## **Retreat From Reason:**

The Retreat of Reason Ingmar Persson, 2005      **Retreat from Reason** Lancelot Thomas Hogben, 1938      *The retreat from reason* George Boas, 1971      **Science and the Retreat from Reason** John Gillott, Manjit Kumar, 1997 This book looks for the roots of the public's waning faith in science Providing a clear and accessible introduction to key areas of modern scientific thought the authors challenge our new fear and loathing of science      Retreats That Work Sheila Campbell, Merianne Liteman, 2003-02-03 Retreats That Work is a practical easy to use guide full of step by step instructions for leading a wide variety of tested exercises You'll learn how to design and facilitate retreats that will keep participants energized and on task Campbell and Liteman know what can go wrong at a retreat and what to do about it They know how to turn difficult situations around and how to deal effectively with conflict difficult participants and resistance to change With Retreats That Work you will too      **The Way of Selflessness: A Practical Guide to Enlightenment Based on the Teachings of the World's Great Mystics** Joel Morwood, 2019-04-15 Praised as a spiritual treasure by Huston Smith The Way of Selflessness is an authoritative guide for anyone who wishes to walk a mystical path and discover directly the truth testified to by the mystics of the world's spiritual traditions Drawing from the universal teachings and essential practices of the mystics from all the world's major religious traditions distilled and presented in generic terms suitable for all seekers The Way of Selflessness is appropriate for both those who belong to an established religion and those who do not      **Retreat from Reason. An Essay on the Intellectual Life of Our Time** Peter E. Nathan, 1955      **The Public** Louis Freeland Post, Alice Thatcher Post, Stoughton Cooley, 1899      **A Study of Our Decline** Philip Atkinson, 2007-11      **The JAG Journal**, 1964      **Don't Stop Thinking About the Music** Benjamin S. Schoening, Eric T. Kasper, 2011-12-16 In this insightful erudite history of presidential campaign music musicologist Benjamin Schoening and political scientist Eric Kasper explain how politicians use music in American presidential campaigns to convey a range of political messages From Follow Washington to I Like Ike to I Got a Crush on Obama they describe the ways that song use by and for presidential candidates has evolved including the addition of lyrics to familiar songs the current trend of using existing popular music to connect with voters and the rapid change of music's relationship to presidential campaigns due to Internet sites like YouTube JibJab and Facebook Readers are ultimately treated to an entertaining account of American political development through popular music and the complex two way relationship between music and presidential campaigns      *The Occupy Movement in Hong Kong* Yongshun Cai, 2016-08-12 The Occupy movement in Hong Kong was sustained for about 80 days because of government tolerance the presence of determined participants and a weak leadership The government tolerated the occupation because its initial use of force in particular teargas was counterproductive and provoked large scale participation Unlike other social movements such as the 1989 Tiananmen movement the Occupy movement reached its peak of participation at the very beginning making it difficult to sustain the momentum The presence of determined participants who chose to stay until the

government responded was crucial to the sustaining of the movement These self selected participants were caught in a dilemma between fruitless occupation and reluctance to retreat without a success The movement lasted also because the weak leadership was unable to force the government to concede or devise approaches for making a graceful exit Consequently site clearance became the common choice of both the government and the protestors This book develops a new framework to explain the sustaining of decentralized protest in the absence of strong movement organizations and leadership Sustained protests are worth research because they not only reveal the broad social context in which the protests arise and persist but also point out the dynamics of the escalation or the decline of the protests In addition sustained protest may not only lead to more dramatic action but they also result in the diffusion of protests or lead to significant policy changes

**American Digest** ,1928      **American Ecclesiastical Review** Herman Joseph Heuser,1898      *American Ecclesiastical Review* ,1898      *Of Counselors and Kings* Anne D.
