Navajo Lifeways Contemporary Issues Ancient Knowledge:

Navajo Lifeways Maureen Trudelle Schwarz,2001 I think what is always really amazing to me is that Navajo are never amazed by anything that happens Because it is like in a lot of our stories they are already there Sunny Dooley Navajo Storyteller During the final decade of the twentieth century Navajo people had to confront a number of challenges from unexplained illness the effects of uranium mining and problem drinking to threats to their land rights and spirituality Yet no matter how alarming these issues Navajo people made sense of them by drawing guidance from what they regarded as their charter for life their origin stories Through extensive interviews Maureen Trudelle Schwarz allows Navajo to speak for themselves on the ways they find to respond to crises and chronic issues In capturing what Navajo say and think about themselves Schwarz presents this southwestern people s perceptions values and sense of place in the world "I Choose Life" Maureen Trudelle Schwarz,2014-10-20 How Navajos navigate the complex world of medicine Surgery blood transfusions CPR and organ transplantation are common biomedical procedures for treating trauma and disease But for Navajo Indians these treatments can conflict with their traditional understanding of health and well being This book investigates how Navajos navigate their medically and religiously pluralistic world while coping with illness Focusing on Navajo attitudes toward invasive procedures Maureen Trudelle Schwarz reveals the ideological conflicts experienced by Navajo patients and the reasons behind the choices they make to promote their own health and healing Schwarz has conducted extensive interviews with patients traditional herbalists and ceremonial practitioners and members of Native American Church and Christian denominations to reveal the variety of perspectives toward biomedicine that prevail on the reservation and to show how each group within the tribe copes with health related issues She describes how Navajos interpret numerous health issues in terms of local understanding drawing on both their own and biomedical or Christian traditions She also provides insight into how Navajos use ceremonial practice and prayer to deal with the consequences of amputation or transplantation

Interdisciplinary Collaboration for Water Diplomacy Shafiqul Islam, Kevin M. Smith,2019-11-22 This book introduces the concept of Water Diplomacy as a principled and pragmatic approach to problem driven interdisciplinary collaboration which has been developed as a response to pressing contemporary water challenges

arising from the coupling of natural and human systems The findings of the book are the result of a decade long interdisciplinary experiment in conceiving developing and implementing an interdisciplinary graduate program on Water Diplomacy at Tufts University USA This has led to the development of the Water Diplomacy Framework a shared framework for understanding diagnosing and communicating about complex water issues across disciplinary boundaries This framework clarifies important distinctions between water systems simple complicated or complex and the attributes that these distinctions imply for how these problems can be addressed In this book the focus is on complex water issues and how they require a problem driven rather than a theory driven approach to interdisciplinary collaboration Moreover it is argued that conception of interdisciplinarity needs to go beyond collaboration among experts because complex water problems demand inclusive stakeholder engagement such as in fact value deliberation joint fact finding collective decision making and adaptive management Water professionals working in such environments need to operate with both principles and pragmatism in order to achieve actionable sustainable and equitable outcomes This book explores these ideas in more detail and demonstrates their efficacy through a diverse range of case studies Reflections on the program are also included from conceptualization through implementation and evaluation This book offers critical lessons and case studies for researchers and practitioners working on complex water issues as well as important lessons for those looking to initiate implement or evaluate interdisciplinary programs to address other complex problems in any setting

Religion, Death, and Dying Lucy Bregman, 2009-11-25 A wide ranging anthology for general readers covering many religious ethical and spiritual aspects of death dying and bereavement in American society What do various

spiritual and ethical belief systems have to say about modern medicine's approach to the end of life. Do all major religions characterize the afterlife in similar ways? How do funeral rites and rituals vary across different faiths? Now there is one resource that gathers leading scholars to address these questions and more about the many religious, ethical, and spiritual aspects of death, dying, and bereavement in America. *Religion, Death, and Dying* compares and contrasts the ways different faiths and ethical schools contemplate the end of life. The work is organized into three thematic volumes: first, an examination of the contemporary medicalized death from the perspective of different religious traditions and the professions involved; second, an exploration of complex, often controversial issues including the death of children, AIDS, capital punishment, and war; and finally, a survey of the funeral and bereavement rituals that have evolved under various religions.

Crossing Between Worlds Jeanne M. Simonelli, 2008-03-07 The Navajo people of Canyon de Chelly must negotiate a delicate balance between the old and the new as they struggle to maintain their traditional ways of life in the midst of archaeologists, U.S. Park Service employees, and the increasing numbers of tourists who come to visit this hauntingly beautiful part of northeastern Arizona. Anthropologist and writer Jeanne Simonelli, who worked at Canyon de Chelly as a seasonal park ranger, interweaves stories of her personal experiences and friendships with canyon residents with discussions of native history and culture in the region. Focusing on the members of one extended Navajo family, Simonelli describes the small moments of their daily lives: shearing goats, baking bread, attending a solemn all-night health ceremony, washing clothes at the local laundromat, playing traditional games, and contemporary sports. Talking about the history of the Diné Navajo people and pondering the changes they have witnessed in the canyon and the difficulties they confront, *Crossing Between Worlds* is sumptuously illustrated with insightful black and white photographs that document the everyday activities of Navajo families in one of the most spectacular corners of the American Southwest.

Diné dóó Gáamalii Farina King, 2023-10-27 Navajo Latter-day Saints are Diné Gáamalii. As Farina King writes in this deeply personal collective biography, "We are Diné who decided to walk a Latter-day Saint pathway, although not always consistently or without reappraising that decision." *Diné dóó Gáamalii* is a history of twentieth-century Navajos, including author Farina King and her family, who have converted and joined the Church of Jesus Christ of Latter-day Saints (LDS), becoming Diné Gáamalii. Both Diné and LDS. Drawing on Diné stories from the LDS Native American Oral History Project, King illuminates the mutual entanglement of Indigenous identity and religious affiliation, showing how their Diné identity made them outsiders to the LDS Church and conversely how belonging to the LDS community made them outsiders to their Native community. The story that King tells shows the complex ways that Diné people engaged with church institutions in the context of settler colonial power structures. The lived experiences of Diné in church programs sometimes diverged from the intentions and expectations of those who designed them. In this empathetic and richly researched study, King explores the impacts of Navajo Latter-day Saints who seek to bridge different traditions, peoples, and communities. She sheds light on the challenges and joys they face in following both the Diné teachings of *Sí íł Naagh Bik ééł Hózhó*—live to old age in beauty and the

teachings of the church **Healing and Mental Health for Native Americans** Ethan Nebelkopf, Mary Phillips, 2004-08-27
