**Administrative Cycles** Victor B. Lieberman, 2014-07-14 This book is the first detailed study of administration and politics in premodern Burma and one of the few works of its kind for mainland Southeast Asia Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Strange Parallels: Volume 1, Integration on the Mainland** Victor Lieberman, 2003-05-26

This ambitious work has two novel goals to overcome the extreme fragmentation of early Southeast Asian historiography and to connect Southeast Asian to world history Combining careful local research with wide ranging theory Lieberman argues that over a thousand years each of mainland Southeast Asia s great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse These trajectories were synchronized not only between corridors but most curiously between the mainland as a whole much of Europe and other sectors of Eurasia He describes in detail the nature of mainland consolidation which was simultaneously territorial religious ethnic and commercial and dissects the mix of endogenous and external factors responsible Here then is a fundamentally original analysis not only of Southeast Asia but of the pre modern world The Princeton Dictionary of Buddhism Robert E.
