Offers a unique presentation through a combination of text and interactive commentary. Provides a mix of classic and contemporary texts including some not anthologized elsewhere. Includes writings from thinkers such as Aquinas, Boethius, Hume, Plantinga and Putnam. Divided into sections which examine religious language, the existence of God, reason, argument and belief, divine properties and religious pluralism.

Key Terms in Philosophy of Art Tiger C. Roholt, 2013-10-10 *Key Terms in Philosophy of Art* offers a clear, concise and accessible introduction to a vital sub-field of philosophy. The book offers a comprehensive overview of the key terms, concepts, thinkers and major works in the history of this key area of philosophical thought. Ideal for first-year students coming to the subject for the first time. *Key Terms in Philosophy of Art* will serve as the ideal companion to the study of this fascinating subject. Tiger C. Roholt provides detailed summaries of core concepts in the philosophy of art. An introductory chapter provides context and background while the following chapters offer detailed definitions of key terms and concepts, introductions to the work of key thinkers, summaries of key texts, introductions to philosophy's approach to the major art forms and advice on further reading. Designed specifically to meet the needs of students and assuming no prior knowledge of the subject, this is the ideal reference tool for those coming to philosophy of art for the first time.

Embodying Data Qi Li, 2020-06-19 This book investigates a new interactive data visualisation concept that employs traditional Chinese aesthetics as a basis for exploring

contemporary digital technological contexts It outlines the aesthetic approach which draws on non Western aesthetic concepts specifically the Yijing and Taoist cosmological principles and discusses the development of data based digital practices within a theoretical framework that combines traditional Taoist ideas with the digital humanities The book also offers a critique of the Western aesthetics underpinning data visualisation in particular the Kantian sublime which prioritises the experience of power over the natural world viewed at a distance Taoist philosophy in contrast highlights the integration of the surface of the body and the surface of nature as a Taoist body rather than promoting an opposition of mind and body The book then explores the transformational potential between the human body and technology particularly in creating an aesthetic approach spanning traditional Chinese aesthetics and gesture based technology Representing a valuable contribution to the digital humanities the book helps readers understand data based artistic practices while also bringing the ideas of traditional Chinese aesthetics to Western audiences In addition it will be of interest to practitioners in the fields of digital art and data visualisation seeking new models
