Wilbur J. Lockett

Reach For Life:

Life Insurance United States. Office of Personnel Management,1980 **Psalms for Life** Wilbur J. Lockett,2010-04 A guide to build within you a winners life style PICTURE YOURSELF STANDING ON THE WINNER S PLATFORM The Kingdom of Heaven is like a man or woman living the way God intended The answers you are looking for that will make you stronger and to equipment you with weapons to help you keep up the good fight of faith Your time to stop loosing and start winning begins now There are many questions within that you will ask yourself to help move you to take action towards seeking your destiny **Life Now** Jansher,2024-07-30 The capability of today s man has become so narrow that it is painful to imagine Today s human life is reduced to working eating sleeping and reproducing First they placed today s man in a certain place then gave him the wrong values National values patriotism ideological values They caught him at a certain point They closed all avenues for him They took away his chances Today s man knows nothing about life He sees nothing of creation Today s man never knows how far the beauty of nature and divine creation is spread He knows nothing Because his whole life is spent fighting over things that are all lies and illusions his life is wasted fighting and struggling with his comrades He never gets anywhere That is why he is in agony Then few people take advantage of the facilities and the nations beat each other over the head they are busy enjoying life and creation The sole mission of humanity today is to provide land for certain groups to live on Human slavery today has become so brilliant that it has almost assumed the color of sanctity and godliness In the name of knowledge and education he learns the art of slavery in the first half of his life and in the second half he does his slavery They call it alive **Life** Valentin Matcas,2014-04-20 You are an intelligent living human being and in order to assure your meaning and success throughout life you have to know everything about life everywhere in all forms and realities You have to learn everything about nature society and organic life about the true origins of life about creating life and about the divine and about your own meaning in life and in the world as an intelligent living human being While these are not random ideas but these specific needs for higher knowledge are embedded continuously within your own higher level intelligent needs and meanings just because this is the case with all intelligent life But is this important knowledge about life actually available to you and everyone else Yes or no since there are many instances to consider Yet when you are capable to find the necessary knowledge about life meaning society and the world you are truly capable to live your life at the intelligent human level While if you cannot find it you keep on searching since your own higher level needs and meanings never leave you alone until you learn everything necessary in life and in the world And so you do otherwise you end up living your life on lower developmental levels addicted in servitude or only intuitively through animal instincts And it certainly matters just because you are an intelligent living human being by nature now forced to live life below your level unfulfilled and even punished intrinsically for your continuous failure But where exactly can you find this important knowledge Who can shine a living light on the accurate truth Do you still wait for science to do so when science had already offered you everything that it

knows since high school Throughout this book we model life in all significant details as we study everything alive and intelligent from the smallest cellular components to the entire human body mind and spirit and to all forms of life because everything is alive and meaningful in the world If you want to learn more about life in all forms and realities this book is for you
