Paving the Way for Children's Success offers a model that will help clinicians achieve this alliance The model presented in this book focuses on ways to integrate child assessment and treatment with that of their parents and families level of function It uses the authors unique concept of the Zones of Care to help clinicians assess this level of function In turn each of the four zones leads to a specific approach to treatment The authors present how these treatment approaches to current internalizing and externalizing disorders in children and adolescents allow clinicians to integrate a wide variety of techniques to address most DSM IV categories Their approach stresses both symptom reduction and the

cultivation of coping skills It also integrates fiscal issues of treatment into the development of the alliance with the parents in resolving the presenting problem Dr Ziegler and Dr Bush present the reader with practical workable strategies for laying down strong diagnostic foundations for successful treatment making Paving the Way for Children's Success a valuable resource for any clinician working with children and adolescents **When the Vow Breaks** Joseph Warren
