understanding of the lives of these beautiful yet very complex group of birds 120 species of crows jays and their allies exist in the world today Many are exceedingly beautiful in colour grace and form whereas others are black and somewhat sinister in appearance In no other group of perching birds has evolution produced such a degree of variation from the tiny Hume s Ground Jay of the steppe highlands of Tibet to the huge Thick billed Raven of the mountains of Ethiopia Some have had a long association with people and appear in tales of mythology and superstition while others have been regarded as agricultural pests The great majority however remain largely unknown their only contact with humanity being the destruction of their specialised habitats As a consequence more than 20 species are now regarded as internationally endangered some of which are very poorly known The 30 superb colour plates by Hilary Burn in this book depict them all each plate is accompanied by an informative caption page summarising the criteria required to identify the species alongside colour world distribution maps Some of these birds bearing such evocative names as the Banggai Crow Mesopotamian Crow and Flores Crow have never been illustrated before The authoritative text by Steve Madge treats each species in depth summarising identification techniques and concisely reviewing all aspects of corvid behaviour distribution population and taxonomy The author has had first hand experience of most of the species during his travels throughout the world travels in which he gradually became fascinated by this very special but somewhat ignored group of birds This will surely be a standard work of reference for many years to come

The Camp of Gods Tears Marilyn Lee, John R. Mayfield, 2011-10 A highly evolved civilization almost unknown to history thrived in North America for centuries long before the coming of Europeans The Camp of God s Tears is a tragic tale about this civilization as it ended This story is grounded in fact according to archeological genetic and linguistic data as reflected in the Afterward which presents supportive information and a bibliography of nearly 400 sources This saga is told as a narrative by Gray Wolf who begins his story during his late adolescence and follows through six generations until he becomes a great grandfather The Camp of God s Tears reveals the high level of sophistication of this culture which was far more advanced than many cultures of the same time period circa 300 AD More importantly it articulates the depth of their spirituality and moral codes by which these people lived While the mysterious ending of a great culture is heart rendering the story ends on a note of hope for contemporary times The story came to me in a dream It was told to me by Falling Star She answered a myriad of questions I asked She showed me the locations of where the events in the story took place She showed me her People who wore exotic clothes made of finely woven textiles decorated with pearls copper and other artistic ornaments She showed me strongly built homes their villages and their expansive farms I saw their social organization was powerful yet simple a few shaman elders and no real leaders She intrigued me with their immense earthworks which demonstrate accurate astronomical alignments to the Sun Moon stars and galaxies The organization of labor engineering skills mathematical and astronomical knowledge required to build these phenomenal earthworks amazes modern researchers I asked Falling Star why she showed me all of this She said her

People wanted their story told and asked me if I would tell it Of course I said and then I asked her why She said her People were so deeply spiritual so in tune and in touch with the Creator that they actively lived the principles of Oneness Their ways demonstrated what being one and at one with the One looked like in real life She said the people of my time need to know these principles and to learn to live them because humankind is struggling to regain balance in a troubled world *Moon Cave* C. H. Foertmeyer, 2004-03 On the east face of the Canyon del Rio Hondo there is an ancient cave known to the Mescal Indians as Moon Cave It is a sacred place to the Mescal used for the Ceremony of the Ancients a ceremony performed every five years rewarding the five most honored braves for their bravery and honesty The ceremony must take place in Moon Cave because that is where the great medicine man Owan atan created the magic The reward the braves receive is the opportunity to go back in time to live among their ancestors in the old way of life This is a great honor and the fact that there is no way back to their former lives is of no relevance to the selected braves But what does this mean to Denny Miller who innocently enters Moon Cave during the 2004 ceremony and finds himself suddenly living in 1874 And what does this mean to Scott Franklin Denny's best friend who is determined to find out what happened to his vanished friend and help him if he can Scott coerces Cha tah wa a local Mescal shaman into taking him back to 1874 to search for Denny and the adventure begins
