Rediscovering Palestine Beshara Doumani, 1995-10-12 Drawing on previously unused primary sources this book paints an intimate and vivid portrait of Palestinian society on the eve of modernity Through the voices of merchants peasants and Ottoman officials Beshara Doumani offers a major revision of standard interpretations of Ottoman history by investigating the ways in which urban rural dynamics in a provincial setting appropriated and gave meaning to the larger forces of Ottoman rule and European economic expansion He traces the relationship between culture politics and economic change by looking at how merchant families constructed trade networks and cultivated political power and by showing how peasants defined

their identity and formulated their notions of justice and political authority Original and accessible this study challenges nationalist constructions of history and provides a context for understanding the Palestinian Israeli conflict It is also the first comprehensive work on the Nablus region Palestine s trade manufacturing and agricultural heartland and a bastion of local autonomy Doumani rediscovers Palestine by writing the inhabitants of this ancient land into history Rediscovering the History of Psychology Adrian Brock,Johann Louw,Willem van Hoorn,2006-02-07 For the last 25 years Kurt Danziger s work has been at the center of developments in history and theory of psychology This volume makes Danziger s work the focal point of a variety of contributions representing several active areas of research Written by the leading figures in history and theory of psychology from North America Europe and South Africa including Danziger himself it will serve as a point of departure for those who wish to acquaint themselves with some of the most important issues in this field **Rediscovering a Lost Freedom** Patrick M. Garry,2011-12-31 Since ratification of the First Amendment in the late eighteenth century there has been a sea change in American life When the amendment was ratified individuals were almost completely free of unwanted speech but today they are besieged by it Indeed the First Amendment has for all practical purposes been commandeered by the media to justify intrusions of offensive speech into private life In its application the First Amendment has become one sided Even though America is virtually drowning in speech the First Amendment only applies to the speaker s delivery of speech Left out of consideration is the one participant in the communications process who is the most vulnerable and least protected the helpless recipient of offensive speech In *Rediscovering a Lost Freedom* Patrick Garry addresses what he sees as the most pressing speech problem of the twenty first century an often irresponsible media using the First Amendment as a shield behind which to hide its socially corrosive speech To Garry the First Amendment should protect the communicative process as a whole And for this process to be free and open listeners should have as much right to be free from unwanted speech as speakers do of not being thrown in jail for uttering unpopular ideas *Rediscovering a Lost Freedom* seeks to modernize the First Amendment With other constitutional rights changed circumstances have prompted changes in the law Restrictions on political advertising seek to combat the perceived influences of big money the Second Amendment right to bear arms due to the prevalence of violence in America has been curtailed and the Equal Protection clause has been altered to permit affirmative action programs aimed at certain racial and ethnic groups But when it comes to the flood of violent and vulgar media speech there has been no change in First Amendment doctrines This work proposes a government facilitated private right to censor *Rediscovering a Lost Freedom* will be of interest to students of American law history and the U S Constitution **Rediscovering Rhetoric** Justin T. Gleeson,Ruth C. A. Higgins,2008 Rhetoric is ubiquitous in modern discourse from arguments delivered in the High Court to advertisements disseminated in the high street For the legal and political advocate persuasion is also a professional technique that must be perfected properly to practise each art In contrast with the classical era and the middle ages in which grammar rhetoric and dialectic were basic features of all

education modern curricula almost entirely neglect any theoretical study of the methods of rhetoric Rediscovering Rhetoric re introduces to modern practitioners and students a grasp of the speeches writings and methodologies of the great classical scholars of rhetoric Part 1 Law and Language in the Greco Roman Tradition provides a contextualised introduction to significant theorists of rhetoric in the classical period and consists of four chapters written by practising barristers and a current Justice of the Federal Court of Australia Part 2 The Practice of Persuasion comprises essays by practitioners distinguished in their pursuit of legal persuasion one former and two current Justices of the High Court of Australia illuminating their experiences of argument from the perspective of both bench and bar Part 3 The Politics of Persuasion performs a similar function to Part 2 in the related domain of politics It includes a chapter by Graham Freudenberg former speechwriter for Gough Whitlam and others Together the three parts provide a unique inter disciplinary perspective on the theory and practice of legal and political persuasion Published in association with the NSW Bar Association
