Also included are five selections from *Points on Jazz*: *Prelude*, *Scherzo*, *Rag Waltz*, *A la Turk*. Brubeck himself describes *Glances* as my most Milhaud inspired work, a tribute to the French composer with whom Dave studied composition. *Points on Jazz* was commissioned by the American Ballet Theatre and the cover of this incredible collection features Dave at the piano surrounded by the dancers. Pennsylvania Railroad Company**, 1965 *The Urban Roots of Democracy and Political Violence in Zimbabwe* Timothy Scarnecchia, 2008 The author further proposes that this recourse to political violence top down nationalism and the abandonment of urban democratic traditions are all hallmarks of a particular type of nationalism equally unsustainable in Zimbabwe then as it is now. **BOOK JACKET** *West Coast Jazz* Ted Gioia, 1998-10 From the Preface by Ted Gioia All of these musicians fought their way back over the next decade and their success in re-establishing themselves as important artists was perhaps the first signal initially unrecognized as such that a re-evaluation of the earlier

West Coast scene was under way Less fortunate than these few were West Coasters such as Sonny Criss Harold Land Curtis Counce Carl Perkins Lennie Niehaus Roy Porter Teddy Edwards Gerald Wilson and those others whose careers languished without achieving either a later revival or even an early brief taste of fame Certainly some West Coast jazz players have been awarded a central place in jazz history but invariably they have been those who like Charles Mingus or Eric Dolphy left California for Manhattan Those who stayed behind were for the most part left behind The time has come for a critical re evaluation of this body of work With more than forty years of perspective since modern jazz came to California we can perhaps now begin to make sense of the rich array of music presented there during those glory years But to do so we need to start almost from scratch We need to throw away the stereotypes of West Coast jazz reject the simplifications catchphrases and pigeonholings that have only confused the issue So many discussions of the music have begun by asking What was West Coast jazz as if some simple definition would answer all our questions And when no simple answer emerged how could it when the same critics asking the question could hardly agree on a definition of jazz itself this failure was brandished as grounds for dismissing the whole subject My approach is different I start with the music itself the musicians themselves the geography and social situation the clubs and the culture I tried to learn what they have to tell us rather than regurgitate the dubious critical consensus of the last generation Was West Coast jazz the last regional style or merely a marketing fad Was there really ever any such thing as West Coast jazz If so was it better or worse than East Coast jazz Such questions are not without merit but they provide a poor start for a serious historical inquiry I ask readers hoping for quick and easy answers to approach this work with an open mind and a modicum of patience Generalizations will emerge broader considerations will become increasingly clear but only as we approach the close of this complex story after we have let the music emerge in all its richness and diversity By starting with some theory of West Coast jazz we run the risk of seeing only what fits into our theory Too many accounts of the music have fallen into just this trap Instead we need to see things with fresh eyes hear the music again with fresh ears

Dave Brubeck's Time Out Stephen A. Crist, 2019 Dave Brubeck's Time Out ranks among the most popular successful and influential jazz albums of all time Released by Columbia in 1959 alongside such other landmark albums as Miles Davis's Kind of Blue and Charles Mingus's Mingus Ah Um Time Out became one of the first jazz albums to be certified platinum while its featured track Take Five became the best selling jazz single of the twentieth century surpassing one million copies In addition to its commercial successes the album is widely recognized as a pioneering endeavor into the use of odd meters in jazz With its opening track Blue Rondo à la Turk written in 9/8 its hit single Take Five in 5/4 and equally innovative uses of the more common 3/4 and 4/4 meters on other tracks Time Out has played an important role in the development of modern jazz In this book author Stephen A. Crist draws on nearly fifteen years of archival research to offer the most thorough examination to date of this seminal jazz album Supplementing his research with interviews with key individuals including Brubeck's widow Iola and daughter Catherine as well as interviews conducted with Brubeck himself

prior to his passing in 2012 Crist paints a complete picture of the album's origins, creation and legacy. Couching careful analysis of each of the album's seven tracks within historical and cultural contexts, he offers fascinating insights into the composition and development of some of the album's best known tunes. From Brubeck's 1958 State Department sponsored tour during which he first encountered the Turkish aksak rhythms that would form the basis of *Blue Rondo à la Turk* to the backstage jam session that planted the seeds for *Take Five*, Crist sheds an exciting new light on one of the most significant albums in jazz history.

Jazz Eddie S. Meadows, 2013-10-23 *Jazz Research and Pedagogy* is the third edition of an annotated bibliography to books, recordings, videos and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of books on jazz research, performance and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new comprehensive and annotated reference book on jazz is apparent. Multiply indexed, this book will serve as an excellent tool for librarians, researchers and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade.

AUDINT-Unsound:Undead Steve Goodman, Toby Heys, Eleni Ikoniadou, 2019-06-18 Tracing the potential of sound, infrasound and ultrasound to access anomalous zones of transmission between the realms of the living and the dead. For as long as recording and communications technologies have existed, operators have evoked the potential of sound, infrasound and ultrasound to access anomalous zones of transmission between the realms of the living and the dead. In *Unsound Undead*, contributors from a variety of disciplines chart these undead zones, mapping out a nonlinear timeline populated by sonic events stretching from the 8th century BC (the song of the Sirens) to 2013 (acoustic levitation with a speculative extension into 2057, the emergence of holographic and holosonic phenomena). For the past seven years, the AUDINT group has been researching peripheral sonic perception, unsound and the ways in which frequencies are utilized to modulate our understanding of presence, non-presence, entertainment, torture and ultimately life and death. Concurrently, themes of hauntology have inflected the musical zeitgeist, resonating with the notion of a general cultural malaise and a reinvestment in traces of lost futures inhabiting the present. This undead culture has already spawned a Lazarus economy in which Tupac ODB and Eazy E are digitally revived as laser-lit holograms. The obscure, otherworldly dimensions of sound have also been explored in the sonic fictions produced by the likes of Drexciya, Sun Ra and Underground Resistance, where hauntology is virtually extended: the future appears in the cracks of the present. The contributions to this volume reveal how the sonic nurtures new dimensions in which the real and the imagined, fictional, hyperstitional, speculative bleed into one another, where actual sonic events collide with spatiotemporal anomalies and time-travelling entities, and where the unsound serves to summon the undead. Contributors: Lawrence Abu Hamdan, Lendl Barcelos, Charlie Blake, Lisa Blanning, Brooker Buckingham, Al Cameron, Erik Davis, Kodwo Eshun, Matthew Fuller, Kristen Gallerneaux.
