Rethinking Ethnicity Majority Groups And Dominant Minorities:

Rethinking Ethnicity Eric P. Kaufmann, 2004 Globalization and migration are pressuring nations around the world to change their ethnic self definition and to treasure diversity not homogeneity This book explores the growing gap between modern nations and their dominant ethnic groups

Rethinking Ethnicity: Dominant ethnicity resurgent, 2004 Globalization and migration are pressuring nations around the world to change their ethnic self definition and to treasure diversity not homogeneity This book explores the growing gap between modern nations and their dominant ethnic groups

Democratizing the Hegemonic State Ilan Peleg, 2007-07-23 This book provides a new comprehensive analytical framework for the examination of majority minority relations in deeply divided societies Hegemonic states in which one ethnic group completely dominates all others will continue to face enormous pressures to transform because they are out of step with the new emerging global governing code that emphasizes democracy and equal rights Refusal to change would lead such states to lose international legitimacy and face increasing civil strife instability and violence Through systematic theoretical analysis and careful empirical study of 14 key cases Peleg examines the options open to polities with diverse populations Challenging the conventional wisdom of many liberal democrats Peleg maintains that the preferred solution for a traditional hegemonic polity is not merely to grant equal rights to individuals but also to incorporate significant group rights via mega constitutional transformation

Majority Minority Justin Gest, 2022 How do societies respond to great demographic change This question lingers over the contemporary politics of the United States and other countries where persistent immigration has altered populations and may soon produce a majority minority milestone Wielding historical analysis fieldwork and polling data Majority Minority shows how states can leverage political institutions and rhetoric to deepen social divisions or evolve public understandings of the nation

The Cultural Defense of Nations Li'av Orgad, 2015 Addressing one of the greatest challenges facing liberalism today this book asks if it is legally and morally defensible for a liberal state to restrict immigration in order to preserve the cultural rights of majority groups Orgad proposes a liberal approach to this dilemma and explores its dimensions justifications and limitations

Connected Communities Matthew A. Peeples, 2018-02-20 The Cibola region on the Arizona New Mexico border has fascinated archaeologists for more than a century The region's core is recognized as the ancestral homeland of the contemporary Zuni people and the area also spans boundaries between the Ancestral Puebloan and Mogollon culture areas The complexity of cross cutting regional and cultural designations makes this an ideal context within which to explore the relationship between identity and social change at broad regional scales In Connected Communities Matthew A Peeples examines a period of dramatic social and political transformation in the ancient Cibola region ca A D 1150 1325 He analyzes archaeological data generated during a century of research through the lens of new and original social theories and methods focused on exploring identity social networks and social transformation In so doing he demonstrates the value of comparative synthetic

analysis The book addresses some of the oldest enduring questions in archaeology How do large scale social identities form How do they change How can we study such processes using material remains Peeples approaches these questions using a new set of methods and models from the broader comparative social sciences relational sociology and social networks to track the trajectories of social groups in terms of both networks of interactions relations and expressions of similarity or difference categories He argues that archaeological research has too often conflated these different kinds of social identity and that this has hindered efforts to understand the drivers of social change In his strikingly original approach Peeples combines massive amounts of new data and comparative explorations of contemporary social movements to provide new insights into how social identities formed and changed during this key period

Routledge Handbook of Social and Cultural Theory Anthony Elliott,2013-12-04 If today students of social theory read Jurgen Habermas Michel Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Stuart Hall and Slavoj Zizek The Routledge Handbook of Social and Cultural Theory offers a concise comprehensive overview of the convergences and divergences of social and cultural theory and in so doing offers a novel agenda for social and cultural research in the twenty first century This Handbook edited by Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are substantive chapters looking at among others structuralism and post structuralism critical theory network analysis feminist cultural thought cultural theory and cultural sociology Throughout the Handbook there is a strong emphasis on interdisciplinarity with chapters drawing from research in sociology cultural studies psychology politics anthropology women s studies literature and history Written in a clear and direct style this Handbook will appeal to a wide undergraduate and postgraduate audience across the social sciences and humanities

