Love Analyzed:

Love Analyzed Roger Lamb, 2018-02-20 Philosophers have turned their attention in recent years to many previously unmined topics among them love and friendship In this collection of new essays in philosophical and moral psychology philosophers turn their analytic tools to a topic perhaps most resistant to reasoned analysis erotic love Also included is one previously published paper by Martha Nussbaum Among the problems discussed are the role that qualities of the beloved play in love the so called union theory of love intentionality and autonomy in love and traditional issues surrounding jealousy and morality

The Moral Psychology of Love Arina Pismenny, Berit Brogaard, 2022-03-28 Under what circumstances can love generate moral reasons for action Are there morally appropriate ways to love Can an occurrence of love or a failure to love constitute a moral failure Is it better to love morally good people This volume explores the moral dimensions of love through the lenses of political philosophy psychology and neuroscience It attempts to discern how various social norms affect our experience and understanding of love how love relates to other affective states such as emotions and desires and how love influences and is influenced by reason What love is affects what love ought to be Conversely our ideas of what love ought to be partly determined by our conception of what love is

Forgiveness and Love Glen Pettigrove, 2012-08-30 What is forgiveness When is it appropriate Is it to be earned or can it be freely given Is it a passion we cannot control or something we choose to do Glen Pettigrove explores the relationship between forgiving understanding and loving He examines the significance of character for the debate and revives the long neglected virtue of grace

New Philosophical Essays on Love and Loving Simon Cushing, 2021-09-20 New philosophical essays on love by a diverse group of international scholars Topics include contributions to the ongoing debate on whether love is arational or if there are reasons for love and if so what kind the kinds of love there may be between humans and artificial intelligences between non human animals and humans whether love can explain the difference between nationalism and patriotism whether love is an necessary component of truly seeing others and the world whether love like free will is fragile and may not survive in a deterministic world and whether or not love is actually a good thing or may instead be a force opposed to morality Key philosophers discussed include Immanuel Kant Iris Murdoch Bernard Williams Harry Frankfurt J David Velleman Niko Kolodny Thomas Hurka Bennett Helm Alfred Mele and Derk Pereboom Essays also touch on the treatment of love in literature and popular culture from Graham Greene s *The End of the Affair* to Spike Jonze s movie *her*

Love on Trial: Adjusting and Assigning Relationships, 2020-04-28

Politics and the Order of Love Eric Gregory, 2008-08-15 Augustine for all of his influence on Western culture and politics was hardly a liberal Drawing from theology feminist theory and political philosophy Eric Gregory offers here a liberal ethics of citizenship one less susceptible to anti liberal critics because it is informed by the Augustinian tradition The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism Gregory examines a broad range of Augustine s texts and their reception in different disciplines and identifies two classical themes which have

analogues in secular political theory love and related notions of care solidarity and sympathy and sin as well as related notions of cruelty evil and narrow self interest From an Augustinian point of view Gregory argues love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics In providing a constructive argument for Christian participation in liberal democratic societies Gregory advances efforts to revive a political theology in which love's relation to justice is prominent Politics and the Order of Love will provoke new conversations for those interested in Christian ethics moral psychology and the role of religion in a liberal society

Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In Love's Vision Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's Symposium love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature Love's Vision is an original examination of a subject of vital philosophical and human concern

Catechesis for the New Evangelization Brian Pedraza, 2020-06-12 Popes Francis Benedict XVI and John Paul II have called the present a time of New Evangelization for the Church and have stressed the importance of catechesis for this mission John Paul II claimed that this renewal of the Church's mission is grounded in the teachings of the Second Vatican Council Nevertheless approaches to catechesis in the conciliar and postconciliar era have varied greatly as evidenced by the shifts in catechetical practice effected by the modern catechetical movement Just as the dominant forms of theology changed from neo scholastic to anthropological approaches so too did catechesis move from catechism based approaches to more anthropological models based upon human experience In light of this context Catechesis for the New Evangelization examines the theological foundations of catechesis in the Church's understanding of divine revelation and its reception by the human person especially as found in the conciliar constitutions Dei Verbum and Gaudium et Spes After drawing norms on divine revelation from these documents it traces the history of the modern catechetical movement in order to compare this history with the conciliar norms highlighting the renewal's strengths and weaknesses These steps prepare the way for the main part of the book an examination of the anthropology of Karol Wojtya a Pope John Paul II Ultimately his anthropology provides an understanding of the person that can unite divine revelation and human experience in a way that takes what is best from the modern catechetical movement while developing the ministry in

