they're not learning as they should. Until now, *How to Reach the Hard to Teach* presents a thoughtful and practical approach to achieving breakthrough success with linguistically and culturally diverse students who struggle in school. Combining elements of the SIOP Model and the FIT Teaching approach, authors Jana Echevarre, Nancy Frey, and Douglas Fisher take stock of what we know about excellent instruction and distill it into five guiding principles: Set high expectations, Provide access to the core curriculum, Use assessment to inform instruction, Attend to language development (both English and academic), and Create a supportive classroom climate. You'll learn specific practices associated with each principle and see how real-life teachers are employing these practices in their classrooms so that all students have the opportunity to learn and receive optimal support for that learning. Every teacher has had the experience of seeing a hard-to-teach student in a new light and realizing all he or she might achieve. This book is about shining that light of possibility on the students who challenge us, most interrogating our beliefs and taking action to ensure they receive the best instruction we have to offer.
