Review Of Us Policy Toward Venezuela Nov 2001 April 2002:

Encountering US Empire in Socialist Venezuela Timothy Gill, 2022-10-25 Since the end of World War II the United States has come to dominate the world economically and politically leading many to describe the United States as an empire. Scholars have analyzed how the US government has worked through international financial institutions its Central Intelligence Agency and outright warfare to achieve its will. In this book Timothy M Gill spotlights how the US government also worked through democracy promotion to undermine governments abroad including in Venezuela. President Hugo Chavez who ruled from 1999 until his death in 2013 was among the democratically elected Latin American state leaders who embraced socialism and challenged the idea of US global power. Gill shows how US government agencies funded and trained opposition parties and activists and how such intervention often was justified in neocolonial and racist terms. Through analysis of documents obtained through Freedom of Information Act requests embassy cables and interviews with US government and Venezuelan nonprofit members Gill details such operations and the imperial thinking behind them. **Bad**

News from Venezuela Alan Macleod, 2018-04-17 Since the election of President Hugo Chavez in 1998 Venezuela has become an important news item. Western coverage is shaped by the cultural milieu of its journalists with news written from New York or London by non specialists or by those staying inside wealthy guarded enclaves in an intensely segregated Caracas. Journalists mainly work with English speaking elites and have little contact with the poor majority. Therefore they reproduce ideas largely attuned to a Western neoliberal understanding of Venezuela. Through extensive analysis of media coverage from Chavez's election to the present day as well as detailed interviews with journalists and academics covering the country **Bad News from Venezuela** highlights the factors contributing to reportage in Venezuela and why those factors exist in the first place. From this examination of a single Latin American country the book furthers the discussion of contemporary media in the West and how with the rise of fake news their operations have a significant impact on the wider representation of global affairs. **Bad News from Venezuela** is comprehensive and enlightening for undergraduate students and research academics in media and Latin American studies. **Global Energy Security and American Hegemony** Doug Stokes, Sam Raphael, 2010-06-07 An analysis of the United States and energy security that examines the close relationship between US military supremacy in oil rich regions and America's maintenance of global power. It is suitable for scholars of US foreign policy and international relations as well as policy makers grappling with the importance of energy security. **The**

WikiLeaks Files WikiLeaks, 2015-09-15 What Cablegate tells us about the reach and ambitions of US Empire. Published in collaboration with WikiLeaks. WikiLeaks came to prominence in 2010 with the release of 251 287 top secret State Department cables which revealed to the world what the US government really thinks about national leaders friendly dictators and supposed allies. It brought to the surface the dark truths of crimes committed in our name human rights violations covert operations and cover ups. **The WikiLeaks Files** exposes the machinations of the United States as it imposes a

new form of imperialism on the world one founded on tactics from torture to military action to trade deals and soft power in the perpetual pursuit of expanding influence The book also includes an introduction by Julian Assange examining the ongoing debates about freedom of information international surveillance and justice An introduction by Julian Assange writing on the subject for the first time exposes the ongoing debates about freedom of information international surveillance and justice With contributions by Dan Beeton Phyllis Bennis Michael Busch Peter Certo Conn Hallinan Sarah Harrison Richard Heydarian Dahr Jamail Jake Johnston Alexander Main Robert Naiman Francis Njubi Nesbitt Linda Pearson Gareth Porter Tim Shorrock Russ Wellen and Stephen Zunes **Between Compliance and Conflict** Jorge Dominguez, Byung Kook

Kim, 2013-01-11 This book examines the responses to U S power in the two areas of the world where U S primacy was first successfully consolidated East Asia and Latin America The U S has faced no comparably powerful challengers to the exercise of its power in Latin America for much of the past century It established its primacy over much of East Asia in the aftermath of WW II and extended its influence in the late 1970 s and after the end of the Vietnam War through its entente with China to balance the Soviet Union By contrast the U S has always encountered rivals and challengers in Europe has attempted unsuccessfully thus far to impose its primacy in the Middle East and has paid only intermittent attention to South Asia and Africa The essays in this volume will explore three important themes 1 How do region wide economic trends and arrangements sustain or modify U S influence in the region 2 How do rising powers in these regions Japan China Brazil reshape their policies to cope with the U S and 3 How do new South Korea and old Cuba challengers to U S power shape their policies to account for the unrivaled exercise of U S power This collection will place the United States at the hub of relations with countries in East Asia and Latin America and examine the new policies and new styles of engagement that are employed to address the prolonged U S interest in these areas approaches from which the rest of the world might learn

