**Ravel** Rollo H. Myers, 1973-06-25 An evaluative biography by an authority on French music Maurice Ravel; Variations on His Life and Work Hans Heinz Stuckenschmidt, 1968 There is probably no one in the gallery of modern composers who is more of a key figure than Maurice Ravel writes H H Stuckenschmidt the noted German critic who has here devoted all his energies to this much revered but enigmatic giant of French music Ravel was a composer of exquisite taste and with a complementary ability to execute his ideas In his private life he exercised some of this same meticulousness with the result that there has never been enough information to take the curious music lover much beyond surface knowledge of his character and temperament Ravel the man of Paris the musical spokesman for the period during which he produced his greatest works 1890 to 1932 is shown by Stuckenschmidt to be a product of two contrasting elements in his heritage the precision and clock like exactness that came from his Swiss father and the warmth and sensuality that were the gifts of his Basque mother Stuckenschmidt develops this theme with great skill offering it as the key insight into both the composer's life and his creative efforts The author does not scant analysis however and he supplies detailed descriptions of all the great works L'Heure Espagnole Gaspard de la Nuit Daphnis and Chloé La Valse Bolero the piano concerti and many others

Ravel, Life and Works Rollo H. Myers, 2003-01-01 *Maurice Ravel* Benjamin Ivry, 2000 Maurice Ravel A Life is the first convincing attempt to paint a portrait of the life and work of the hitherto enigmatic composer of Bolero Piano Concerto for the Left Hand and L'enfant Et Les Sortilèges Ivry offers here a convincing solution to the much discussed mystery of Ravel's sexuality More than simply outing Ravel as a gay man for the first time among numerous writers on this composer this book discusses how his secretive sexuality impacted his work Using unpublished documents letters articles and memoirs many of which were previously unknown even to Arbie Orenstein universally considered the world's leading scholar of Ravel studies Ivry presents a more rounded view of Ravel man and musician Descriptions of musical works are in non technical language friendly to the reader with no specialized knowledge of classical music Like Ivry's widely acclaimed biography of Poulenc universally seen as the standard life of this composer in any language his new Ravel is likely to become a classic of contemporary musical biography *Musical Biography* Jolanta T. Pekacz, 2017-07-05 Musical biography has rarely been an object of theoretical and methodological reflection Our present day perception of the lives of prominent composers and performers of the past has been largely formed by cultural and political assumptions of nineteenth century biographers and their twentieth century followers While older biographies are being scrutinized for veracity and updated with new evidence their historiographical premisses and narrative techniques remain largely unchallenged The epistemological upheavals in the humanities since the 1960s have generated a body of theoretical thought that has undermined many of the assumptions of traditional biography Consequently many of these assumptions have lost their hold as viable underpinnings for present day scholarly biography For example the accumulation of facts is no longer believed to bring us closer to an understanding of the

subject nor are the traditional views of the unified self and the self as a foundational idea taken for granted This volume brings together musicologists and historians who explore through individual case studies the rich potential of these new theories for writing musical lives The authors of this volume examine how the insights provided by these theories illuminate our critical reassessment of older biographies and the interpretations of musical works these biographies were used to construe and help forge new approaches to musical biography The authors also explore the functions musical biographies served in different historical contexts the relevance of biography for musical criticism the reliability of archival evidence the ethics of biography the demands placed on biography by feminist and gender history and the new possibilities offered by cinema The contributors to this volume challenge the view that biography has little importance for music history analysis and criticism Collectively they reassert biography's centrality and relevance and dem
