*Rattles and Steadies* ,1986      Freedom to Play Norah L. Lewis,2010-09-29 When we were children we made our own fun is a frequent comment from those who were children in pre television times But what games activities and amusements did children enjoy prior to the mid 1950s Recollections of older Canadians selections from writings by Canadian authors and letters written to the children s pages of agricultural publications indicate that for most children play was then as now an essential part of childhood Through play youngsters developed the physical mental and emotional skills that helped them cope with life and taught them to get along with other children In both rural and urban settings children were generally free to explore their environment They were sent outdoors to play by both parents and teachers Their games were generally self organized and physically active with domestic animals acting as important companions and playmates Children frequently made their own toys and equipment and since playing rather than winning was important most children were included in games Special days holidays and organizations for children and youth provided welcome breaks from daily routines Their lives were busy but there was always time for play always time for fun Norah Lewis has provided an entertaining view of the toys games and activities in Canada and pre confederate Newfoundland from approximately 1900 through 1955 Her book will be of interest to historians educators and sociologists as well as anyone who lived through or wants to know more about those early years in Canada and the games children used to play      **Field & Stream** ,1989      **Rattles and Steadies** ,1986

Kirwin,G. M. Story,J.D.A.

Widdowson,1990-11-01 The Dictionary of Newfoundland English first published in 1982 to regional national and international

acclaim is a historical dictionary that gives the pronunciations and definitions for words that the editors have called Newfoundland English. The varieties of English spoken in Newfoundland date back four centuries mainly to the early seventeenth century migratory English fishermen of Cornwall, Devon, Dorset and Somerset and to the seventeenth to the nineteenth century immigrants chiefly from southeastern Ireland. Culled from a vast reading of books, newspapers and magazines, this book is the most sustained reading ever undertaken of the written words of this province. The dictionary gives not only the meaning of words but also presents each word with its variant spellings. Moreover, each definition is succeeded by an all important quotation of usage which illustrates the typical context in which word is used. This well researched impressive work of scholarship illustrates how words and phrases have evolved and are used in everyday speech and writing in a specific geographical area. The Dictionary of Newfoundland English is one of the most important comprehensive and thorough works dealing with Newfoundland. Its publication a great addition to Newfoundlandia, Canadiana and lexicography provides more than a regional lexicon. In fact, this entertaining and delightful book presents a panoramic view of the social, cultural and natural history as well as the geography and economics of the quintessential lifestyle of one of Canada's oldest European settled areas. This second edition contains a supplement offering approximately 1500 new or expanded entries, an increase of more than 30 per cent over the first edition. Besides new words, the supplement includes modified and additional senses of old words and fresh derivations and usages.

**Managing Noise and Vibration at Work** Tim South, 2013-05-13

New EU Physical Agents Directives on Noise and Vibration will be incorporated into UK law by February 2006. Explicit action levels for vibration will be introduced while the action levels for noise will be drastically cut. In order to comply with these Directives, companies need to assess noise and vibration levels and provide necessary protection for their employees. They are also required to monitor and if necessary reduce noise and vibration risks. *Managing Noise and Vibration at Work* introduces noise and both hand arm and whole body vibration by explaining what they are and how they can affect the body, drawing out the similarities and differences between the hazards. It provides clear explanations of the requirements of the EU Directives and explains how to fulfill them. Practical information on measurement, making noise and vibration assessments and approaches to controlling risk help the reader to understand the issues of noise and vibration exposure in the workplace. The text is supported by information and diagrams of measuring equipment, advice on how to plan a survey, worked examples of necessary calculations and charts and diagrams that can be used in place of the calculations. Suitable hearing and vibration protection is detailed. Case studies help to set the subject in context and highlight common errors and pitfalls. The book fully covers the syllabuses of the Institute of Acoustics certificate courses in Workplace Noise Assessment and Management of Occupational Exposure to Hand arm Vibration. It will also be of use to those studying for the Diploma in Acoustics and Noise Control. For those studying for the NEBOSH Diploma in Health and Safety, this book satisfies modules 1E and 2E. As the Institute of Acoustics syllabuses are based on the Health and Safety Executive's guidelines, the book will also be a useful up

to date reference for risk managers Health and Safety advisors and managers occupational hygienists environmental health officers and HSE inspectors especially in the Construction Manufacturing Agriculture and Forestry sectors Tim South is a Senior Lecturer in Acoustics at the School of Health and Human Sciences at Leeds Metropolitan University and a member of the Institute of Acoustics Education Committee He teaches the Institute of Acoustics courses for the Certificate of Competence in Workplace Noise Assessment the Certificate in the Management of Occupational Exposure to Hand arm Vibration and also the Institute s Diploma in Acoustics and Noise Control He has extensive consultancy experience in workplace noise assessments hand arm vibration and whole body vibration exposure assessments
