Ravished By The Spirit Religious Revivals Baptists And Henry Alline:

Ravished by the Spirit George A. Rawlyk, 1984-11-01 Rawlyk sees the Baptists of Nova Scotia and New Brunswick as reaching their zenith during the latter half of the nineteenth century. He makes some controversial comments on the differences between New Brunswick and Nova Scotia Baptists of both the present and past century. Ravished by the Spirit does not deal merely with a distant historical past but raises some fundamental and disconcerting questions about the vulnerability of the Baptist denomination in contemporary Nova Scotia and New Brunswick. The Great Awakening Thomas S. Kidd, 2008-10-01 In the mid eighteenth century Americans experienced an outbreak of religious revivals that shook colonial society. This book provides a definitive view of these revivals now known as the First Great Awakening and their dramatic effects on American culture. Historian Thomas S. Kidd tells the absorbing story of early American evangelical Christianity through the lives of seminal figures like Jonathan Edwards and George Whitefield as well as many previously unknown preachers, prophets and penitents. The Great Awakening helped create the evangelical movement which heavily emphasized the individual's experience of salvation and the Holy Spirit's work in revivals. By giving many evangelicals radical notions of the spiritual equality of all people, the revivals helped breed the democratic style that would come to characterize the American republic. Kidd carefully separates the positions of moderate supporters of the revivals from those of radical supporters and he delineates the objections of those who completely deplored the revivals and their wildly egalitarian consequences. The battles among these three camps, the author shows, transformed colonial America and ultimately defined the nature of the evangelical movement. **Henry Alline - "more Than a Riddle-speaking Prophet"** William G. Godfrey, 1985 *Victorian Religious Revivals* David Bebbington, 2012-05-31 Revivals are outbursts of religious enthusiasm in which there are numerous conversions. In this book, the phenomenon of revival is set in its broad historical and historiographical context. David Bebbington provides detailed case studies of awakenings that took place between 1841 and 1880 in Britain, North America and Australia, showing that the distinctive features of particular revivals were the result less of national differences than of denominational variations. These revivals occurred in many places across the globe but revealed the shared characteristics of evangelical Protestantism. Bebbington explores the preconditions of revival, giving attention to the cultural setting of each episode as well as the form of piety displayed by the participants. No single cause can be assigned to the awakenings, but one of the chief factors behind them was occupational structure and striking instances of death were often a precipitant. Ideas were far more involved in these events than historians have normally supposed, so that the case studies demonstrate some of the main patterns in religious thought at a popular level during the Victorian period. Laymen and women played a disproportionate part in their promotion and converts were usually drawn in large numbers from the young. There was a trend over time away from traditional spontaneity towards more organised methods, sometimes entailing interdenominational co-operation. **Baptists and Public Life in Canada** Gordon L. Heath, Paul R. Wilson, 2012-02-02

Public discussion about the relationship between religion and public life in Canada can be heated at times and scholars have recently focused on the historical study of the many expressions of this relationship. The experience of Canada's smaller Protestant Christian groups however has remained largely unexplored. This is particularly true of Canada's Baptists. This volume, the first produced by the Canadian Baptist Historical Society, explores the connections between Baptist faith and Baptist activity in the public domain and expands the focus of the existing scholarship to include a wide range of Canadian Baptist beliefs, attitudes, perspectives, and actions related to the relationship between Baptist faith and practice and public life.

The Other Side of Truth Paul Kimball, 2013-04-02. In *The Other Side of Truth*, filmmaker Paul Kimball crosses the Rubicon of the imagination to explore the idea that what we call the paranormal is actually a form of artistic expression created by an advanced non-human intelligence to inspire us to think about who we are, where we have been, and where we are going. Using his own journey of discovery as the starting point, Kimball presents the other side of truth: the world not as we have been told it is, but as we are being encouraged to imagine that it could become.

Inventing the "Great Awakening" Frank Lambert, 2021-01-12. This book is a history of an astounding transatlantic phenomenon: a popular evangelical revival known in America as the first Great Awakening, 1735-1745. Beginning in the mid-1730s, supporters and opponents of the revival commented on the extraordinary nature of what one observer called the "great ado" with its extemporaneous outdoor preaching, newspaper publicity, and rallies of up to 20,000 participants. Frank Lambert, biographer of Great Awakening leader George Whitefield, offers an overview of this important episode and proposes a new explanation of its origins. The Great Awakening, however dramatic, was nevertheless unnamed until after its occurrence, and its leaders created no doctrine nor organizational structure that would result in a historical record. That lack of documentation has allowed recent scholars to suggest that the movement was invented by nineteenth-century historians. Some specialists even think that it was wholly constructed by succeeding generations who retroactively linked sporadic happenings to fabricate an alleged historic development. Challenging these interpretations, Lambert nevertheless demonstrates that the Great Awakening was invented not by historians but by eighteenth-century evangelicals who were skillful and enthusiastic religious promoters. Reporting a dramatic meeting in one location in order to encourage gatherings in other places, these men used commercial strategies and newly popular print media to build a revival one that they also believed to be an extraordinary work of God. They saw a special meaning in contemporary events, looking for a transatlantic pattern of revival and finding a motive for spiritual rebirth in what they viewed as a moral decline in colonial America and abroad. By examining the texts that these preachers skillfully put together, Lambert shows how they told and retold their revival account to themselves, their followers, and their opponents. His inquiries depict revivals as cultural productions and yield fresh understandings of how believers spread the word with whatever

Reformed Evangelicalism and the Search for a Usable Past Ian Hugh Clary, 2020-09-07 The question of how theology shapes a Christian historian's reading of the past has been debated thoroughly in various academic periodicals Should historians recognise the role of providence in their accounts of past events Should they sympathise with their subject's theology Can objectivity be lost due to theological bias And last but not least is there a compromise of faith if one writes natural instead of supernatural history Such questions are important for understanding the historian's profession Arnold Dallimore who trained and specialised in pastoral ministry in Canada wrote an influential biography of the revivalist George Whitefield as well as others on Charles and Susanna Wesley Edward Irving and Charles Spurgeon How did his Reformed theological perspective impact his historiography How does his work fit into larger historiographical debates concerning the nature of Christian history While other books look at Christian historiography using abstract and methodological approaches this book examines the subject precisely by looking at the life and work of an individual historian It does so by placing Dallimore in the context of being a minister in twentieth century Canada as well as his role in the development of Reformed Theology in the Anglosphere It also examines the quality of his various biographies focusing on key issues such as the nature of religious revival the problem of Christianity and slavery and the question of charismatic religious experience His study concludes by examining the relationship between the discipline and profession of church history and asking what is required for one to be considered a church historian
