[The Italian Far Right from 1945 to the Russia-Ukraine Conflict](#) Nicola Guerra,2023-12-19 The Italian Far Right from 1945 to the Russia Ukraine Conflict provides a comprehensive account of the postwar parliamentary and extra parliamentary far right in Italy This book explores the ideology movements and activism of the extreme right and neo fascists The recent victory in the Italian parliamentary elections of the post fascist party Fratelli d Italia and its leader Giorgia Meloni highlights the importance of such research The book examines why some of these movements participated with CIA backing in the Strategy of Tension in the years of the Cold War where terrorist actions aimed to keep Italy in NATO and prevent the Communist Party from coming to power while other extreme right groups vehemently opposed this and what they considered the dangerous Americanization of the country It debunks the myth that there was a unified postwar fascist movement in Italy but instead excavates the complex battles within the extreme right as well as with their opponents from the left and the authorities This study is necessary to clarify the history and ideological dynamics of a political area still too often shrouded in mystery and whose geopolitical role is still poorly understood and generally underestimated The analysis is contextualized in the present day by looking at the different perspectives of the Italian far right on the Russian invasion of Ukraine The book will be of interest to researchers of political history the Cold War and Italian history and politics

From Mafia to Organised Crime Anna Sergi,2017-07-19 This book presents primary research conducted in Italy USA Australia and the UK on countering strategies and institutional perceptions of Italian mafias and local organized crime groups Through interviews and interpretation of original documents this study firstly demonstrates the interaction between institutional understanding of the criminal threats and historical events that have shaped these perceptions Secondly it combines analysis of policies and criminal law provisions to identify how policing models which combat mafia and organised crime activities are organized and constructed in each country within a comparative perspective After presenting the similarities between the four differing policing models Sergi pushes the comparison further by identifying both conceptual and procedural convergences and divergences across both the four models and within international frameworks By looking at topics as varied as mafia mobility money laundering drug networks and gang violence this book ultimately seeks to reconsider the conceptualizations of both mafia and organized crime from a socio
