British Royal Visits and Black Loyalism in Twentieth-century Southern Africa Hilary Sapire, 2024-10-31 Exploring the entwined histories of British royal visits to Southern Africa in the twentieth century this book analyses the clashing voices of dissent and cheering crowds that accompanied royal tours providing insight into the shifting nature of Black loyalism Originating in the Indigenous empire loyalism of eighteenth century Canada Black loyalism encompassed loyalty to the British crown and a shared ideology of rights and entitlements which positioned the crown as a source of protection against white settler rapacity colonial violence and racial oppression However expressions of monarchical devotion were often double edged and addressed the fundamental contradiction of a crown that was both the source of rights and complicit in colonial conquest appropriation and misrule It was on royal occasions such as jubilees coronation celebrations and especially

royal visits when the sovereign was literally amongst their more distant subjects that loyalist sentiment was rekindled reinvented and made directly relevant to the concerns of the day By analysing change and continuity in Black perspectives towards both the British and Indigenous African monarchy during these visits this book offers a fruitful way into examining an array of Black Southern African discourses on governance political values and cultural identities across the region It argues that the refashioning of British imperial monarchy in the twentieth century was profoundly shaped by African initiatives and re imaginings and provides valuable reading for those researching imperialism popular attitudes to the British monarchy in the twentieth century and the diverse politics and identities of southern Africa *Builders of Empire* Jessica L. Harland-Jacobs,2012-09-01 They built some of the first communal structures on the empire s frontiers The empire s most powerful proconsuls sought entrance into their lodges Their public rituals drew dense crowds from Montreal to Madras The Ancient Free and Accepted Masons were quintessential builders of empire argues Jessica Harland Jacobs In this first study of the relationship between Freemasonry and British imperialism Harland Jacobs takes readers on a journey across two centuries and five continents demonstrating that from the moment it left Britain s shores Freemasonry proved central to the building and cohesion of the British Empire The organization formally emerged in 1717 as a fraternity identified with the ideals of Enlightenment cosmopolitanism such as universal brotherhood sociability tolerance and benevolence As Freemasonry spread to Europe the Americas Asia Australasia and Africa the group s claims of cosmopolitan brotherhood were put to the test Harland Jacobs examines the brotherhood s role in diverse colonial settings and the impact of the empire on the brotherhood in the process she addresses issues of globalization supranational identities imperial power fraternalism and masculinity By tracking an important identifiable institution across the wide chronological and geographical expanse of the British Empire *Builders of Empire* makes a significant contribution to transnational history as well as the history of the Freemasons and imperial Britain **Africas Legacies Of Urbanization: Unfoldi** Stefan Goodwin,2006-03-03 The ability to function safely healthily and productively in urban places is a continuing challenge for people everywhere This challenge is exacerbated when the resources available to people in urban places happen to be severely limited or their ability to make decisions consistent with their welfare severely constrained Nevertheless Africans have manifested great inventiveness and resourcefulness both in contributing to and in adapting to urbanization Africa s Legacies of Urbanization is the culmination of several decades of research travel and teaching Goodwin provides an interdisciplinary and up to date look at African cities and the urbanization process This thought provoking and engaging work tackles the vastness of the mother continent by dividing it into geographic regions western central southern eastern and northeastern Beginning with an overview of the urban experience in Africa Goodwin then studies the histories of urbanization in the various regions of the continent Thoroughly researched and accessibly written this comprehensive work will appeal to scholars of African studies urban studies anthropology and cultural ecology *Alexandra* Noor Nieftagodien,Phil Bonner,2008-11-01 Alexandra A History is a

social and political history of one of South Africa's oldest townships. It begins with the founding of Alexandra as a freehold township in 1912 and traces its growth as a centre of black working class life through the early years before the Nationalist government through the struggles of the apartheid era and into the present day. Declared as a location for natives and coloureds, Alexandra became home to a diverse population where stand owners, tenants, squatters, hostel dwellers, workers and migrants from every corner of the country converged to make a new life for themselves near the economic hub of Johannesburg. The stories of ordinary people are at the core of the township's history. Based on numerous life history interviews with residents and previously unexamined archive sources, the book portrays in vivid detail the daily struggles and tribulations of the people of Alexandra. A significant focus is the rich history of political resistance in which political organisations and civic movements organised bus boycotts, anti removal and anti pass campaigns and mobilised for housing and a better life for the township's residents. But the book also tells the stories of daily life, of the making of urban cultures and of the infamous Spoilers and Msomi gangs. Over weekends, Alexandra came alive as soccer matches, church services and shebeens vie for the attention of residents. *Alexandra: A History* highlights the social complexities of the township which at times caused tension between different segments of the population. Above all else, despite a long history of hardship and adversity, the community spirit of the people of Alexandra, expressed in a fiercely loyal love of their township home, has repeatedly triumphed and endured.