Constructing Nationalism in Iran Meir Litvak,2017-04-21 Nationalism has played an important role in the cultural and intellectual discourse of modernity that emerged in Iran from the late nineteenth century to the present promoting new formulations of collective identity and advocating a new and more active role for the broad strata of the public in politics The essays in this volume seek to shed light on the construction of nationalism in Iran in its many manifestations cultural social political and ideological by exploring on going debates on this important and progressive topic

The SAGE Handbook of Nations and Nationalism Gerard Delanty,Krishan Kumar,2006-06-14 With its list of distinguished contributors and its wide range of topics the handbook is surely destined to become an invaluable resource for all serious students of nationalism Michael Billig Professor of Social Sciences at Loughborough University and author of Banal Nationalism SAGE 1995 The persistence some would say revival of nationalism across the recent history of modernity in particular the past two decades has taken many scholars in the social sciences by surprise In response interest in the analysis of nationalism has increased and given rise to a great variety of new

angles under which to study the phenomenon What was missing in the cacophony of voices addressing nationalism was a volume that brought them together and confronted them with each other This handbook does just that It deserves particular praise for the wide range of approaches and topic included and for the systematic attempt at studying nationalism as a phenomenon of our time not a remnant from the past Peter Wagner Professor of Social and Political Theory European University Institute and Professor of Sociology University of Warwick For students concerned with the contemporary study of nationalism this will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology

The Dilemma of Recognition Carla Schraml, 2012-06-08 How can the salience of ethnicity in Rwandan and Burundian politics be overcome How can this salience be approached analytically And why exactly is it that it is potentially conflict prone This book gives answers to these questions on the basis of what Rwandan and Burundian interviewees expressed as taken for granted and real In particular it focuses on different political institutional models and how they help to overcome an ethnic interpretation of political and social exclusion Despite the diverging institutional approaches to dealing with ethnic cleavages the qualitative analysis shows that political and social exclusion in particular the distribution of power are interpreted in ethnic terms in both countries Focusing on notions taken for granted by Rwandan and Burundian interviewees the book demonstrates how deeply intertwined ethnicity and politics are in Rwanda and Burundi today

Knowing from the Indigenous North Thomas Hylland Eriksen, Sanna Valkonen, Jarno Valkonen, 2018-10-09 Focusing on the S pmi region of Northern Europe as a point of departure this book enriches and sharpens the concept of the North It combines detailed empirical research on the S mi people and their life worlds with theoretical contributions from leading scholars The authors consider the European North not only as a geographical site or an object of academic research but as a particular way of knowing and being with its own

needs practices concepts and imaginings The North as an epistemic position offers its own conceptions of politics human agency history and social relations which this book studies and describes The volume challenges us to consider social scientific knowledge its significance and the practices of producing it in a new way

Values and Violence Ibrahim A. Karawan, Wayne McCormack, Stephen E. Reynolds, 2008-10-11 Most books on terrorism deal with descriptions of terrorist organizations and activities some examine privacy and civil liberties issues and others treat terrorism as a series of policy choices Hardly any books deal with the foundational questions of values and violence as they relate to terrorism The two unique features of this book are that it deals with violence at the normative foundations of values and human dignity and that it includes many of the best known authors in the world from a variety of disciplines making it a paradigmatic example of cutting edge study in interdisciplinary scholarship with a focus on bringing theories and policy issues closer together Values and Violence includes chapters by a dozen of the leading scholars in the world on patterns of political violence responses to terrorism and the basic value choices inherent in them

White Male Nostalgia in Contemporary North American Literature Tim Engles, 2018-07-13 White Male Nostalgia in Contemporary North American Literature charts the late twentieth century development of reactionary emotions commonly felt by resentful yet often goodhearted white men Examining an eclectic array of literary case studies in light of recent work in critical whiteness and masculinity studies history geography philosophy and theology Tim Engles delineates five preliminary forms of white male nostalgia as dramatized in novels by Sloan Wilson Richard Wright Carol Shields Don DeLillo Louis Begley and Margaret Atwood demonstrating how literary fiction can help us understand the inner workings of deluded dominance These authors write from identities outside the defensive domain of normalized white masculinity demonstrating via extended interior dramas that although nostalgia is primarily thought of as an emotion felt by individuals it also works to shore up entrenched collective power

