Painting In The Nineties With An Essay The Polemics Of Paint By Peter Gidal:

Gerhard Richter Gerhard Richter, Peter Gidal, 1995-06 **On Abstract Art** Briony Fer, 1997-01-01 Many people are intrigued by the abstract work of artists like Mondrian and Jackson Pollock yet find it difficult to explain why In this timely and original book Briony Fer introduces abstract painting and sculpture of the twentieth century and explores new ways to think about abstract art and the problems of interpretation it raises Fer speculates on the kind of language required to describe the often tantalizing effects of key abstract works and on ways to discuss critical issues when a work of art is without subject matter Drawing particularly on psychoanalytic theory and the writings of Georges Bataille she examines a wide range of models of abstraction ranging from the early European emphasis on the transcendental possibilities of pure form to later modernist frameworks developed in the United States Each of the ten chapters in the book addresses a particular problem associated with abstract art by focusing closely on specific works produced by such artists as Malevich Mondrian Kandinsky Arp Mir Pollock Eva Hesse and Donald Judd Fer investigates the involvement of women artists such as Lyubov Popova and the problems of sexual difference in the development of abstract art Countering the idealizing rhetoric of modernist criticism *On Abstract Art* uncovers a latent corporeal and darker side to abstraction and deepens today's discussion of a variety of critical concerns in contemporary art Gerhard Richter Sheena Wagstaff, Benjamin H. D. Buchloh, Briony Fer, Hal Foster, Peter Geimer, Brinda Kumar, André Rottmann, 2020 Over the course of his acclaimed 60 year career Gerhard Richter b 1932 has employed both representation and abstraction as a means of reckoning with the legacy collective memory and national sensibility of post WWII Germany in both broad and very personal terms This handsomely designed book spans the artist's rich and varied oeuvre from the early 1960s to the present including photo paintings portraits large scale abstract series and works on glass Essays by leading experts on the artist illuminate Richter's preoccupation with painting in relation to other modes of representation and emphasize the ongoing importance of the medium's formal and conceptual possibilities in contemporary art Annual Bibliography of Modern Art Museum of Modern Art (New York, N.Y.).
