Clark, Lin Johnson, Allyn K. Sloat, 1991-10-22 Whether in the home or in the church or in a Christian school the challenge of contemporary Christian educators is to meet the academic needs of students while remaining unswerving in adherence to biblical principles Christian Education Foundations for the Future introduces you to the basics of a healthy Christian education program then takes you beyond showing you how to develop a fresh innovative Christian education program that will revitalize your church home or school **Girls on the Edge** Leonard Sax, 2020-08-25 In the best book about the current state of girls and young women in America Atlantic the New York Times bestselling pediatrician outlines expert outlines the four biggest threats to girls psychological growth and how parents can help In Girls on the Edge psychologist and physician Leonard Sax argues that many girls today have a brittle sense of self they may look confident and strong on the outside but they re fragile within Sax offers the tools we need to help them become independent and confident women and provides parents with practical tips on everything from helping their daughter limit her time on social media to choosing a sport to nurturing her spirit through female centered activities Compelling and inspiring Girls on the Edge points the way to a new future for today s girls and young women **Forthcoming Books** Rose Arny, 1997 **Gender on the Edge** Niko Besnier, Kalissa Alexeyeff, 2014-12-31 Transgender identities and other forms of gender and sexuality that transcend the normative pose important questions about society culture politics and history They force us to question for example the forces that divide humanity into two gender categories and render them necessary inevitable and natural The transgender also exposes a host of dynamics that at first glance have little to do with gender or sex such as processes of power and domination the complex relationship among agency subjectivity and structure and the mutual constitution of the global and the local Particularly intriguing is the fact that gender and sexual diversity appear to be more prevalent in some regions of the world than in others This edited volume is an exploration of the ways in which non normative gendering and sexuality in one such region the Pacific Islands are implicated in a wide range of socio cultural dynamics that are at once local and global

historical and contemporary The authors recognize that different social configurations cultural contexts and historical trajectories generate diverse ways of being transgender across the societies of the region but they also acknowledge that these differences are overlaid with commonalities and predictabilities Rather than focus on the definition of identities they engage with the fact that identities do things that they are performed in everyday life that they are transformed through events and movements and that they are constantly negotiated By addressing the complexities of these questions over time and space this work provides a model for future endeavors that seek to embed dynamics of gender and sexuality in a broad field of theoretical import **Making Space for the Spirit** Jennifer Kerr Graves, 2016-03-08 How do we create places and spaces for deepening our spiritual lives For slowing down so we can notice what really matters to us For taking time to attend to our own healing and growth For meeting Jesus in life transforming ways And how do we keep these places affordable so that they are accessible to everyone who is seeking not just those who can afford the high cost How do we create these spaces and how do we sustain them These are the questions this book seeks to address as it considers closely and personally the creation and development of one such space So join me as we listen in on some special stories hearing how one community held realized and sustained their vision to make space for the Spirit inspiring us to do the same
