Sense Of Place Listening To Americans:

A Sense of Place David Lamb,1993 **Private Needs, Public Selves** John K. Roth,1997 Polls through the 90s show that many Americans believe the nation is in a period of spiritual decline yet public religious display and discussion often is deemed politically incorrect Philosopher John K Roth feels that more outward sharing of religious beliefs thoughts and ideas would bridge the gap between our private needs and our public selves and would give Americans of differing faiths a common identity Road-book America Rowland A. Sherrill,2000 Sketching the socially marginal ingenious traveling characters common to both old and new versions Sherrill shows how the new American picaresque transforms the satirical aims of the original into an effort to map and catalog the immensity and variety of America BOOK JACKET **America's Largest Classroom** Jessica L. Thompson,2020-04-21 Over the past 100 years visitor learning at America s national parks has grown and evolved Today there are over 400 National Park Service NPS sites representing over eighty million acres Sites exist in every US state and territory and are located on land at sea in remote areas and in major urban centers Every year more than 300 million people visit national parks and several million of them are children engaged in one of many educational programs hosted by the NPS America s Largest Classrooms offers insight and practical advice for improving educational outreach at national parks as well as suggestions for classroom educators on how to meaningfully incorporate parks into their curricula Via a wide collection of case studies ranging from addressing inclusivity at parks and public lands to teaching about science and social issues this book illustrates innovations and solutions that will be of interest to nature interpreters outdoor educators and policy makers as well as professors in the sciences writ large Death at Papago Park POW Camp: A Tragic Murder and America's Last Mass Execution Jane Eppinga,2017 World War II came to Arizona via two significant avenues prisoner of war camps and military training bases Notorious for its prisoners attempted escape through the Faustball Tunnel Papago POW Camp also had a dark reputation of violence among its prisoners An unfortunate casualty was Werner Drechsler who supplied German secrets to U S Navy authorities after his capture in 1943 Nazis held there labeled him a traitor and hanged him from a bathroom rafter Controversy erupted over whether the killing was an act of war or murder as well as the lack of protection Drechsler received for aiding in espionage Ultimately seven POWs were hanged for the crime Author Jane Eppinga examines the tangled details and implications of America s last mass execution

Listening to Nineteenth-Century America Mark M. Smith,2015-12-01 Arguing for the importance of the aural dimension of history Mark M Smith contends that to understand what it meant to be northern or southern slave or free to understand sectionalism and the attitudes toward modernity that led to the Civil War we must consider how antebellum Americans comprehended the sounds and silences they heard Smith explores how northerners and southerners perceived the sounds associated with antebellum developments including the market revolution industrialization westward expansion and abolitionism In northern modernization southern slaveholders heard the noise of the mob the din of industrialism and threats

to what they considered their quiet orderly way of life in southern slavery northern abolitionists and capitalists heard the screams of enslaved labor the silence of oppression and signals of premodernity that threatened their vision of the American future Sectional consciousness was profoundly influenced by the sounds people attributed to their regions And as sectionalism hardened into fierce antagonism it propelled the nation toward its most earsplitting conflict the Civil War

Moravian Soundscapes Sarah Justina Eyerly,2020-05-05 In *Moravian Soundscapes* Sarah Eyerly contends that the study of sound is integral to understanding the interactions between German Moravian missionaries and Native communities in early Pennsylvania In the mid 18th century when the frontier between settler and Native communities was a shifting spatial and cultural borderland sound mattered People listened carefully to each other and the world around them In Moravian communities cultures of hearing and listening encompassed and also superseded musical traditions such as song and hymnody Complex biophonic geophonic and anthrophonic acoustic environments or soundscapes characterized daily life in Moravian settlements such as Bethlehem Nain Gnadenh tten and Friedensh tten Through detailed analyses and historically informed recreations of Moravian communal environmental and religious soundscapes and their attendant hymn traditions *Moravian Soundscapes* explores how sounds musical and nonmusical human and nonhuman shaped the Moravians religious culture Combined with access to an interactive website that immerses the reader in mid 18th century Pennsylvania and framed with an autobiographical narrative *Moravian Soundscapes* recovers the roles of sound and music in Moravian communities and provides a road map for similar studies of other places and religious traditions in the future

