The Zionist Paradox Yigal Schwartz, 2014-08-26 Many contemporary Israelis suffer from a strange condition Despite the obvious successes of the Zionist enterprise and the State of Israel tension persists with a collective sense that something is wrong and should be better This cognitive dissonance arises from the disjunction between place defined as what Israel is really like and Place defined as the imaginary community comprised of history myth and dream Through the lens of five major works in Hebrew by writers Abraham Mapu 1853 Theodor Herzl 1902 Yosef Luidor 1912 Moshe Shamir 1948 and Amos Oz 1963 Schwartz unearths the core of this paradox as it evolves over one hundred years from the mid nineteenth century to the 1960s

Snakes, People, and Spirits, Volume Two Robert Hazel, 2020-05-07 This two volume publication offers an in depth analysis of ophidian symbolism in Eastern Africa while setting the topic within its regional and historical context namely with regards to the rest of Africa ancient Egypt and

Mesopotamia the Greek world ancient Palestine Arabia India and medieval and pre Christian Europe Through the ages most of those areas have connected with Eastern Africa in a broad sense where ophidian symbolism was as rampant and far reaching if not more so as anywhere else on the continent and perhaps in past civilisations Much as in the wider context snakes were held to be long lived closely related to holes caverns trees and water life and death and credited with a liking for milk Even though ophidian symbolism has always been developed out of the outstanding biological and ethological features of snakes the process of symbolisation which plays a crucial role in the elaboration of cultural systems and the shaping of human experience was inevitably at work This second volume focuses on southern Abyssinia an area of Eastern Africa *latu senso* where the connection between snakes and paramount religious leaders was especially far reaching Their clans were said to be the outcome of sexual encounters between a young woman and an ophidian These leaders bred and fed snakes Some of them buried dead snakes in their compounds Their curse was likened to the bite of a deadly serpent This volume is devoted to a few communities of southern Abyssinia notably the Oromo an important group that has fascinated European travellers missionaries and social science specialists over a period of 150 years The rich Oromo ethnographic record lends itself to full circle analysis This volume represents a significant contribution to the study of the mysterious snake priests of the Oromo Hoor Konso and Burji peoples In Eastern Africa the meanings attributed to snakes were multifaceted and paradoxical Overall the two volumes of this publication show that African snake symbolism broadly echoed the diverse representations of ancient civilisations The widely acknowledged assimilation of snakes to death and Evil is therefore unrepresentative both historically and culturally
