Refiguring Woman Perspectives On Gender And The Italian Renaissance:

Refiguring Woman Marilyn Migiel, Juliana Schiesari, 1991 Refiguring Woman reassesses the significance of gender in what has been considered the bastion of gender neutral humanist thought the Italian Renaissance It brings together eleven new essays that investigate key topics concerning the hermeneutics and political economy of gender and the relationship between gender and the Renaissance canon Taken together they call into question a host of assumptions about the period revealing the implicit and explicit misogyny underlying many Renaissance social and discursive practices **Netherlandish and Italian Female Portraiture in the Fifteenth Century** Elisabetta Toreno, 2025-10-01 This book investigates the aesthetic and conceptual characteristics of fifteenth century female portraiture on panel Portraits of women increased substantially during this century They formed part of a material and a visual culture borne out of the rapid rise of an oligarchy from entrepreneurial activities that was especially advanced in the urbanised territories of Italy and Flanders For this reason the portraits in this book are by Netherlandish and Italian painters They are simultaneously illustrative of the emancipation of the genre from its medieval idiom and of the responses to the matrix of patriarchy under which society was organised Patriarchy is an androcentric structure that places women in a paradoxical situation of legal and social disenfranchisement on the account of purported psychophysical inadequacy whilst making them the catalysts through arranged marriages for the success of the spheres of power which are controlled by men Thus these portraits are also a window into women's lives in this structure This book is the first systematic study of their sign system and of the feminine experience of seeing and being seen at the intersection of disciplines that include art history anthropology legal history philosophy The surprising results suggest new interpretations of form and function in female portraiture women's active role in the imaging process and the early instances of a pro women ideology *Meditations on the Incarnation, Passion, and Death of Jesus Christ* Catharina Regina von Greiffenberg, 2010-04-15 Read by Protestants and Catholics alike Catharina Regina von Greiffenberg 1633-94 was the foremost German woman poet and writer in the seventeenth century German speaking world Privileged by her social station and education she published a large body of religious writings under her own name to a reception unequalled by any other German woman during her lifetime But once the popularity of devotional writings as a genre waned Catharina's works went largely unread until scholars devoted renewed attention to them in the twentieth century For this volume Lynne Tatlock translates for the first time into English three of the thirty six meditations restoring Catharina to her rightful place in print These meditations foreground women in the life of Jesus Christ including accounts of women at the Incarnation and the Tomb and in Scripture in general Tatlock's selections give the modern reader a sense of the structure and nature of Catharina's devotional writings highlighting the alternative they offer to the male centered view of early modern literary and cultural production during her day and redefining the role of women in Christian history The Shakespearean International Yearbook Graham Bradshaw, Tom Bishop, 2017-05-15 This eighth volume of The

Shakespearean International Yearbook presents a special section on European Shakespeares proceeding from the claim that Shakespeare's literary craft was not just native English or British but was filtered and fashioned through a Renaissance awareness that needs to be recognized as European and that has had effects and afterlives across the Continent. Guest editors Ton Hoenselaars and Clara Calvo have constructed this section to highlight both how the spread of Shakespeare throughout Europe has brought together the energies of a wide variety of European cultures across several centuries and how the inclusion of Shakespeare in European culture has been not only a European but also a world affair. The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies. Contributors to this issue come from the US and the UK, Spain, Switzerland, and South Africa, Canada, The Netherlands, India, Portugal, Greece, France, and Hungary. In addition to the section on European Shakespeares, this volume includes essays on the genre of romance, issues of character, and other topics.

Music, Myth and Story in Medieval and Early Modern Culture Katherine Butler, Samantha Bassler, 2019. The complex relationship between myths and music is here investigated. Myths and stories offer a window onto medieval and early modern musical culture. Far from merely offering material for musical settings, authoritative tales from classical mythology, ancient history, and the Bible were treated as foundations for musical knowledge. Such myths were cited in support of arguments about the uses, effects, morality, and preferred styles of music in sources as diverse as theoretical treatises, defences or critiques of music, art, sermons, educational literature, and books of moral conduct. Newly written literary stories too were believed capable of moral instruction and influence and were a medium through which ideas about music could be both explored and transmitted. How authors interpreted and weaved together these traditional stories or created their own reveals much about changing attitudes across the period. Looking beyond the well-known figure of Orpheus, this collection explores the myriad stories that shaped not only musical thought but also its styles, techniques, and practices. The essays show that music itself performed and created knowledge in ways parallel to myth and worked in tandem with old and new tales to construct social, political, and philosophical views. This relationship was not static; however, as the Enlightenment dawned, the once authoritative gods became comic characters, and myth became a medium for ridicule. Overall, the book provides a foundation for exploring myth and story throughout medieval and early modern culture and facilitating further study into the Enlightenment and beyond.

Debate of the Romance of the Rose David F. Hult, 2010-04-15 In 1401 Christine de Pizan 1365a-1430 wrote a letter to the provost of Lille criticizing the highly popular Romance of the Rose for its unwarranted misogynistic depictions of women Here Hult collects debate documents letters and excerpts from other works of Pizan including one from City of Ladies her major defense of women

The Complete Poems Gaspara Stampa, 2010-10-15 Gaspara Stampa 1523-1554 is one of the finest female poets ever to write in Italian Although she was lauded for her singing during her lifetime her success and critical reputation as a poet emerged only after her verse was republished in the early eighteenth century Her poetry runs the gamut of human emotion ranging from ecstasy over a consummated love affair to despair at its end While these tormented works and their multiple male addressees have led to speculation that Stampa may have been one of Venice s famous courtesans they can also be read as a rebuttal of typical assumptions about women s roles Championed by Rainer Maria Rilke among others she has more recently been celebrated by feminist scholars for her distinctive and original voice and her challenge to convention The first complete translation of Stampa into English this volume collects all of her passionate and lyrical verse It is also the first modern critical edition of her poems and in restoring the original sequence of the 1554 text it allows readers the opportunity to encounter Stampa as she intended Jane Tylus renders Stampa s verse in precise and graceful English translations allowing a new generation of students and scholars of poetry Renaissance literature and music history to rediscover this incipiently modern Italian poet

Censored Sentiments Barbara Maria Zaczek, 1997 Samuel Richardson s Clarissa illustrates this shift because it proves the inefficacy of the control imposed from the outside and advocates the necessity of placing responsibility onto the letter writer tutored in decorum by conduct books Clarissa commits a sin of communication that leads to her ruin and death because she has disregarded the guidelines for safe correspondence provided by conduct book writers Clarissa

reflects the gradual substitution of the letter as a means of transgression to the letter as a means of control and manipulation
