Lighting the Shakespearean Stage, 1567 - 1642 Robert B. Graves, 1999-12-08 In *Lighting the Shakespearean Stage 1567 1642* R B Graves examines the lighting of early modern English drama from both historical and aesthetic perspectives He traces the contrasting traditions of sunlit amphitheaters and candlelit hall playhouses describes the different lighting techniques and estimates the effect of these techniques both indoors and outdoors Graves discusses the importance of stage lighting in determining the dramatic effect even in cases where the manipulation of light was not under the direct control of the theater artists He devotes a chapter to the early modern lighting equipment available to English Renaissance actors and surveys theatrical lighting before the construction of permanent playhouses in London Elizabethan stage lighting he argues drew on both classical and medieval precedents

Under the Banner of Heaven Jon Krakauer, 2004-06-08 NATIONAL BESTSELLER From the author of *Into the Wild* and *Into Thin Air* this extraordinary work of investigative journalism takes readers inside America's isolated Mormon Fundamentalist communities Now an acclaimed FX limited series streaming on HULU Fantastic Right up there with *In Cold Blood* and *The Executioner's Song* San Francisco Chronicle Defying both civil authorities and the Mormon establishment in Salt Lake City the renegade leaders of these Taliban-like theocracies are zealots who answer only to God some 40 000 people still practice polygamy in these communities At the core of Krakauer's book are brothers Ron and Dan Lafferty who insist they received a commandment from God to kill a blameless woman and her baby girl Beginning with a meticulously researched account of this appalling double murder Krakauer constructs a multi-layered bone-chilling narrative of messianic delusion polygamy savage violence and unyielding faith Along the way he uncovers a shadowy offshoot of America's fastest growing religion and raises provocative questions about the nature of religious belief

Empire and Nation in Early English Renaissance Literature Stewart James Mottram, 2008 Sensitive readings of Renaissance texts offer new insights into the perception of imperialism in the sixteenth century The complex topics of colonialism empire and nation run throughout English Renaissance literature Here the author moves beyond recent work on England's British colonial interests arguing for England's self image in the sixteenth century as an empire of itself part of a culture which deliberately set itself apart from Britain and Europe In the first section of the book he explores England's self image as empire in the Arthurian and classical pageants of two Tudor royal entries into the City of London Charles V's in 1522 and Anne Boleyn's in 1533 Part Two focuses on the culture of English Bible reading and its influence on England's imperial self image in the Tudor period He offers fresh new readings of texts by Richard Morison William Tyndale John Bale Nicholas Udall and William Lightfoot among other authors represented Dr STEWART MOTTRAM is Research Lecturer Institute for Medieval and Early Modern Studies Aberystwyth University

Civic Ritual and Drama, 2023-04-12 Late medieval and renaissance cities though powerful communities jealous of their own jurisdiction were constantly negotiating their relationships with other secular and religious authorities The seven essays in this collection treat various

aspects of civic display and pageantry during the fifteenth and sixteenth centuries The overwhelming sense one receives is that the solemn pomp was essentially about power how to get it display it share it and retain it Each paper demonstrates how through ceremony and symbol municipalities sought to fashion their own corporate self image in order to establish the limits of their authority in relationship to the countervailing powers surrounding them The essays are concerned with the period before the ever widening impact of the Reformation and the intellectual and political revolutions it spawned had reached the level of civic pageantry In the varied rituals considered here we can see reflected the highly sophisticated minds of their creators using the symbolic landscape of their religious and cultural past in important acts of corporate self fashioning

The Sky, 1937 *Dante's Heavens* Edmund Garratt Gardner, 1900 *The Drama of Coronation* Alice Hunt, 2008-09-25 The coronation was and perhaps still is one of the most important ceremonies of a monarch's reign This book examines the five coronations that took place in England between 1509 and 1559 It considers how the sacred rite and its related ceremonies and pageants responded to monarchical and religious change and charts how they were interpreted by contemporary observers Hunt challenges the popular position that has conflated royal ceremony with political propaganda and argues for a deeper understanding of the symbolic complexity of ceremony At the heart of the study is an investigation into the vexed issues of legitimacy and representation which leads Hunt to identify the emergence of an important and fruitful exchange between ceremony and drama This exchange will have significant implications for our understanding both of the period's theatre and of the cultural effects of the Protestant Reformation

Envisaging Heaven in the Middle Ages Carolyn Muessig, Ad Putter, 2006-10-16 With contributions from A C Spearing Peter Meredith and Robin Kirkpatrick this collection deals with medieval notions of heaven in theological and mystical writings medieval art poetry and music

The Month, 1884 *Dante's Ten Heavens* Edmund G. Gardner, 1904