a way that can be fruitful for the New Evangelization Pedraza's book is not only an incisive look at modern catechetical history and theory. It also touches upon some of the most important theological topics of the past century including the neo-scholastic crisis, the proper interpretation of the Council, the relationship of nature and grace and the modern understanding of the *imago dei* with the research and competency appropriate for scholarly interest and the accessibility needed for educated practitioners in catechesis.

The Things That Really Matter Michael Hauskeller, 2022-05-10 While being rooted in the academic discourse *The Things That Really Matter* comprehensively explores the most fundamental aspects of human life in an accessible non-technical language adding fresh perspectives and new arguments and considerations that are designed to stimulate further debate and in some cases a deliberate redirection of research interests in the respective areas. It features a series of conversations about the things in our life that we all in one way or another wrestle with if we are at all concerned about what kind of world we live in and what our role in it is: things like birth, age and death, good and evil, the meaning of life, the nature of the self and the role the body plays for our identity, our gendered existence, love and faith, free will, beauty and our experience of the sacred. Situating abstract ideas in concrete experience *The Things That Really Matter* encourages the reader to participate in an open-ended dialogue involving a variety of thinkers with different backgrounds and orientations. Lively and accessible, it shows thinking as an open-ended process and a collaborative endeavour that benefits from talking to each other rather than against each other, featuring real conversations where ideas are explored, tested, changed and occasionally dropped. It is thinking in motion, personal yet universal.

Joseph Albo on Free Choice Shira Weiss, 2017 Joseph Albo on Free Choice discovers unsuspected philosophical originality in the interpretations of biblical narrative found in Joseph Albo's *Book of Principles*. Free choice, a significant topic during a historical period of religious coercion, emerges as a conceptual theme throughout his work.

Self to Self J. David Velleman, 2006-01-26 This collection of essays by philosopher J. David Velleman on personal identity, autonomy and moral emotions is united by an overarching thesis: that there is no single entity denoted by the self, as well as themes from Kantian ethics and Velleman's work in the philosophy of action.

Philosophy of Love, Sex, and Marriage Raja Halwani, 2010-05-26 How is love different from lust or infatuation? Do love and marriage really go together like a horse and carriage? Does sex have any necessary connection to either? And how important are love, sex and marriage to a well-lived life? In this lively, lucid and comprehensive textbook, Raja Halwani pursues the philosophical questions inherent in these three important aspects of human relationships, exploring the nature, uses and ethics of romantic love, sexuality and marriage. The book is structured in three parts. Love begins by examining how romantic love differs from other types of love such as friendship and parental love. It asks which properties of love are essential, whether people have a choice in whom they love and whether lovers have moral obligations to one another that differ from those they owe to others. Sex demonstrates the difficulty in defining sex and the sexual and examines what

constitutes good and bad sex in terms of pleasure naturalness and moral permissibility It offers theoretical and applied ethical approaches to a wide range of sexual phenomena Marriage traces the history of the institution and describes the various forms in which marriage exists and the reasons why people marry It also surveys accounts of why people should or should not marry and introduces the main arguments for and against gay marriage Features include suggestions for further reading online eResource site with downloadable discussion questions a clear jargon free writing style Vertigo Katalin Makkai,2013-08-21 Released in 1958 Vertigo is widely regarded as Alfred Hitchcock s masterpiece and one of the greatest films of all time This is the first book devoted to exploring the philosophical aspects of Vertigo Following an introduction by the editor that places the film in context each chapter reflects upon Hitchcock s film from a philosophical perspective Topics discussed include memory loss memorialisation and creativity mimetic or representational art and art as magic the nature of romantic love gender sexual objectification and identity looking the gaze and voyeurism film and psychoanalysis fantasy illusion and reality the phenomenology of colour Including annotated further reading at the end of each chapter this collection is essential reading for anyone interested in Vertigo and an ideal resource for students of film and philosophy
