Serbian Legacy:

Balkan Legacies John Paul Newman, Balázs Apor, 2021-06-15 *Balkan Legacies* is a study of the aftermath of war and state socialism in the contemporary Balkans. The authors look at the inescapable inheritances of the recent past and those that the present has to deal with. The book's key theme is the interaction, often subliminal, of the experiences of war and socialism in contemporary society in the region. Fifteen contributors approach this topic from a range of disciplinary backgrounds and through a variety of interpretive lenses, collectively drawing a composite picture of the most enduring legacies of conflict and ideological transition in the region without neglecting national and local peculiarities. The guiding questions addressed are: what is the relationship between memories of war, dictatorship, communist or fascist, and present-day identity, especially from the perspective of peripheral and minority groups and individuals? How did these components interact with each other to produce the political and social culture of the Balkan Peninsula today? The answers show the ways in which the experiences of the latter part of the twentieth century have defined and shaped the region in the twenty-first century. *The Legacy of Yugoslavia* Othon Anastasakis, Adam Bennett, David Madden, Adis Merdzanovic, 2020-06-25 What are the consequences of Yugoslavia's existence and breakup for the present? This book reflects on this very question, identifying and analysing the political legacies left behind by Yugoslavia through the prism of continuities and ruptures between the past and present of the area. After the collapse of Yugoslavia, its former states adopted a nation-building process which opted to eradicate the past as such; an approach seemed more convenient for the new national projects. The new states adopted new institutions, new market-oriented economic paradigms and new national symbols. Yugoslavia existed for 70 years, and to consider the current political situation in post-Yugoslav states such as Slovenia, Croatia, Bosnia and Herzegovina, Serbia, Montenegro, North Macedonia, and Kosovo without taking into account the legacy and remnants of Yugoslavia is to discount a vital part of their political history. This volume takes a multi-disciplinary and multi-faceted approach to examining the legacy of Yugoslavia, covering politics, society, international relations, and economics. Focusing on distinctive features of Yugoslavia, including worker self-management, the combination of liberalism and communism, and the Cold War policy of Non-Alignment, *The Legacy of Yugoslavia* places Yugoslavia in historical perspective and connects the region's past with its contemporary political situation. **The Serbian Folk Epic** Krstivoj Kotur, 2022-02-22 This scholarly study explores the moral and religious philosophy of Serbian folk poetry and makes its literary treasures available to English speakers. This thorough and well-documented study examines the theology and anthropology of the Serbian folk epic. The book opens a new field in Slavic folklore and offers scholars material previously unavailable in English. The work also sheds light on the soul of Serbian national culture. A scholar of Eastern European culture and history, Krstivoj Kotur investigates a number of fascinating topics, including conceptions of God, man's relationship to culture and civilization, the transcendentalism of Serbian folk poets, the deep ontological, cosmic, and theurgic character of the heroes of the Serbian folk epic, and many others.

