The Revolt Against Dualism first published in 1930 belongs to a tradition in philosophical theorizing that Arthur O Lovejoy called descriptive epistemology Lovejoy s principal aim in this book is to clarify the distinction between the quite separate phenomena of the knower and the known something regularly obvious to common sense if not always to intellectual understanding This work is as much an argument about the ineluctable differences between subject and object and between mentality and reality as it is a subtle polemic against those who would stray far from acknowledging these differences With a resolve that lasts over three hundred pages Lovejoy offers candid evaluations of a generation s worth of philosophical discussions that address the problem of epistemological dualism In his stunning new introduction Jonathan B Imber offers a reassessment of Lovejoy s career as a thinker and as an active participant in the worldly affairs of academic life He introduces to a new generation of readers some enduring principles of the vocation of the scholar to which Lovejoy not only subscribed but to which he also gave substance through his activities as an academic man The opening statement provides both a fit tribute to a great pioneer in the history of ideas and an example of intellectual history in its own right The Revolt Against Dualism will be a significant addition to the libraries of philosophers sociologists and history of ideas scholars

Objectivism and the Corruption of Rationality Scott Ryan,2003-01-27 Ayn Rand presented Objectivism as a philosophy of reason But is it That is the question Scott Ryan seeks to answer in this careful examination of the Objectivist epistemology and its alleged sufficiency as the philosophical foundation of a free and prosperous commonwealth Sorting painstakingly through Rand s writings on the subject Mr Ryan concludes that the epistemology of Objectivism is incoherent and debases both the concept and the practice of rationality

Susan Stebbing and the Language of Common Sense S. Chapman,2013-03-18 This first book length study of the work and life of L Susan Stebbing relates the development of her thought to the philosophical social and political background of her life It also assesses Stebbing s contribution in the light of developments both in analytic philosophy and in linguistics in the

decade since her death *Cultural Visions: Essays in the History of Culture* ,2022-03-07 This collection opens with an inquiry into the assumptions and methods of the historical study of culture comparing the new cultural history with the old Thirteen essays follow each defining a problem within a particular culture In the first section Biography and Autobiography three scholars explore historically changing types of self conception each reflecting larger cultural meanings essays included examine Italian Renaissance biographers and the autobiographies of Benjamin Franklin and Mohandas Gandhi A second group of contributors explore problems raised by the writing of history itself especially as it relates to a notion of culture Here examples are drawn from the writings of Thucydides Jacob Burckhardt and the art historians Alois Riegl and Josef Strzygowski In the third section Politics Nationalism and Culture the essays explore relationships between cultural creativity and national identity with case studies focusing on the Holy Roman Emperor Maximilian I the place of Castile within the national history of Spain and the impact of World War I on work of Thomas Mann The final section Cultural Translation raises the complex questions of cultural influence and the transmission of traditions over time through studies of Philo of Alexandria s interpretation of the Hebrew Bible Erasmus use of Socrates Jean Bodin s conception of Roman law and adaptations of the Hebrew Bible for American children *The Cambridge Handbook of Sociocultural Psychology* Alberto Rosa,Jaen

Valsiner,2018-07-12 Sociocultural psychology is a discipline located at the crossroads between the natural and social sciences and the humanities This international overview of the field provides an antireductionist and comprehensive account of how experience and behaviour arise from human action with cultural materials in social practices The outcome is a vision of the dynamics of sociocultural and personal life in which time and developmental constructive transformations are crucial This second edition provides expanded coverage of how particular cultural artefacts and social practices shape experience and behaviour in the realms of art and aesthetics economics history religion and politics Special attention is also paid to the development of identity the self and personhood throughout the lifespan while retaining the emphasis on experience and development as key features of sociocultural psychology Thinking Through Systems Thinking Ion Georgiou,2013-01-11

