Paradigms of the Church in Mission Augusto Rodriguez, 2012-02-01 In this book, Augusto Rodriguez provides a historical survey of the different paradigms of Christianity in order to understand how and why the church has changed her concept of being the church and of mission. This book will help in understanding how the different paradigms of Christianity throughout history have changed the church's self-understanding of being the church and of mission. Rodriguez's aim is to provide an opportunity for Christians to see the different paradigms the church has gone through and understand the present situation of the church in order to live out as fully as possible the New Testament understanding of its mission and better accomplish the task.

Our Bishops Speak, 1952 **Mission and Development** Matthew Clarke, 2012-01-26 This book considers the implications, consequences, opportunities, and constraints faced when mission and development endeavours coincide. This is explored from various perspectives, including that of history, theology, and those involved in mission work and missionary organizations. Despite eighty per cent of the world's population professing religious belief, religion has been largely excluded from consideration of those seeking to achieve development in poorer countries. Moreover, the work of missionaries has often involved the provision of basic welfare services that in many parts of the world predate the interventions undertaken by professional secular aid workers. Are missionaries doing development work, or is development a critical aspect of mission?