America's Plans for World Hegemony Calistrat M. Atudorei, The book acidly tells us a story of the rise and decline of one of the greatest empires ever and surely the most prominent empire as the existing one in our life time The most prominent and as the statistical abstracts and documents of the US Congress reveal the most addicted of all empires to an old and continuous military interventionism in every corner of the world At the beginning of his book the author lists and examines closely the new and century old principles and doctrines incorporated into American foreign policy as a combination between diplomacy and war and almost always the latter being the winner i e American exceptionalism Monroe Doctrine Teddy Roosevelt s Speak Soft and Carry a Big Stick diplomacy Show the Flag strategic idiom Gunboat Diplomacy Truman and Reagan doctrines the Domino Theory the neoconservative Project for a New American Century Bush Jr Doctrine of preventive wars etc Then quoting highly qualified American sources the author shocks the reader as he concludes that the US is no longer a truly democratic state but one led by oligarchy an Elite that no longer represent the will of the population He also emphasizes with logical arguments the existence of the US Military industrial complex the Deep State the Financial Cartel

etc He unveils an America in the twilight zone of secretive planning and leadership strictly controlled global institutions wars and neocolonialism in the Middle East Latin America and East Europe and of 75 years of Soviet Union Russia incisive and limitless budgeted strategies of confrontation Basically in his book Mr Atudorei exposes a perpetual chain of historical misdeeds having America as its originator America addicted to militarism an American militarism addicted to aggression war and imperial supremacy 240 years long and continuous American wars addicted to millions of victims finally millions of victims forgotten by a political propaganda machine addicted to falsehood deception and lies and calling invasions coup d tats and aerial bombings as humanitarian interventions bringing peace freedom and democracy Radu Toma When referring to the world hegemony of the US the author points out that in fact the first victim of such a policy is the American people itself who became captive of more or less hidden centers of power called in various ways global oligarchy the military industrial complex the financial banking elite etc centers that usurped the real power in the state and transformed the democratic political system into a simulacrum for the use of masses subject to sophisticated social engineering Calistrat M Atudorei shows that the US as an empire with pretention of absolute global supremacy tends to impose its dominance both through non military wars cultural ideological media economic as well as through direct military invasions aiming to punish regimes and nations that do not want to be subjected to them Working with consistent arguments the author emphasizes that the plans of subjugation of the whole world are neither recent nor do they relate to the preferences of people who become US presidents On closer examination the so called hosts of the White House appear to us like ordinary puppets in the hands of forces behind the curtain See in this regard for example the current US President Donald Trump case who abandoned his electoral rhetoric being shaped by the Deep State on the line of serving the interests of this all powerful nebula to the detriment of the American people and peace in the world Iurie Ro ca *Extraordinary Threat* Joseph Rosendo Emersberger, Justin Podur, 2021-07-20 The US foreign policy decisions behind six coup attempts against the Venezuelan government and Venezuela s heightening precarity In March 2015 President Obama initiated sanctions against Venezuela declaring a national emergency with respect to the unusual and extraordinary threat to the national security and foreign policy of the United States posed by the situation in Venezuela Each year the US administration has repeated this claim But as Joe Emersberger and Justin Podur argue in their timely book *Extraordinary Threat* the opposite is true It is the US policy of regime change in Venezuela that constitutes an extraordinary threat to Venezuelans Tens of thousands of Venezuelans continue to die because of these ever tightening US sanctions denying people daily food medicine and fuel On top of this Venezuela has since 2002 been subjected to repeated coup attempts by US backed forces In *Extraordinary Threat* Emersberger and Podur tell the story of six coup attempts against Venezuela This book deflates the myths propagated about the Venezuelan government s purported lack of electoral legitimacy scant human rights and disastrous economic development record Contrary to accounts lobbied by the corporate media the real target of sustained U S assault on

