Read My Lips Vanessa S. Williamson, 2019-03-05 A surprising and revealing look at what Americans really believe about taxes Conventional wisdom holds that Americans hate taxes But the conventional wisdom is wrong Bringing together national survey data with in depth interviews *Read My Lips* presents a surprising picture of tax attitudes in the United States Vanessa Williamson demonstrates that Americans view taxpaying as a civic responsibility and a moral obligation But they worry that others are shirking their duties in part because the experience of taxpaying misleads Americans about who pays taxes and how much Perceived loopholes convince many income tax filers that a flat tax might actually raise taxes on the rich and the relative invisibility of the sales and payroll taxes encourages many to underestimate the sizable tax contributions made by poor and working people Americans see being a taxpayer as a role worthy of pride and respect a sign that one is a contributing member of the community and the nation For this reason the belief that many Americans are not paying their share is deeply corrosive to the social fabric The widespread misperception that immigrants the poor and working class families pay little or no taxes substantially reduces public support for progressive spending programs and undercuts the political standing of low income people At the same time the belief that the wealthy pay less than their share diminishes confidence that the political process represents most people Upending the idea of Americans as knee jerk opponents of taxes *Read My Lips* examines American taxpaying as an act of political faith Ironically the depth of the American civic commitment to taxpaying makes the failures of the tax system perceived and real especially potent frustrations

Hearings United States. Congress Senate, 1950 *The Image Is Everything* Presidency Gilbert St. Clair, 2018-03-09 Image is everything Today our television and movie stars our athletes and our politicians carefully craft images for public consumption Even our country's Executive Chief is not immune to a bit of image manipulation If presidents can not always actually satisfy the public's excessive contradictory and unrealistic expectations they can at least present a compelling image of presidential leadership and success When it comes to the modern presidency tennis star Andre Agassi was correct Image is everything Image creation is a serious business with critically important implications for the success of any politician But presidents must be careful in deciding how they craft the ways in which we perceive them If they are to succeed presidents must present an appropriate image of leadership to the American people an image that is appropriate for the particular needs of the time when the president governs and is appropriate to the personality of that president Their ultimate goal is to convince the public that they are actually providing leadership even if in reality they have only a limited ability to effect outcomes This book examines the way American presidents in the media age have shaped their public personas as a means of cultivating and advancing their political and ideological agendas Images play an important role in the perceived success or failure of our presidents Since public expectations are most often aimed directly at the White House and its central occupant it is more important than ever that a president control his image as well as presenting the right image to the American public Reality thus becomes secondary and image is everything
