qualities to bear In this thought provoking book the first in a new series on Innovations in Governance experts in government and public management trace the evolution and performance of decentralization concepts from the transfer of authority within government to the sharing of power authority and responsibilities among broader governance institutions This movement is not limited to national government it also affects subnational governments NGOs private corporations and even civil associations The contributors assess the emerging concepts of decentralization e g devolution empowerment capacity building and democratic governance They detail the factors driving the movement including political changes such as the fall of the Iron Curtain and the ascendance of democracy economic factors such as globalization and outsourcing and technological advances e g increased information technology and electronic commerce Their analysis covers many different contexts and regions For example William Ascher of Claremont McKenna College chronicles how decentralization concepts are playing out in natural resources policy while Kadmeil Wekwete United Nations outlines the specific challenges to decentralizing governance in sub Saharan Africa In each case contributors explore the objectives of a decentralizing strategy as well as the benefits and difficulties that will likely result

Proceedings of the 9th International Conference on Indonesian Social and Political Enquiries (ICISPE 2024) Bangkit A. Wiryawan, Muhammad Faiq Adi Pratomo, Suyatno Ladiqi, 2025-08-01 This is an open access book The International Conference on Indonesian Social and Political Enquiries ICISPE is an annual event held by the Faculty of Social and Political Sciences at Universitas Diponegoro This year s ICISPE is held for the 9th time As with the previous years this international conference is built based on the spirit and passion of the development from multi discipline and inclusive sciences whilst promoting the advancement of research across the country Thus the conference not only gives a chance for the academics to

assess phenomenon and contemporary problems by collaborating with various disciplines but also delivers opportunities as widely as possible to every stakeholder who is willing to bridge academic and practical fields ICSPE also offers to facilitate open discussions and debates transfer of knowledge strategies for policy formulation and networking amongst scholars and policymakers Later this multi discipline and inclusive collaboration are further implemented through discussion forums advanced research and or joint publication The theme of this year's ICISPE conference is Navigating challenges and limits to inclusive development in the Global South The post covid world has shown some economic and political turmoil that posed a potential threat to reaching the 2030 goal One of which is the rising of hybrid regimes at the cost of democratic growth in many developing countries According to the latest V Dem Report Marina et al 2024 more than 40 countries are in the state of autocratizing with deteriorating freedom of expression in 35 countries that are mostly in the Global South This could signify a great challenge in realizing the 2030 Agenda on inclusive and sustainable development

The Politics of Decentralization Carol J. Pierce Colfer, Doris Capistrano, 2012 Decentralization is sweeping the world and having dramatic and far reaching impacts on resource management and livelihoods particularly in forestry This book is the most up to date examination of the themes experiences and lessons learned from decentralization worldwide Drawing on research and support from all of the major international forestry and conservation organizations the book provides a balanced account that covers the impact of decentralization on resource management worldwide and provides comparative global insights with wide implications for policy management conservation and resource use and planning Topics covered include forest governance in federal systems democratic decentralization of forests and natural resources paths and pitfalls in decentralization and biodiversity conservation in decentralized forests The book provides in depth case studies of decentralization from Bolivia Ghana Indonesia Russia Scotland Switzerland Uganda and the US as well as highlights from federal countries including Australia Brazil Canada India and Malaysia It also addresses the critical links between the state forests communities and power relations in a range of regions and circumstances and provides case examples of how decentralization has been viewed and experienced by communities in Guatemala Philippines and Zimbabwe The Politics of Decentralization is state of the art coverage of decentralization and is essential for practitioners academics and policy makers across forestry and the full spectrum of natural resource management

Public Sector Reforms in Developing Countries Charles Conteh, Ahmed Shafiqul Huque, 2014-04-03 The underpinning assumption of public management in the developing world as a process of planned change is increasingly being recognized as unrealistic In reality the practice of development management is characterized by processes of mutual adjustment among individuals agencies and interest groups that can constrain behaviour as well as provide incentives for collaborative action Paradoxes inevitably emerge in policy network practice and design The ability to manage government departments and operations has become less important than the ability to navigate the complex world of interconnected policy implementation processes Public sector

reform policies and programmes as a consequence are a study in the complexities of the institutional and environmental context in which these reforms are pursued Building on theory and practice this book argues that advancing the theoretical frontlines of development management research and practice can benefit from developing models based on innovation collaboration and governance The themes addressed in Public Sector Reforms in Developing Countries will enable public managers in developing countries cope in uncertain and turbulent environments as they seek optimal fits between their institutional goals and environmental contingencies

The Politics of Development in Morocco Sylvia I.