Systemicity is receiving wider attention thanks to its evident paradox On the one hand it occurs as a problem with complex symptoms On the other it is sought after as an approach for dealing with the non linear reality of the world At once problem and prize systemicity continues to confound This book details the mechanics of this paradox as they arise from human epistemological engagement with the world Guided by an original analysis of the fundamental idea of emergent property Thinking Through Systems Thinking uncovers the distinct significance but also incompleteness of the systems approach as a theory of human epistemological engagement The incompleteness is treated through a non eclectic interdisciplinary investigation which meets ten distinctly developed criteria required of any potential interdisciplinary partner to systems thinking There results a theory of knowledge an epistemology which is systemic in both senses of the term it belongs to the general systems movement and it is systemically structured The systems movement is thus offered a distinct epistemological

voice which can compete on equal ground with other philosophical epistemological positions In true systemic fashion this theory of knowledge also offers methodological ethical and existential implications *The Letters of George Santayana* George Santayana,2001 *Unscientific Psychology* Fred Newman,Lois Holzman,2006 Philosopher and psychotherapist Fred Newman and developmental psychologist Lois Holzman challenge psychology s understandings of what a human being is what mental illness is and how people develop and learn They show how these understandings were created marketed and sold to the American public Going beyond critique the authors argue that instead of psychology what people the world over need is a cultural performatory approach to human life *Unscientific Psychology* is based on the authors twenty five year practice of creating such an approach and the network of therapeutic and educational projects that have been built with it *Unscientific Psychology* is at once a narrative of the history of philosophy modern science and psychology and a critique of psychology s methodology Arguing that psychology is a pseudoscientific hoax the authors deconstruct three of its most powerful myths the myth of the individual the myth of mental illness and the myth of development They tell the story of how these myths were constructed out of age old philosophical abstractions to create a world and a discourse of psychological objects Newman and Holzman invite readers to think in new ways about our lives and the world around us Like similar books that make discoveries in the social sciences accessible and exciting to an educated audience *Unscientific Psychology* taps into the desire of readers who are eager to learn what s on the cutting edge of scientific and cultural change Lev Vygotsky Lois Holzman,Fred Newman,2023-05-09 Lev Vygotsky was one of the most talented and brilliant of Soviet psychologists Despite his tragically early death at the age of 38 his accomplishments are enormously impressive he played a key role in restructuring the Psychological Institute of Moscow set up two research laboratories in the major cities of the USSR founded what we call special education and authored some 180 works His innovative theories of thought and speech are important not just for psychology but for other disciplines also Yet even though his ideas have increasingly won popularity there remains a strong need for an accessible introduction to the man and his work In *Lev Vygotsky Revolutionary Scientist* Lois Holzman and Fred Newman have written a clear introductory text suitable for undergraduate students In so doing they have taken the opportunity to set straight the misunderstandings and misuses of Vygotsky s ideas and his work

Places, Sociality, and Ecological Psychology Miguel Segundo-Ortin,Manuel Heras-Escribano,Vicente Raja,2023-06-09 This book presents a collection of essays honoring Professor Harry Heft a leading figure in the field of ecological psychology engaging critically with his work thought and influence Containing 12 chapters written by leading experts from philosophy and psychology this text critically examines questions and expands on crucial ideas from Heft concerning the nature of cognition its relationship to the body and the environment including the social and cultural environment and the main philosophical assumptions underlying the scientific study of psychological functions It elaborates on the notion of affordance and its connection to social cultural and developmental psychology as well as on the application of Roger Barker s eco

behavioral program for current psychology and cognitive science The book includes an extensive interview with Heft where he reflects about the history challenges and future of ecological psychology Finally it presents a chapter written by Heft that offers a systematic response to the critical feedback Given the increasing popularity of ecological psychology and the highly influential work of Harry Heft in related areas such as developmental social and cultural psychology and philosophy this book will appeal to all those interested in the cognitive sciences from a scientific and philosophical perspective It is also a must read for students of psychology philosophy and cognitive science departments **Moral Values** Nicolai Hartmann, 2020-10-26 No detailed description available for Moral Values