Venezuela is not the country's claimed authoritarianism or its supposed corruption. It is Chavismo: the prospect that twenty-first century socialism could be brought about through electoral and constitutional means. This is what the US empire must not allow to succeed. *The Silence and the Scorpion* Brian A. Nelson, 2009-05-05. On April 11, 2002, nearly a million Venezuelans marched on the presidential palace to demand the resignation of President Hugo Chavez. Led by Pedro Carmona and Carlos Ortega, the opposition represented a cross section of society furious with Chavez's economic policies, specifically his mishandling of the Venezuelan oil industry. But as the day progressed, the march turned violent, sparking a military revolt that led to the temporary ousting of Chavez. Over the ensuing turbulent seventy-two hours, Venezuelans would confront the deep divisions within their society and ultimately decide the best course for their country and its oil in the new century. An exemplary piece of narrative journalism, *The Silence and the Scorpion* provides rich insight into the complexities of modern Venezuela.

Right-Wing Politics in the New Latin America Francisco Dominguez, Doctor Geraldine Lievesley, Doctor Steve Ludlam, 2011-11-10. The focus for students of Latin America in the past decade has been on the political forces of the left and the so-called pink tide presidencies attempting to bring about social and economic change in the region. However, there has been far less attention paid to the rightwing political forces resisting such change. Such opposition is being orchestrated by political parties, business, the private media, and other social and cultural institutions, and is linked to the soft power of US diplomacy. In recent years, its activities have often appeared to challenge the democratic process itself. Based on a variety of original fieldwork and evidence, this volume addresses the current trajectories of rightwing politics in Latin America in the face of leftist governments, the discrediting of neoliberalism, and the decline of US hegemony. It includes chapters on US policy towards Latin America, the role of US-based think tanks, the influence of transnational business, and of the private media, as well as offering country-specific chapters on key states with rightwing governments and on opposition to left-of-centre governments in Venezuela, Bolivia, Cuba, Brazil, Paraguay, Argentina, and Chile. A revealing and important book for anyone interested in contemporary Latin American politics.

Living with Hugo: U.S. Policy Toward Hugo Chávez's Venezuela (Spanish), *The United States and the Armed Forces of Mexico, Central America and the Caribbean, 2000-2014* René De La Pedraja, 2014-11-05. Tracing the US government's efforts to shape the armed forces of Mexico, Central America, and the Caribbean from 2000 to 2014, this narrative concentrates on the Army but also discusses Air Force and naval forces. Including the Marines and the Coast Guard, police forces in those regions are also covered. Mexico's ongoing struggle with drug cartels is discussed extensively. Venezuela and Cuba receive considerable attention. This study is the first to examine in detail the armed forces of countries such as the Dominican Republic and Jamaica. Sections on Haiti and Panama, countries supposedly without armies, reveal the decisive role the US has played in determining their military policies. The text weaves the histories of these armed forces into the broader context of the politics, economics, and international relations in the region. A clear and brief introduction to the relations of Mexico, Central America, and the Caribbean with the United