Citizenship Acquisition and National Belonging G. Calder, P. Cole, J. Seglow, 2009-11-12 What does it take to become a citizen of a particular nation Is it justified to restrict membership of a society and if so on what grounds This book explores a series of pressing controversial issues surrounding the acquisition of citizenship in theory and practice

Re-ethnicizing the Minds? Thorsten Botz-Bornstein, Jürgen Hengelsbrock, 2006 The predominance and global expansion of homogenizing modes of production consumption and information risks alienating non Western and Western people alike from the intellectual and moral resources embedded in their own distinctive cultural traditions In reaction to the erosion of traditional cultures and civilizations we seem to be witnessing the re emergence of a tendency to re ethnicize the mind through renewed and more or less systematic cultural revivals worldwide e g hinduization ivorization sinofication islamicization indigenization etc How do and should philosophers understand and assess the significance and impact of this phenomenon Authors acquainted with the contemporary situation in Africa Asia the Middle East South America and Europe try to answer this question In the final analysis the authors of this original and groundbreaking collection of essays plead for a full critical engagement with one s

own particularity while at the same time rejecting any form of cultural national or regional chauvinism They consider various ways in which local and global conceptions as well as practices can and already do judiciously inform and positively fertilize each other At this juncture of history they argue societies and peoples must articulate their self identity by looking critically at their respective cultural resources and beyond them at the same time Conflict, Democratization, and the Kurds in the Middle East David Romano,Mehmet Gurses,2014-08-13 In Turkey Iran Iraq and Syria central governments historically pursued mono nationalist ideologies and repressed Kurdish identity As evidenced by much unrest and a great many Kurdish revolts in all these states since the 1920s however the Kurds manifested strong resistance towards ethnic chauvinism What sorts of authoritarian state policies have Turkey Iraq Iran and Syria relied on to contain the Kurds over the years Can meaningful democratization and liberalization in any of these states occur without a fundamental change vis vis their Kurdish minorities To what extent does the Kurdish issue function as both a barrier and key to democratization in four of the most important states of the Middle East While many commentators on the Middle East stress the importance of resolving the Arab Israeli dispute for achieving peace in the Middle East this book asks whether or not the often overlooked Kurdish issue may constitute a more important fulcrum for change in the region especially in light of the Arab Spring and recent changes in Turkey Iraq Iran and Syria Jewish-Israeli National Identity and Dissidence K. Attwell,2015-01-29 A critical examination of Zionism and its internal resistance by Israeli Jews this book employs a unique perspective on Israel Palestine by eschewing presenting identities as concrete and rather examining their creation through discourse **Ethnicity and Everyday Life** Christian Karner,2007-05-07 Mixing theories of the everyday with a wide range of case studies this book explains the character of ethnicity from being a political tool of exclusion to a source of meaning and solidarity and the relationship between culture power and identity Combining theories of the everyday with empirical case studies this book examines the dual character of ethnicity as a political tool of exclusion and source of meaning solidarity respectively the relationship between culture power and identity the significance of historical socio economic contexts to ethnicity and everyday life This book addresses many important questions through a critical application of theories of the everyday to a series of case studies that include travellers the South Asian diaspora contemporary Austria and asylum seekers in Fortress Europe This book provides an accessible and coherent introduction to the sociology of ethnicity and will be essential reading for undergraduate students on cultural studies race and ethnic studies and sociology courses The ^ANew Minority Justin Gest,2016-09-15 In this daring and insightful book Justin Gest studies white working class people s attitudes and political behavior in the United States and Britain Based on ethnographies and original surveys the book offers a rich nuanced and generalizable account of the marginality sensed by one of society s most misunderstood groups The ^ANew Nationalism in America and Beyond Robert Schertzer,Eric Taylor Woods,2022-04-15 In *The New Nationalism in America and Beyond* Robert Schertzer and Eric Taylor Woods explain why ethnic nationalists like Donald Trump in the US Marine Le Pen in France and the Brexit

campaigners in the UK have gained so much support in the last few years Through careful analysis of the social media campaigns of these new nationalists Schertzer and Woods show how these leaders are tapping into the history and culture of white majorities Their cutting edge and multidisciplinary approach combining elements of political science sociology history and communication and media studies highlights how leaders today are updating the historical foundations of ethnic identity for the digital age to win elections