National-Socialist Archaeology in Europe and its Legacies Martijn Eickhoff, Daniel Modl, Katie Meheux, Erwin Nuijten, 2023-08-14 This edited volume is dedicated to national socialist archaeology as a Europe wide phenomenon It analyses national socialist attempts to denationalize the archaeologies of European nations by creating a new unifying European archaeology on a racial basis From the beginning of the nineteenth century archaeology began to develop into an important force behind processes of nation building At the same time structures of transnational academic collaboration contributed strongly to the internal dynamics of the research field which was primarily organized on a national basis In those European countries that were confronted with national socialist occupation and repression between 1939 and 1945 these transnational archaeological networks were to prove crucial for the development of national socialist archaeological policies This volume will reveal how national socialist archaeology was to an extent valued positively in its time as highly innovative even influencing the archaeology of non occupied countries Although in the final instance it generally failed to displace the national archaeologies in Europe the volume also analyses the long term impact of national socialist rule on the development of European archaeology How did the attempts to create a unified European archaeology after 1945 continue to influence networks methods and terminologies institutional structures or popular representations of the early past Chapter 1 Is available open access under a Creative Commons Attribution 4.0 International License via Springerlink [Sacralizing the Nation through Remembrance of Medieval Religious Figures in Serbia, Bulgaria and Macedonia](#) Stefan Rohdewald, 2022-05-20 Religious figures of remembrance served to consolidate first dynastic rule and later nation state legitimacy and community This book explains the interweaving of Eastern Roman medieval Serbian and Bulgarian contexts as well as Ottoman and Western European national discourses or reinvented traditions We can distinguish a secularization and nationalization of the religious contexts in the 19th century within historicism followed by a nationalization of God and a sacralization of the nation until the end of WWII Contrary to the national views the origins of the modern content of these discourses lie only to a very limited extent in the Middle Ages or in the Early Modern period as this study shows Please note this is volume 2 of a 2 volume set Click here to see volume 1 **Islam and the West** Ardavan Amir-Aslani, 2013-03-19 Iran and all Muslim countries are in the news This book offers insights into issues facing America today **Images of Imperial Legacy** Tea Sindbaek, Maximilian Hartmuth, 2011 There has been a tendency to view the history of the Balkans as essentially determined by historical legacies Whether in scholarly literature or in popular discourse the Ottoman or Habsburg pasts are thought to be accountable for a large variety of phenomena ranging from democratic culture or the lack thereof and adaptability to a free market economy to nepotism and the filthiness of public facilities By contrast the papers in this volume demonstrate that legacies are not unchanging determinants Instead they are very much open to constant reinterpretations and re assessments depending on conditions in the present they are in short as much shaped by the present as they are by the past Series Studien zur Geschichte Kultur und Gesellschaft Südosteuropas Vol 10 [Legacies of the International](#)

The Conscience of Humankind ,2021-11-22 The traumatic experiences of persecution and genocide have changed traditional views of literature The discussion of historical truth versus aesthetic autonomy takes an unexpected turn when confronted with the experiences of the victims of the Holocaust the Gulag Archipelago the Cultural Revolution Apartheid and other crimes against humanity The question is whether and if so to what extent literary imagination may depart from historical truth In general the first reactions to traumatic historical experiences are autobiographical statements written by witnesses of the events However the second and third generations the sons and daughters of the victims as well as of the victimizers tend to free themselves from this generic restriction and claim their own way of remembering the history of their parents and grandparents They explore their own limits of representation and feel free to use a variety of genres they turn to either realist or postmodernist ironic or grotesque modes of writing

Balkan Legacies of the Great War Othon Anastasakis, David Madden, Elizabeth Roberts, 2016-04-29 This is a rich yet succinct account of an underexplored story the consequences of the Great War for the region which ignited it It offers a fascinating tapestry the collapse of Empires the birth of Turkey and Yugoslavia Greece as both victor and loser Bulgaria s humiliating defeat bitter memories forced migrations territorial implications and collective national amnesias The legacies live on The contributions in this volume significantly enhance the debate about how the Great War is remembered in South East Europe and why it still evokes such strong emotions and reactions more than a century after its beginnings

Entangled Histories of the Balkans - Volume Three Roumen Daskalov, Alexander Vezenkov, 2015-03-10 Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories The authors in this volume take a different approach They view the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories This regards the treatment of shared historical legacies by rival national historiographies The volume deals with historiographical disputes that arose in the process of nationalizing the past Contributors include Diana Mishkova Alexander Vezenkov Roumen Daskalov Tchavdar Marinov and Bernard Lory *Rival Byzantiums* Diana Mishkova, 2022-12-15 This is a comprehensive comparative view of the way the phenomenon of Byzantium has been treated by the historiographies of the polities that have emerged from its remains Bulgaria Greece Romania Serbia and Turkey from the Enlightenment to the present day Synthesising a sprawling mass of material largely unknown to academic audiences it highlights the important place Byzantium's representations occupy in the identity building and historical consciousness in that part of Europe The diverse interpretations of the Byzantine phenomenon across and within these historiographic traditions are scrutinised against the backdrop of shifting geopolitical and cultural contexts in constant dialogue and competition with each other and in communication with extra regional western and Russian academic currents The book will be of value to medieval historians Byzantinists and historians of historiography as well as students of and specialists in modern politics cultural and intellectual history