States is provided **The Record of the Paper** Howard Friel,Richard Falk,2020-05-05 On May 26 2004 the New York Times issued an apology for its coverage of Iraq s purported weapons of mass destruction The Times had failed to provide what most readers expect from the US newspaper of record journalistic accuracy and integrity about important matters of US foreign policy But the Times coverage of Iraq was worse than they were willing to concede In fact for at least the past fifty years the editorial policy of the Times from its coverage of the 1954 Geneva Accords on Vietnam to the issue of torture in Abu Ghraib has failed to incorporate international law into its coverage of US foreign policy This lapse as the authors demonstrate has profound implications for the quality of the Times journalism and the function of the press in a country supposedly governed by the rule of law In this meticulously researched study Howard Friel and Richard Falk reveal how the Times has consistently misreported major US foreign policy issues including the bombing of North Vietnam in response to the Tonkin Gulf and Pleiku incidents in 1964 65 the Reagan administration s policy toward the Sandinista government of Nicaragua in the 1980s the 2002 military coup that briefly overthrew Hugo Chavez Venezuela s elected president and the Bush administration s 2003 invasion of Iraq **Export Controls** Bert Chapman,2013-10-30 International trade plays an enormous role in economic growth and prosperity This activity can also be used to transfer military equipment knowledge and technology to hostile governments and transnational terrorist and criminal organizations seeking to attack and destroy their enemies The U S and other countries have used economic sanctions such as export controls to try to restrict and eliminate the transfer of weapons and financial assets to these governments and organizations This work examines how the U S has attempted to restrict the export of national security sensitive equipment finance knowledge and technology since World War II with varying degrees of success and failure It also examines how multiple U S Government agencies nongovernmental organizations and international government organizations seek to influence U S international trade foreign and security policies while concluding that some export controls are essential for promoting and defending U S national security interests

Crude Interventions Garry Leech,2013-04-04 At the beginning of the 21st century a new world disorder is emerging in which battles over resources are playing an increasingly prominent role The importance of oil to this picture is underscored by the unilateral and militaristic foreign policy of the world s largest power in its attempt to secure access to this critical resource In this global context oil rich communities of the South are being drawn into struggles to defend their sovereignty cultural integrity human rights and threatened ecosystems Crude Interventions examines the military and economic policies of the Bush administration in oil rich regions of the world More precisely it examines the socio economic and human rights consequences of these policies as well as those of recent US administrations and multinational energy companies for the peoples of oil producing nations in the global South With only four percent of the world s population the United States consumes 25 per cent of global energy production This thirst for energy has played a significant role in determining US foreign policy in recent decades The desire to secure access to reliable supplies of oil has played an even more prominent

role in determining the foreign policy of the government of George W Bush than previous administrations By focusing on the US role in Iraq Central Asia West Africa Colombia and Venezuela Crude Interventions makes evident the connections between US energy interests the war on terror globalization human rights abuses and other social injustices endured by those peoples of the South cursed with an abundance of the world s most sought after resource *Revolutionary Doctors* Steve Brouwer,2011 *Revolutionary Doctors* gives readers a first hand account of Venezuela s innovative and inspiring program of community healthcare designed to serve and largely carried out by the poor themselves Drawing on long term participant observations as well as in depth research Brouwer tells the story of Venezuela s Integral Community Medicine program in which doctor teachers move into the countryside and poor urban areas to recruit and train doctors from among peasants and workers Such programs were first developed in Cuba and Cuban medical personnel play a key role in Venezuela today as advisors and organizers This internationalist model has been a great success Cuba is a world leader in medicine and medical training and Brouwer shows how the Venezuelans are now with the aid of their Cuban counterparts following suit But this program is not without its challenges It has faced much hostility from traditional Venezuelan doctors as well as all the forces antagonistic to the Venezuelan and Cuban revolutions Despite the obstacles it describes *Revolutionary Doctors* demonstrates how a society committed to the well being of its poorest people can actually put that commitment into practice by delivering essential healthcare through the direct empowerment of the people it aims to serve Provided by publisher "Our Hemisphere"? Britta H. Crandall,Russell Crandall,2021-01-01 An accessible exploration of U S Latin American relations from the colonial period to the present day *Our Hemisphere* is a balanced and nuanced portrayal of the history of U S Latin American relations The attention given to more recent episodes on immigration the drug war and U S policy toward Cuba and Venezuela is especially welcome Allen Wells author of *Tropical Zion* General Trujillo FDR and the Jews of Sos a *Our Hemisphere* uncovers the range depth and veracity of the United States relationship with the Americas Using short historical vignettes Britta and Russell Crandall chart the course of inter American relations from 1776 to the present highlighting the roles that individuals and groups of soldiers intellectuals private citizens and politicians have had in shaping U S policy toward Latin America in the postcolonial Cold War and post Cold War eras The United States is usually and correctly seen as pursuing a monolithic hegemonic agenda in Latin America wielding political economic and military muscle to force Latin American countries to do its bidding but the Crandalls reveal unexpected yet salient regional interactions where Latin Americans have exercised their own power with their northern and very powerful neighbor Moreover they show that Washington s relationship with the region has relied in addition to the usual heavy handedness on cooperation and mutual respect since the beginning of the relationship **Petro-Aggression** Jeff D. Colgan,2013-01-31 Oil is the world s single most important commodity and its political effects are pervasive Jeff D Colgan extends the idea of the resource curse into the realm of international relations exploring how countries form their foreign policy preferences and

