Labor Peter KOLCHIN, 2009-06-30 Two massive systems of unfree labor arose a world apart from each other in the late sixteenth and early seventeenth centuries The American enslavement of blacks and the Russian subjection of serfs flourished in different ways and varying degrees until they were legally abolished in the mid nineteenth century Historian Peter Kolchin compares and contrasts the two systems over time in this magisterial book which clarifies the organization structure and dynamics of both social entities highlighting their basic similarities while pointing out important differences discernible only in comparative perspective These differences involved both the masters and the bondsmen The independence and resident mentality of American slaveholders facilitated the emergence of a vigorous crusade to defend slavery from outside attack whereas an absentee orientation and dependence on the central government rendered serfholders unable successfully to defend serfdom Russian serfs who generally lived on larger holdings than American slaves and faced less immediate interference in their everyday lives found it easier to assert their communal autonomy but showed relatively little solidarity with peasants outside their own villages American slaves by contrast were both more individualistic and more able to identify with all other blacks both slave and free Kolchin has discovered apparently universal features in master bondsman relations a central focus of his study but he also shows their basic differences as he compares slave and serf life and chronicles patterns of resistance If the masters had the upper hand the slaves and serfs played major roles in shaping and setting limits to their own bondage This truly unprecedented comparative work will fascinate historians sociologists and all social scientists particularly those with an interest in comparative history and studies in slavery

techniques originated in Roberto Assagioli's system of psychosynthesis enriched by the Findhorn experience of living in community. Every person is born with the capacity to love. Over time, however, many of us have built barriers within ourselves as a reaction to painful experiences, and following these we often develop fears, beliefs, and behaviors that keep these barriers firmly in place. The primary lesson in life is to learn to love, and this starts right on our doorstep. Often it is self-doubt and feelings of unworthiness that hold us back from experiencing all the love around us. Only when we start to love and accept ourselves with all that we are, can we love others freely and fully. Learning to love requires an intention to change and a willingness to take action. Once we understand how to work with our doubts and fears and learn how to change our beliefs and behavior, our barriers will melt away, and we spontaneously open up to connect deeply and harmoniously with the full flow of the river of life. In this simple yet insightful guide, Eileen Caddy and David Earl Platts detail the down-to-earth practicalities of exploring feelings, attitudes, beliefs, and past experiences that block us from loving and from receiving love. They show how bringing more love into our lives is not a mystery but often a journey back to ourselves and our core values. The authors examine the feelings of acceptance, trust, forgiveness, respect, opening up, and taking risks among others within a framework of compassionate understanding and non-judgment. Deceptively simple yet profound exercises, meditations, and visualizations support the reader in examining their inner world and implementing these vital concepts into their lives. The teachings in the book are based on popular workshops that Eileen, co-founder of the Findhorn Foundation Community, and David facilitated for years in and outside Findhorn. Many of the underlying principles and techniques originate in the system of psychosynthesis devised by Roberto Assagioli. **Learning to Love** invites you to make a free and informed choice to bring more love into your life and then helps you implement this choice step by step with confidence and joy. **Chalo Jahaji** Brij V. Lal, 2012-12-01. It is a milestone in subaltern studies, a biographical journey penned by a living relic of the indentured experience and a scholar whose thoroughly interdisciplinary approach is a good example for the anthropologist, the sociologist, or the economist who wish to see the proper integration of their disciplines in a major historical work. Brinsley Samaroo, University of the West Indies, St. Augustine Campus, Trinidad. **How to Open Your Heart to Love** Tatiana Busan, 2024-11-30. To love a man and love yourself, there is one step you must take: open yourself up to love. Suffering arises when you close yourself off to the possibility of attracting love. If you see yourself as a victim of disappointment in love, you block the possibility of attracting a happy relationship. If you want more harmony and love in your relationship, start taking care of your thoughts, beliefs, feelings, words, and actions day after day with awareness. Your thoughts, emotions, words, and actions create your reality. Has what you thought was love and happiness begun to turn into suffering? Are you suffering in a relationship but think that suffering is part of love? Despite your desire for healthy love, does love seem to elude you? Have you ever felt that your heart is blocked, closed off by disappointment or fear? If you are not happy in your relationship, only you can change your reality. Even if you are not always aware of it, you are constantly manifesting your reality. Without exception, you
