Campbell, 1997-12-01 An intriguing phenomenon in American electoral politics is the loss of seats by the president's party in midterm congressional elections Between 1862 and 1990 the president's party lost seats in the House of Representatives in 32 of the 33 midterm elections In his new study James Campbell examines explanations for these midterm losses and explores how presidential elections influence congressional elections After reviewing the two major theories of midterm electoral change the surge and decline theory and the theory of midterms as referenda on presidential performance Campbell draws upon each to propose and test a new theory He asserts that in the years of presidential elections congressmen ride presidential coattails into office while in midterm elections such candidates are stranded An additional factor is the strength of the presidential vote which influences the number of seats that are won only to be lost later Finally Campbell examines how the presidential pulse may affect electoral accountability the relationship between Congress and the president and the relative strength of Congress the president and political parties He explores the implications of the presidential pulse for understanding electoral change evaluating the American voter's competence and assessing the importance of split ticket voting Including both election returns and survey data *The Presidential Pulse of Congressional Elections* offers a fresh perspective on congressional elections voting behavior Congress and the presidency **Senate Election Law Guidebook 2010, Senate Document 111-18, December 18, 2010, Revised January 1, 2010, * ,2011

The Politics of Congressional Elections Jamie L. Carson, Gary C. Jacobson, 2023-08-21 *The Politics of Congressional Elections* is the most authoritative and accessible introduction available on congressional elections and the electoral process. By pairing historical data analysis and original research with fundamental concepts of representation and responsibility, Carson and Jacobson help students develop the tools to evaluate Congress as well as their own role in the electoral process. The eleventh edition offers an engaging examination of congressional candidates, campaigns and elections by incorporating coverage of the most recent elections and the changing roles of voters, incumbents, challengers, and campaign contributions. This edition also highlights the impact of the January 6th insurrection, inflation, and the economy, the Russian invasion of Ukraine, infrastructure legislation, and the narrowing majorities in both chambers. Brought completely up to date with the latest data from the American National Election Study, the Cooperative Election Study, and the Federal Election Commission, and including coverage and analysis of the 2020 and 2022 elections, this seminal work continues to offer a systematic account of what goes on in congressional elections. Moreover, the authors' framing demonstrates how electoral politics reflect and shape other components of the American political system with profound consequences for representative government. Key revision highlights include: Updated coverage through the 2022 elections, including congressional primaries; Expanded analysis of campaign finance and voter behavior in recent elections; Updated figures and tables with color versions available in the e-book and PowerPoint slides; Greater emphasis on nationalized politics and a return to more party-centered elections; Enhanced analysis of congressional elections data back to the pre-Civil War era. *History of Senatorial Elections in Iowa* Dan Elbert Clark, 1912. Covers the history of senatorial elections in Iowa from 1846-1911 and Senators: Augustus Caesar Dodge, George W. Jones, James Harlan, James W. Grimes, Samuel J. Kirkwood, James B. Howell, George G. Wright, James W. McDill, James F. Wilson, William B. Allison, John H. Gear, Jonathan P. Dolliver, Lafayette Young, Albert B. Cummins, and William S. Kenyon. **Congressional Elections** Paul S. Herrnson, 2015-11-17. In *Congressional Elections: Campaigning at Home and in Washington*, author Paul Herrnson combines top-notch research with real-world politics as he argues that successful candidates run two campaigns: one for votes, the other for resources. Using campaign finance data, original survey research, and hundreds of interviews with candidates and political insiders, Herrnson looks at how this dual strategy affects who wins and how it ultimately shapes the entire electoral system. The Seventh Edition considers the impact of the Internet and social media on campaigning, the growing influence of interest groups in the wake of the Supreme Court's *Citizens United* ruling, and the influence of new voting methods on candidate, party, and voter mobilization tactics. **Senate Election Cases from the 1913 to 1940** United States. Congress. Senate. Special Committee on Privileges and Elections, 1940. *The Making of a Southern Democracy* Tom Eamon, 2014-01-01. The story of modern politics in North Carolina is very much one of American democracy with all its grand ambitions, limitations, and pitfalls. So argues Tom Eamon in his probing narrative of the state's

political path since the 1940s He charts the state's political transformation into a modern democratic society to show that this change was more than an evolution it was a revolution one that largely came about through political means driven by strong movements and individuals working for change By tracking the turbulence of politics throughout the period from racial tensions to student demonstrations to fierce rivalries in the higher education arena Eamon explores how conflict helped build a better society even as the state continued to lag in many areas This rich account opens to readers the unforgettable people and hard fought elections that have shaped North Carolina's competitive personality and have led to the state's emergence as a major player in twenty first century American politics

Campaigns and

Elections Stephen K. Medvic, 2021-11-29 Stephen K Medvic's *Campaigns and Elections* is a comprehensive yet compact core text that addresses two distinct but related aspects of American electoral democracy: the processes that constitute campaigns and elections and the players who are involved. In addition to balanced coverage of process and actors, it gives equal billing to both campaigns and elections and covers contests for legislative and executive positions at the national, state, and local levels, including issue-oriented campaigns of note. The book opens by providing students with the conceptual distinctions between what happens in an election and the campaigning that precedes it. Significant attention is devoted to setting up the context for these campaigns and elections by covering the rules of the game in the American electoral system as well as aspects of election administration and the funding of elections. Then the book systematically covers the actors at every level: candidates and their organizations, parties, interest groups, the media, and voters, and the macro-level aspects of campaigns such as campaign strategy and determinants of election outcomes. The book concludes with a big picture assessment of campaign ethics and implications of the permanent campaign. New to the Fourth Edition: Fully updated through the 2020 elections, looking ahead to the 2022 midterms. Covers the impact of the COVID-19 pandemic on the 2020 election as well as the January 6, 2021 insurrection at the US Capitol. Adds new sections in Chapter 3 on election integrity and the assessment of election administration. Reviews recent Supreme Court cases on gerrymandering and faithless electors. Expands coverage of social media as a source of news of the increasingly partisan nature of the media and of the role of media fact checking in campaigns and elections. Reorganizes the chapters on the various actors so that the chapter on candidates leads directly to the chapter on campaigns. Fully updates the resources listed at the end of each chapter.

Elections in Asia and the Pacific : A Data Handbook Dieter Nohlen, Florian Grotz, Christof Hartmann, 2001-11-15 This two-volume work continues the series of election data handbooks published by OUP. It presents a first-ever compendium of electoral data for all the 62 states in Asia, Australia, and Oceania from their independence to the present. Following the overall structure of the series, an initial comparative introduction on elections and electoral systems is followed by chapters on each state of the region. Written by knowledgeable and renowned scholars, the contributions examine the evolution of institutional and electoral arrangements and provide systematic surveys of the up-to-date electoral provisions and their historical development. Exhaustive statistics on national elections and referendums are given in each chapter. Together with the other books of this series, *Elections in Asia and the Pacific* is a highly reliable resource for historical and cross-national comparisons of elections and electoral systems world-wide. The second volume of *Elections in Asia and the Pacific* covers the Asia-Pacific area, i.e., the 30 independent states of East Asia, including Japan, South East Asia, and the South Pacific, including Australia and New Zealand.