intentions Why are some but not all oil exporting petrostates aggressive To answer this question a theory of aggressive foreign policy preferences is developed and then tested using both quantitative and qualitative methods Petro Aggression shows that oil creates incentives that increase a petrostate s aggression but also incentives for the opposite The net effect depends critically on its domestic politics especially the preferences of its leader Revolutionary leaders are especially significant Using case studies including Iraq Iran Libya Saudi Arabia and Venezuela this book offers new insight into why oil politics has a central role in global peace and conflict **Creative Destruction?** Francisco E. González,2012-07-02

Compares the political economy arising from the Great Depression and from the 1982 Debt Crisis Spain and the Wider World since 2000 Morten Heiberg,2019-10-04 This book offers the first comprehensive study of Spanish foreign policy since 2000 Based on privileged access to some of Spain s most important foreign policy actors including Prime Minister Jos Luis Rodr guez Zapatero and Foreign Minister Miguel ngel Moratinos the book offers an insider account of how Spanish foreign policy was shaped within the context of international diplomacy It offers crucial new insights into the foreign policy of the PSOE governments Spanish Socialist Workers Party 2004 to 2011 The volume considers the changes on the international stage since the fall of the Berlin Wall in 1989 showing how regional conflicts and tensions affected the policy agendas of the West To increase security and prosperity at home the 2004 Spanish socialist government reasoned that they could no longer rely exclusively on unilateral measures old Cold War alliances or a Spain first approach Against the backdrop of this changing world the book explores the concept of effective multilateralism put forward by the PSOE in which Spain abandoned its hitherto unconditional support for the US and instead engaged in a series of multilateral collaborations with regions around the world Above all this study seeks to provide a new international history of contemporary Spain demonstrating how domestic changes intersected with global transformations and put forward the argument that diplomacy works **Branding Democracy** Gerald Sussman,2010 Branding Democracy U S Regime Change in Post Soviet Eastern Europe is a study of the uses of systemic propaganda in U S foreign policy Moving beyond traditional understandings of propaganda Branding Democracy analyzes the expanding and ubiquitous uses of domestic public persuasion under a neoliberal regime and an informational mode of development and its migration to the arena of foreign policy A highly mobile and flexible corporate dominated new informational economy is the foundation of intensified Western marketing and promotional culture across spatial and temporal divides enabling transnational interests to integrate territories previously beyond their reach U S democracy promotion and interventions in the Eastern European color revolutions in the early twenty first century serve as studies of neoliberal state interests in action Branding Democracy will be of interest to students of U S and European politics political economy foreign policy political communication American studies and culture studies

Review Of Us Policy Toward Venezuela Nov 2001 April 2002 Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Review Of Us Policy Toward Venezuela Nov 2001 April 2002**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

Review Of Us Policy Toward Venezuela Nov 2001 April 2002 Introduction

In today's digital age, the availability of Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Review Of Us Policy Toward Venezuela Nov 2001 April 2002 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit

organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books and manuals for download and embark on your journey of knowledge?

FAQs About Review Of Us Policy Toward Venezuela Nov 2001 April 2002 Books

1. Where can I buy Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Review Of Us Policy Toward Venezuela Nov 2001 April 2002 book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Review Of Us Policy Toward Venezuela Nov 2001 April 2002 books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.

5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Review Of Us Policy Toward Venezuela Nov 2001 April 2002 audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