A World of Their Own Meghan Healy-Clancy, 2014-06-19. The politics of black education has long been a key issue in southern African studies, but despite rich debates on the racial and class dimensions of schooling, historians have neglected their distinctive gendered dynamics. *A World of Their Own* is the first book to explore the meanings of black women's education in the making of modern South Africa. Its lens is a social history of the first high school for black South African women, Inanda Seminary, from its 1869 founding outside of Durban through the recent past. Employing diverse archival and oral historical sources, Meghan Healy-Clancy reveals how educated black South African women developed a tradition of social leadership by both working within and pushing at the boundaries of state power. She demonstrates that although colonial and apartheid governance marginalized women politically, it also valorized the social contributions of small cohorts of educated black women. This made space for growing numbers of black women to pursue careers as teachers and health workers over the course of the twentieth century. After the student uprisings of 1976, as young black men increasingly rejected formal education for exile and street politics, young black women increasingly stayed in school and cultivated an alternative form of student politics. Inanda Seminary students' experiences vividly show how their academic achievements challenged the narrow conceptions of black women's social roles harbored by both officials and black male activists. By the transition to democracy in the early 1990s, black women outnumbered black men at every level of education, introducing both new opportunities for women and gendered conflicts that remain acute today.

New Frontiers in the Study of the Global African Diaspora Rita Kiki Edozie, Glenn A. Chambers, Tama Hamilton-Wray, 2018-10-01. This

anthology presents a new study of the worldwide African diaspora by bringing together diverse multidisciplinary scholarship to address the connectedness of Black subject identities experiences issues themes and topics applying them dynamically to diverse locations of the Blackworld Latin America the Caribbean Africa and the United States The book underscores three dimensions of African diaspora study First is a global approach to the African diaspora showing how globalism underscores the distinctive role that Africa plays in contributing to world history Second is the extension of African diaspora study in a geographical scope to more robust inclusions of not only the African continent but also to uncharted paths and discoveries of lesser known diaspora experiences and identities in Latin America and the Caribbean Third is the illustration of universal unwritten cultural representations of humanities in the African diasporas that show the distinctive humanities disciplinary representations of Black diaspora imaginaries and subjectivities The contributing authors inductively apply these themes to focus the reader s attention on contemporary localized issues and historical arenas of the African diaspora They engage their findings to critically analyze the broader norms and dimensions that characterize a given set of interrelated criteria that have come to establish parameters that increasingly standardize African diaspora studies **Josie Mpama/Palmer** Robert R.

Edgar,2020-04-22 While African National Congress narratives dominate much of the scholarship on South Africa s freedom struggle Josie Mpama Palmer s political life offers a different perspective Highly critical of the patriarchal attitudes that hindered black women from actively participating in politics Mpama Palmer was an outspoken advocate for women s social equality and encouraged black women to become more involved in national conversations The first black woman to join the Communist Party of South Africa and an antiapartheid activist Josie Mpama Palmer remained involved in critical issues all her life especially protests against Bantu Education and other forms of racial and sexist discrimination She was an integral figure in establishing the Federation of South African Women an organization open to women of all races Mpama Palmer s activism and political legacy would become an inspiring example for women in South Africa and around the world to get up and get moving **The Law and the Prophets** Daniel R. Magaziner,2010 No nation can win a battle without faith Steve Biko wrote and as Daniel R Magaziner demonstrates in The Law and the Prophets the combination of ideological and theological exploration proved a potent force The 1970s are a decade virtually lost to South African historiography This span of years bridged the banning and exile of the country s best known antiapartheid leaders in the early 1960s and the furious protests that erupted after the Soweto uprisings of June 16 1976 Scholars thus know that something happened yet they have only recently begun to explore how and why The Law and the Prophets is an intellectual history of the resistance movement between 1968 and 1977 it follows the formation early trials and ultimate dissolution of the Black Consciousness movement It differs from previous antiapartheid historiography however in that it focuses more on ideas than on people and organizations Its singular contribution is an exploration of the theological turn that South African politics took during this time Magaziner argues that only by understanding how ideas about race faith and selfhood developed and were transformed in this period
