Pacifism, Just War, and Tyrannicide David M. Gides, 2012-03-02 Dietrich Bonhoeffer's perplexing and controversial shift from admitted pacifism to tyrannicide has been the source of scholarly and popular inspiration and criticism How could an admitted Christian pacifist be involved in a plot to assassinate a political figure Is there a way to understand and explain this phenomenon comprehensive enough to encompass all relevant data One that takes into account the nuances of Bonhoeffer's theology and all of the elements of his complex historical and personal contexts This study attempts to offer an explanation by linking Bonhoeffer's political thinking and action with his understanding of the church world relationship and by evaluating the changes in that thought action dyad as his life progressed What emerges is a portrait of a bold and visionary thinker and political agent whose church world theology while discontinuous is consistent enough to be authentic and yet flexible enough to meet the extraordinary challenges presented by Nazism and its intrusion into the churches Gides suggests that it is actually Bonhoeffer's malleable church world thinking that ultimately distinguishes him from his theological and ecclesial contemporaries and even from the mass of German church persons and citizenry it allowed him to confront evil by reaching beyond the constraints of traditional Lutheran thinking

Crisis of Conscience Amy J. Shaw,2009-07-01 The First World War s appalling death toll and the need for a sense of equality of sacrifice on the home front led to Canada s first experience of overseas conscription While historians have focused on resistance to enforced military service in Quebec this has obscured the important role of those who saw military service as incompatible with their
