Painters And Politics The European Avant Garde And Society 1900 1925:

Painters and Politics Theda Shapiro, 1976 Examines the political activities and social attitudes of a generation of avant garde painters in Western Europe the French Fauves and Cubists the German Expressionists and the Italian Futurists

Painters and politics Theda Shapiro, 1976 **Communism and the Avant-Garde in Weimar Germany** Ben Fowkes, 2022-11-14 How did the revolutionary Left view cultural modernists Their uneasy relationship is illustrated in this book with quotations ranging from Alexander's Dada is merely an impertinence through Trotsky's There cannot be a proletarian culture to Averbakh's Tear off the masks and Becher's There can only be one kind of genuine art fighting art This book covers communist attitudes to the whole field of cultural innovation from the art of the left abstractionists to the literature of the worker correspondent movement and the music of Weill and Eisler through to proletarian film theatre and photography and takes full account of the impact on Weimar left culture of external events such as the First World War the Great Change in the Soviet Union and internal German developments such as the failure of revolution after 1918 and the rise of Nazism Each chapter starts with an introduction that provides a context to the documents and indicates the current state of research Europe's Long Century Spencer Di Scala, 2013 The twentieth century has been interpreted as a short century marked by extremes According to this view the century lasted only from 1914 to 1989 or 1991 These dates coincide with the rise and fall of communism that came to power in Russia in 1917 and ended with the fall of the Berlin wall 1989 or that of the Soviet Union 1991 Thus the concept of a short century is unduly influenced by a Cold War perspective In Europe's Long Century Spencer Di Scala presents an alternative view that will be more helpful to undergraduate history students in the twenty first century namely that twentieth century Europe was actually a long century lasting approximately from 1900 to 2000 with patterns and antecedents discernible before the century began and that continue to be elaborated today Comprehensive current and affordable Europe's Long Century integrates the histories of Eastern Europe Scandinavia and the Balkans that are often neglected in similar treatments It also thoroughly covers the role of science in shaping modern European life and the book's biographical sketches profile the lives of important though not always well known people who influenced Europe's long century Painting and Sculpture in Europe, 1880-1940 George Heard Hamilton, 1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age **The Challenge of the Avant-garde** Paul Wood, 1999-01-01 The Challenge of the Avant Garde is the fourth of six books in the series Art and its

Histories which form the main texts of an Open University course The course has been designed for students who are new to the discipline but will also appeal to those who have undertaken some study in this area This volume traces the challenge posed to the academic canon by the emergent avant garde of the early and mid nineteenth century It looks at significant shifts in the development of the concept both in moves away from the sense of social leadership to a desire for artistic autonomy in the later nineteenth century and then a reverse movement to bridge the gap between art and life in the revolutionary avant gardes of the early twentieth century The book closes with an examination of the eventual incorporation of the avant garde as a form of modern canon by the eve of World War II Throughout it seeks to relate the discourse of artistic avant gardism in all its forms to contemporary social and political histories *The Culture of Time and Space, 1880-1918* Stephen Kern, 2003-11-30 Kern writes about the changes in technology and culture between 1880 and World War I that created new modes of understanding and experiencing time and space He provides an illuminating new preface about the breakthrough in interpretive approach that has made this a seminal work in interdisciplinary studies Pleasure Wars Peter Gay, 1998 Whereas *Education of the Senses* focused on the sexual attitudes and practices of the nineteenth century Bourgeoisie *The Tender Passion* concentrates on their notions of love No less revisionist than he was in his first volume Gay argues here that the Victorians were able not only to enjoy their sexuality but to know love in its most exalted sense The realities of love for the Victorians he shows came much closer to their ideals than many have thought Gay delves into a huge body of material from philosophical treatises to medical texts from letters and diaries to works of fiction The book is replete with fascinating insights into the lives and works of individual Victorians Dickens Stendhal Wagner Oscar Wilde Beatrice Potter and Sydney Webb among them and his discussions range from the discovery of homosexuality to the ways love was diverted or disguised in music and religion **Metropolis 1890-1940** Anthony Sutcliffe, 1984-02 An ideal and welcome reference and reader for students of urbanism *Metropolis 1890 1940* examines perceptions of the city during the dramatic urban growth of this period *Metropolis* looks at the policies adopted to deal with the new city and at the views of the city expressed in the art architecture literature cinema music and ideology of the time Internationally known experts discuss case studies of London Paris Berlin the Ruhr New York Moscow and Tokyo and a postscript brings the reader up to date with a survey of postwar urbanism *Alchemist of the Avant-Garde* John F. Moffitt, 2012-02-01 Acknowledged as the Artist of the Century Marcel Duchamp 1887 1968 left a legacy that dominates the art world to this day Inventing the ironically d gag attitude of ready made art making Duchamp heralded the postmodern era and replaced Pablo Picasso as the role model for avant garde artists John F Moffitt challenges commonly accepted interpretations of Duchamp s art and persona by showing that his mature art after 1910 is largely drawn from the influence of the occult traditions Moffitt demonstrates that the key to understanding the cryptic meaning of Duchamp s diverse artworks and writings is alchemy the most pictorial of all the occult philosophies and sciences
