Solheim, 2000-01-30 An examination of the political and social characteristics particular to Scandinavia which have made women s rise to power more rapid than in other regions of the world this study also explores how the resulting election of women has provided valuable evidence of the impact of women leaders and their leadership style Solheim begins with a critical survey of feminist scholarship regarding the equality difference debate and the application of such research on the position of women in international politics He concludes in this respect that leadership style may have less to do with gender than one might initially suspect Archival research and interviews with women in leadership roles provide the reader with a closer look at the Scandinavian system a view that will challenge gender stereotypes around the world **On Top of the World** explores the Nordic political systems in great detail and analyzes systemic factors such as multi party electoral systems and consensus seeking cultural institutions which contribute to the rise of so many women leaders Solheim compares and contrasts the political rise of two Nordic women leaders to power and influence and for the purpose of cross cultural comparison one woman leader

A BLUEPRINT of the DIVINE PLAN Donald Thomas, 2012-08-14 Why I wrote this book I discovered there are three primary core aspects or attributes of our religions that are right in our face that we are mostly conscience about and certainly aware of but which are constantly overshadowed in our day to day lives because we have been made to overlooked the significance of these aspects Only one of these attributes is preached on a regular basis in our established places of worship the other on occasion and the third hardly at all I have highlighted these three aspects and have tried to explain why they are significant These three aspects are central to God s master plan for mankind I wrote this book to highlight that fact The idea is to give you sound information so that you with a sound foundation based on sound information can design your own personal house of worship as you see fit Who this book is for This book is for those that believe in a higher power those that want to cut to the chase and get to the bare knuckle truth those that believe but don t know exactly what to believe those that seek the truth and those that want to know why as well