The Foreign Policy of Serbia (1844-1867): Ilija Garašanin's Načertanije Dušan T. Bataković, 2014 Contemporary analysis of Serbia's foreign policy in the middle of the nineteenth century has remained in a deep shadow of the Načertanije a document conceived in 1844 in Belgrade as a result of collaboration between Serbia's interior minister Ilija Garašanin and F A Zach the representative of the Polish political emigration from Paris led by Prince A Czartoryski in the capital of the autonomous Principality of Serbia Prince Czartoryski author of Councils for Serbia's foreign policy in 1843 considered Serbia the sole semi independent state among Slavs in South Eastern Europe a nucleus of a wider Serbia led South Slav state that might endorse an anti Russian and anti Austrian policy as a support for his wider plans regarding the restoration of independent Poland The over ambitious pan Slav project of F Zach Serbia's Slavic Policy was eventually modified by Garašanin to a more realistic and attainable plan in accordance

with Serbia's modest demographic and military potential limited international experience and still humble administrative capacities Planning the unification of the predominantly Serb inhabited lands under Ottoman rule was appropriately adapted to the geopolitical realities of 1844 The foreign policy of Serbia under Gara anin during the rule of the pro Austrian Prince Alexander Karadjordjevi and Gara anin's premiership under Russophile Prince Michael Obrenovi was balancing between various political options that were dominating Europe and the Balkans between the 1848 Revolution and the Crimean War and the first Balkan Alliance Gara anin was continuously prudent and bold in pursuing realistic political ambitions regarding large scale anti Ottoman activities by building a network of confidants and agents throughout Turkey in Europe that was to form a joint insurrection against the Ottoman rule During its last phase Gara anin's foreign policy gradually evolved into the direction of closer Yugoslav and Balkan cooperation Back cover *Serbian Legacy, Etc. [On the Architecture of Serbia. With a Map.]*. Cecil Stewart, 1959 *Balkan Historiographical Wars* Diana Mishkova, Roumen Daskalov, 2025-09-13 The studies in this volume present some of the major historiographical wars over the medieval Balkan past fought by the historians of competing nation states in the region ethnic origins and national makeup of medieval states and disputed regions ownership of the historical heritage located in or associated with that territory provenance or national consciousness of important historical personalities the boundaries of a certain medieval state and its political religious and cultural influence on others these are some of the issues around which major clashes between the modern Balkan historiographies occurred The book is valuable to all those interested in how the medieval past becomes instrumentalized by the national historians in the service of constructing the national canons of history *Serbian Paramilitaries and the Breakup of Yugoslavia* Iva Vukušić, 2022-09-30 This is the first book to offer a comprehensive analysis of the emergence nature and function of Serbian paramilitary units during the violent breakup of Yugoslavia The book investigates the nature and functions of paramilitary units throughout the 1990s and their ties to the state and President Slobodan Milo evi The work relies on the archives of the International Criminal Tribunal for the former Yugoslavia in The Hague which conducted dozens of trials relating to paramilitary violence and records from judicial proceedings in the region It discusses how and why certain important paramilitary units emerged how they functioned and transformed through the decade what their relationships and entanglements were with the state the Milo evi regime and organized crime The study thus investigates the interrelated ideological political and social factors and processes fueling paramilitary engagement and assesses the impact of this engagement on victims of paramilitary violence and on the state and society for which the units purportedly fought It argues that coordinated action by a number of state institutions gave rise to paramilitaries tasked with altering borders while maintaining plausible deniability for the sponsoring regime The outsourcing of violence by the state to paramilitaries led to a significant weakening of the very state these units and their sponsors swore to protect The book also analyzes differences between the units and how they attacked civilians arguing that the different forms of violence stemmed not only from the

function they fulfilled for the state but also the ways in which they were set up and operated The final chapter brings the different strands of the argument together into a coherent whole suggesting avenues for further research in the former Yugoslavia and beyond This book will be of much interest to students of ethnic conflict and civil war war crimes Balkan politics and International Relations in general