Bergh,2017-01-30 Since the mid 1990s Morocco has sought to present itself as a model of genuine and gradual reform with decentralisation as a key tenet of this Here Sylvia Bergh investigates the dynamics of popular participation and local governance testing the extent to which the current structure builds local capacity or whether it is in fact a tool for soft state control She narrates the realities of local administration and civil society to shed critical light on questions of democratic transition in North Africa Her assessment of decentralisation and participatory development projects in rural Morocco and the legal and policy frameworks in which they operate leads to the conclusion that they have generally not yet led to an expansion of a civil society able to build local capacity or enhance bottom up empowerment Grounded in an approach of the anthropology of policy this book makes an important contribution to literature on the democratisation development and governance in North Africa

The Role of Biodiversity Conservation in the Transition to Rural Sustainability Stephen

S. Light,2004 This book presents interdisciplinary advances in theory and practice pertaining to rural sustainability and sets forth an action research agenda and policy prescriptions to support rural sustainability with special emphasis on the Accession Countries to the EU The book will address four themes

Rural Electrification

Hisham Zerriffi,2010-11-08 For those in developed nations suddenly being without electricity is a disaster power cuts have us fretting over the food stored in the freezer and even a few hours without lights televisions or air conditioning is an ordeal However for an estimated 1 6 billion people worldwide the absence of electricity is their daily experience An untold number of others live with electricity that is erratic and of poor quality How can electric power be brought into their lives when the centralized utility models that have evolved in developed nations are not an economically viable option Poor rural communities in developing nations cannot simply be plugged in to a grid Small scale Distributed Generation DG ranging from individual solar home systems to village level grids run off diesel generators could provide the answer and this book compares around 20 DG enterprises and projects in Brazil Cambodia and China each of which is considered to be a business model for distributed rural electrification While large centralized power projects often rely on big subsidies this study shows that privately run and localized solutions can be both self sustaining and replicable Its three sections provide a general introduction to the issue of electrification and rural development set out the details of the case studies and compare the models involved and discuss the important thematic

issues of equity access to capital and cost recovery Hisham Zerriffi shows that in each case it is not simply a matter of matching a particular technology to a particular need Numerous institutional factors come into play including the regulatory regime access to financial services and government utility support or opposition to the DG alternative Despite this in many countries the question is not whether DG has a role to play Rather it is a question of how it will play a role *Policy, Program and Project Evaluation* Anwar Shah,2020-11-02 Evaluation in recent decades has evolved from a tool for project appraisals to a more widely used framework for public decision making and operational management Most evaluation books are focused on traditional tools of analysis such as cost effectiveness and cost benefit analysis to the neglect of modern tools such as multi criteria evaluation social marginal cost of funds analysis data envelopment analysis results oriented management and evaluation and theory based evaluations This edited volume provides an easily accessible and comprehensive survey of both traditional and modern tools of analysis that are used in the evaluation literature to evaluate public projects programs policies and policy analysis and advice The book will be of interest to students scholars researchers practitioners and policy makers *Public Expenditure Analysis* World Bank,2005 Focuses on the public sector in developing countries Provides tools of analysis for discovering equity in tax burdens as well as in public spending and judging government performance in its role in safeguarding the interests of the poor and disadvantaged Outlines a framework for a rights based approach to citizen empowerment in other words creating an institutional design with appropriate rules restraints and incentives to make the public sector responsive and accountable to an average voter *How Power Shapes Energy Transitions in Southeast Asia* Jens Marquardt,2016-12-01 An understanding of the role of energy related governance systems and the conditions required for a shift towards renewables in developing countries is urgently needed in order to tap into the global potential of low carbon development Although renewable energy sources have become technically feasible and economically viable social and political factors continue to persist as the most critical obstacles for their dissemination How Power Shapes Energy Transitions in Southeast Asia conceptualizes power for the field of sustainable energy governance Based on empirical findings from the Philippines and Indonesia the book develops an analytical approach that incorporates power theory into a multi level governance framework The book begins with a profound background on renewable energy development around the world and presents major trends in development cooperation A power based multi level governance approach is introduced that is rooted in development thinking Examining how coordination and power relations shape the development and dissemination of renewable energy technologies the book also shows how decentralization affects low carbon development in emerging economies Sparking debate on the ways in which energy transitions can be triggered and sustained in developing countries this book will be of great interest to students and scholars of renewable energy development and environmental politics and governance as well as practitioners in development cooperation **Strategy for the Global Market** Vladimir Kvint,2015-10-05 In the twenty first century the global community constantly strives to

