El-Hi Textbooks & Serials in Print, 2000, 2000 Lectionary Preaching Workbook, Series VI, Cycle C E. Carver McGriff, 1998

Preachers must understand the teaching techniques of parable and hyperbole not to mention having a good background in systematic theology in order to understand what the Bible's writers really meant. But our responsibility is also to reduce the complexities of Bible study to such simplicities that our many listeners ranging from busy young professional people to aging men and women of failing health to youngsters facing a variety of new temptations can take away a saving word from the Preface. E. Carver McGriff provides the tools preachers need for their daunting task with some of the most timely and thought provoking research on the lectionary texts ever made available. Included for each scriptural lesson in the lectionary are: A listing of the applicable Revised Common Roman Catholic and Episcopal lectionary texts; A description of the Psalm of the day; A prayer for the day; Commentary that is more than academic exegesis. McGriff brings to the forefront those points in the lessons that relate most poignantly to our contemporary reality. Suggested sermon titles for each of the three texts for each Sunday; Themes and suggested directions for preaching on each text. Several additional illustrations to enliven your preaching.

Known in the Indianapolis community as a preacher with extraordinary gifts, it is no surprise at all that this work by Carver McGriff brings remarkable insights to those who look for integrity in their preaching. Carver looks at the texts with a freshness that is sure to stimulate the thought process. Careful use of these suggestions will bring serendipities to preacher and congregation.

George H. Tooze, Senior Minister, First Baptist Church, Indianapolis, Indiana. One of America's premiere preachers, E. Carver McGriff returned home after earning two Purple Hearts during World War II to earn a degree in business administration from Butler University. Following a career as a salesman and business owner, McGriff entered Garrett Theological Seminary where he was voted Best Preacher by the faculty and graduated with distinction. During his 26 year ministry at St. Luke's Methodist Church in Indianapolis, McGriff spearheaded his congregation's remarkable growth in membership from 900 to 4,400 with average Sunday attendance increasing from 300 to over 1,850. McGriff received an honorary degree from the University of Indianapolis and the Outstanding Alumnus award from Butler University and was voted the Distinguished Alumnus of the year by Christian Theological Seminary. McGriff was also honored in 1993 by the Governor of Indiana with the Sagamore of the Wabash. His sermons have been distributed nationwide by the United Methodist Publishing House.

NAEP 1994 Reading Report Card for the Nation and the States Jay R. Campbell, 1996. This report describes students' reading achievements at grades 4, 8, and 12 and within various subgroups of the general population. State-level results are presented for individual states that chose to participate in the 1994 Trial State Assessment. Chapter 1 presents an overview of the 1994 NAEP reading assessment and sample questions and responses. Chapter 2 provides overall average proficiency results for the nation, regions, subgroups of students, and jurisdictions participating in the Trial State Assessment. Chapter 3 describes students' reading performance in terms of achievement levels. Chapter 4 focuses on cross-state comparisons of proficiency results from the state-by-state assessment at grade 4. Chapter 5 describes contextual factors related to students' reading achievement. Chapter 6 describes specific abilities demonstrated by students in the NAEP reading assessment and reports student performance when reading for different purposes. The most striking finding from the 1994 assessment is that the average reading proficiency of 12th-grade students declined significantly from 1992 to 1994. Other major findings include:

1. the decline in average proficiency among 12th graders between 1992 and 1994 was concentrated among lower performing students;
2. reading proficiency at all three grade levels was higher on average for students whose parents had more education;
3. at all three grade levels, female students had higher average reading proficiencies than male students; and
4. students who reported having a greater array of literacy materials in their homes displayed higher average reading achievement.

Contains 38 tables and 23 figures of data. Appendixes provide an overview of procedures used in the 1994 assessment and describe students' reading performance, cross-state proficiency and achievement level results, and sample texts and questions. RS