Recomposing Ecopoetics Lynn Keller,2018-01-16 In the first book devoted exclusively to the ecopoetics of the twenty first century Lynn Keller examines poetry of what she terms the self conscious Anthropocene a period in which there is widespread awareness of the scale and severity of human effects on the planet *Recomposing Ecopoetics* analyzes work written since the year 2000 by thirteen North American poets including Evelyn Reilly Juliana Spahr Ed Roberson and Jena Osman all of whom push the bounds of literary convention as they seek forms and language adequate to complex environmental problems Drawing as often on linguistic experimentalism as on traditional literary resources these poets respond to environments transformed by people and take nature to be a far more inclusive and culturally imbricated category than conventional nature poetry does This interdisciplinary study not only brings cutting edge work in ecocriticism to bear on a diverse archive of contemporary environmental poetry it also offers the environmental humanities new ways to understand the cultural and affective dimensions of the Anthropocene

Radio's America Bruce Lenthall,2008-11-15 Orson Welles s greatest breakthrough into the popular consciousness occurred in 1938 three years before Citizen Kane when his War of the Worlds radio broadcast succeeded so spectacularly that terrified listeners believed they were hearing a genuine report of an alien invasion a landmark in the history of radio s powerful relationship with its audience In Radio s America Bruce Lenthall documents the enormous impact radio had on the lives of Depression era Americans and charts the formative years of our modern mass culture Many Americans became alienated from their government and economy in the twentieth century and Lenthall explains that radio s appeal came from its capability to personalize an increasingly impersonal public arena His depictions of such figures as proto Fascist Charles Coughlin and medical quack John Brinkley offer penetrating insight into radio s use as a persuasive tool and

Lenthall's book is unique in its exploration of how ordinary Americans made radio a part of their lives. Television inherited radio's cultural role and as the voting tallies for American Idol attest, broadcasting continues to occupy a powerfully intimate place in American life. Radio's America reveals how the connections between power and mass media began.

Zuni and the American Imagination Eliza McFeely, 2001

Cushing, a writer of then popular books, tended to turn all Zuni expressions into fables. When artifacts and informants could not answer his questions, McFeely writes, he re-created the circumstances and allowed his own intuition to supply the missing links. And Culin was so entranced by Zuni material culture—by baskets and jewelry he acquired mostly from white traders—that he scarcely seems to have noticed the living people of the pueblo.

Washington Irving's Critique of American Culture J. Woodrow McCree, 2021-06-24

Washington Irving's Critique of American Culture: Sketching a Vision of World Citizenship challenges long-standing views of Washington Irving. He has been portrayed as writing in the 18th-century style of Addison and Goldsmith without having much substance of his own. Irving has also been accused of being insufficiently American and adrift in an identity crisis. The author argues that Irving addressed the American cultural context very extensively; he was a writer of substance who articulated an ethic of world citizenship that was found in the philosophy of ancient Greek cynics and stoics. This ethic was united with a love of picturesque travel which emphasized variety and texture in experience, resulting in an extraordinary affirmation of the value of cultural diversity in the new Republic. Irving was in fact a liminal figure straddling Romantic and neoclassical modes of writing and acting. The author draws attention to Irving's success as a writer in the pictorial mode. Irving also expressed a critique of cultural loss and environmental destruction like that articulated by the artist Thomas Cole. The work embraces an interdisciplinary approach where insights from philosophy, religion, art history, and social history shed light on an underestimated writer.

The Routledge History of Latin American Culture Carlos Manuel Salomon, 2017-12-22

The Routledge History of Latin American Culture delves into the cultural history of Latin America from the end of the colonial period to the twentieth century, focusing on the formation of national, racial, and ethnic identity, the culture of resistance, the effects of Eurocentrism, and the process of cultural hybridity to show how the people of Latin America have participated in the making of their own history. The selections from an interdisciplinary group of scholars range widely across the geographic spectrum of the Latin American world and forms of cultural production. Exploring the means and meanings of cultural production, the essays illustrate the myriad ways in which cultural output illuminates political and social themes in Latin American history. From religion to food, from political resistance to artistic representation, this handbook showcases the work of scholars from the forefront of Latin American cultural history, creating an essential reference volume for any scholar of modern Latin America.