bring structure and order to the world through strategic means From the highest levels of governments and militaries to multilateral institutions NGOs and corporations a strategy for the future of a company region country or even the world is tantamount to success Yet few understand what strategy actually is and how it can be developed planned and implemented Strategy for the Global Market combines a fundamental study of the theory of strategy with its practical applications to provide a new approach to the global emerging market Due to the technological transformations in communications and transportation and the birth and development of both the global community and the global marketplace over the past twenty years the world s population and corporations are in much closer contact with their counterparts across the globe than ever before This has led to increasing competition and even rivalries Understanding the strategic environment as well as solving problems either through amicable means or conflict requires the powerful instrument of strategy to remain efficient and to triumph Features of this book include Methodology and practical recommendations for all stages of developing and implementing strategy A comprehensive guide with explanations and descriptions for the preparation and orderly compilation of all necessary strategy documents Real world examples taken from corporate government and military strategizing practices in emerging market countries and the global marketplace This book should be on the desk of every national regional and military leader corporate executive manager and student of strategy The Struggle for International Consensus on Population and Development J. Kantner,2016-04-30 Tracing the population assistance movement from its tentative beginnings to today this book employs history to examine the new paradigm created from the Cairo Conference the road map for the population policy future The authors take stock of the current state and progress of the paradigm and explore policies and strategies for the future *Reasserting the Rural Development Agenda* Arsenio Molina Balisacan,2003-08-01 The agricultural sector s perceived importance in the international development circle waned dramatically after the 1980s and investments in rural development and agricultural research and development declined sharply This volume reasserts the role of agricultural and rural development in the economic development debate By revisiting the evolution of ideas paradigms and empirical evidence and by drawing on Asian experiences the book intends to set a reinvigorated agenda on agricultural and rural development both for research and policy discussions in the coming decades Written by internationally acknowledged research scholars this book is helpful to a wide range of audience including researchers policymakers practitioners and students interested in rural development in Asia and its future evolutions *OECD Fiscal Federalism Studies Fiscal Decentralisation and Inclusive Growth in Asia* OECD,Korea Institute of Public Finance,2019-06-13 This report looks at the challenges faced by Asian countries in addressing inclusive growth and fiscal decentralisation A series of studies examines how policies in the region have evolved in accordance with changes in demography and the economic environment reflecting country characteristics history and political economy forces *Reforming Intergovernmental Fiscal Relations and the Rebuilding of Indonesia* James Alm,Jorge Martinez-Vazquez,Sri

Mulyani Indrawati, 2005-01-01 Indonesia is currently facing some severe challenges both in political affairs and in economic management. One of these challenges is the recently enacted decentralization program now well underway which promises to have some wide ranging consequences. This edited volume presents original papers written by a select group of widely recognized and distinguished scholars that take a hard objective look at the many effects of decentralization on economic and political issues in Indonesia. There are many questions about this program: how will it be implemented? Is there capacity at the local level to implement its reforms? Is there sufficient local political accountability to make it work? and how will the decentralization affect the broader program of economic growth and stabilization? Topics covered include the historical and political dimensions of decentralization, its macroeconomic effects, its effects on poverty alleviation, the assignment of expenditure and revenue functions across levels of government, the design of transfers, the role of natural resource taxation, and the effects of local government borrowing. An authoritative comprehensive collection, *Reforming Intergovernmental Fiscal Relations and the Rebuilding of Indonesia* will be of interest to economists and policy makers as well as students of public finance, development and Asian economics.

Can Local Institutions Reduce Poverty? Paula Donnelly-Roark, Karim Ouedraogo, Xiao Ye, 2001 The authors present evidence that in Burkina Faso certain high performing local institutions contribute to equitable economic development. They link reduced levels of poverty and inequality to a high degree of internal village organization. The structure of these high performing local organizations means they can exist in a number of African countries because they depend more on internal participation rather than on any one country's cultural assets.
