

A woman in a dark dress stands on a rocky shore, looking out at a large, powerful waterfall cascading into the ocean. The scene is dramatic, with the white water of the falls contrasting against the dark rocks and the sea. The woman is positioned in the lower center of the frame, her back to the camera as she gazes at the natural wonder.

At the heart of our operations, recycling and compost diversion play pivotal roles. In our factory and office, an extensive recycling program meticulously manages manufacturing and office plastics and paper, significantly minimizing waste production. Our composting program transforms food waste into resources, diverting it from landfills to be repurposed or recycled into usable materials. This holistic approach to waste management not only reduces our environmental footprint but also sets a standard for sustainability in the industry.
