[Painting Wargaming Models: Armoured Vehicles in Europe, 1943-1945](#) Andy Singleton, 2024-07-30 Andy Singleton lends the benefit of his experience as a professional modeller and painter to help you get your own armoured force ready for battle, packed with useful tips and tricks of the trade. *Armorama* For many wargamers, WW2 is synonymous with large fleets of tanks and other AFVs battling each other across the European countryside or amidst the rubble of cities. Here Andy Singleton lends the benefit of his experience as a professional modeler and painter to help you get your own armored force ready for battle. Andy starts by discussing the tools and materials required and explaining some basic techniques such as dry brushing and stippling. He then moves on to detailed step-by-step instructions for the main paint schemes of each of the major combatants: British, American, German and Soviet Union. Each step is illustrated by a color photo, paint number and the type and size of brush used, and there are variants for use with or without an airbrush. Adding national emblems and other markings, either freehand or by using transfers, is also covered. In addition to the basic paint scheme, there is guidance for adding weathering effects and wear and tear such as dust-chipped paint or even winter whitewash. Finally, he shows you how to enhance your models with finishing touches such as the addition of stowage and camouflage measures such as netting or foliage. Throughout, it is packed with useful tips and tricks of the trade.
