Reading For Meaning 7:

Reading Literature and Chronic Pain Josie Billington, 2025-05-15 This valuable and insightful study into chronic pain and its treatment advances a striking analysis of the complex phenomenon of chronic pain also attesting to the importance of the medical humanities in addressing urgent questions that medical science alone cannot resolve The primary purpose of this book is twofold First to demonstrate empirically against a conceptual background drawn from multiple disciplines and knowledge bases historical medical neurobiological psychological socio anthropological how an apparently soft intervention such as literary reading can effectively combat symptoms of a condition as intractable as chronic pain Second to explore what this evidence tells us about pain as a lived experience as well as a condition in urgent need of new treatment options and about literature and the reading of fiction and poetry as therapeutic influences in contemporary health and healthcare most particularly in alleviating the often severe mental health difficulties with which chronic pain is almost universally associated Based on unique empirical research with people who are living with chronic pain this book is the first of its kind to demonstrate the value of literature and literary reading both as a discourse for understanding and finding pain and as an intervention in its treatment

Proceedings of the 2nd UPY International Conference on Education and Social Science (UPINCESS 2023) Ari Kusuma Wardana, 2023-12-31 This is an open access book Technology has had a huge impact on education and social dynamics around the world Since the introduction of information and communication technologies ICTs such as the internet smartphones and social media much has changed in the way we learn and interact with others In education technology has enabled students and teachers to access more diverse and engaging educational resources With internet access students and teachers can access educational resources from all over the world and learn about various topics and disciplines In addition technology also enables distance learning which allows students and teachers to connect from different locations However there are also negative impacts of using technology in education For example excessive use of social media and the internet can cause concentration disorders and addiction in students In addition too much reliance on technology can also reduce students ability to think critically and solve problems independently In social dynamics technology has allowed us to connect with people from all over the world and paved the way for greater collaboration and cultural exchange However technology has also brought negative impacts on social dynamics such as the

spread of fake news or hoaxes cyberbullying and social media addiction In this regard technology can be a very useful tool if used wisely and with proper understanding of its impact Therefore to support this Universitas PGRI Yogyakarta was hold an international conference and Call for Papers The 2nd UPY International Conference on Education and Social Science UPINCESS The Impact of Technology on Education and Social Dynamics on September 27 2023 The conference aims to discuss in depth about the impact of technology on education and social dynamics as well as finding appropriate solutions and strategies to minimize its negative impact and maximize its benefits Experts researchers and practitioners in the field of education and technology from around the world can share their knowledge and experience in this conference and can encourage collaboration and innovation in this field
