Advancement of Teaching Stanford CA U S A MICHAEL FULLAN Ontario Institute for Studies in Education University of Toronto Canada DAVID HOPKINS Department for Education and Skills London U K This set of four volumes on Educational Change brings together evidence and insights on educational change issues from leading writers and researchers in the field from across the world Many of these writers whose chapters have been specially written for these books have been investigating helping initiate and implementing educational change for most or all of their lengthy careers Others are working on the cutting edge of theory and practice in educational change taking the field in new or even more challenging directions And some are more skeptical about the literature of educational change and the assumptions on which it rests They help us to approach projects of understanding or initiating educational change more deeply reflectively and realistically Educational change and reform have rarely had so much prominence within public policy in so many different places Educational change is ubiquitous It figures large in Presidential and Prime Ministerial speeches It is at or near the top of many National policy agendas Everywhere educational change is not only a policy priority but also major public news Yet action to bring about educational change usually exceeds people s understanding of how to do so effectively Handbook of Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Motivating Students to Learn Jere E. Brophy, 2004 Written specifically for teachers this book offers a wealth of research based principles for motivating students to learn within the realities of a classroom learning community Its focus on motivational principles rather than motivational theorists or theories leads naturally into discussions of specific classroom strategies Throughout the book the author focuses on and expertly synthesizes that portion of the motivational literature that is most relevant to teachers Key features of this expanded new edition include Focus on School and Classroom Realities The selection and treatment of motivational principles and strategies is constantly tied to the realities of schools e g curriculum

goals and classrooms e.g. student differences, classroom dynamics. Integrates Intrinsic and Extrinsic Principles. The author employs an eclectic approach to motivation that shows how to effectively integrate the use of intrinsic and extrinsic strategies. Covers Expectancy and Value Related Topics. Full coverage is given to both the expectancy aspects of motivation (attributions, efficacy, perceptions, expectations, confidence, etc.) and to value related topics (relevance, meaningfulness, application, potential) and to their associated teacher-student dynamics. New Chapters: Two theories that have spurred much education-related motivational research in recent years: self-determination theory and achievement goal theory have been given their own chapters. Focus on Individual Differences and Problem Learners: Guidelines are provided for adapting motivational principles to group and individual student differences and for doing repair work with students who have become discouraged or disaffected learners. Expanded Topical Coverage: Expanded coverage has been given to several emerging topics including self-identity, concepts, cross-cultural comparisons, situational interest, stereotype threat, and the rediscovery of John Dewey's motivational ideas. Improved Pedagogy: Chapter and section introductions and summaries provide an unusual degree of continuity across the book, and its second-person writing style is more reader-friendly than most textbooks. New to this edition are reflection questions at the end of each chapter. This book is appropriate for any course in the undergraduate or graduate teacher education curriculum that is devoted wholly or partly to the study of student motivation.

Informal Classroom Observations On the Go Sally J. Zepeda, 2013-10-23 In the third edition of this bestselling book, instructional leadership expert Sally Zepeda shares eleven more field-tested informal classroom observation tools designed specifically for school personnel working with teachers to assist them in developing their instructional strategies. The book includes the most comprehensive set of tools available today for classroom walkthroughs, professional development, and effective feedback. It is an invaluable resource for instructional coaches, curriculum coordinators, department chairs, and school leaders. The revised third edition includes 51 tools usable in print, on laptop computers, or on electronic tablets. Strategies for conducting post-observation conferences. School of Education University of Chicago. School of Education, 1908 Enhancing Literacy for All Students S. Jay Kuder, Cindi Hasit, 2002 This book prepares teachers to shape the reading, writing, and language skills of children in diverse classroom settings. With its focus on early literacy activities in home and school settings, this book offers thorough coverage that helps readers grasp literacy development as it occurs from emergent to advanced levels. Rooted in practicality, it presents methods that have been successful with children who have a wide spectrum of learning abilities as well as those with substantial learning challenges. Chapter topics include foundations of literacy, students with literacy difficulties, assessing literacy, enhancing emergent literacy, early literacy, transitional literacy, and advanced literacy skills; specialized approaches for literacy difficulties; enhancing literacy with students with moderate and severe disabilities; literacy and diversity; and families and literacy.
