Romance Of The Ages Meditations On The Song Of Songs:

The Romance of the Ages Louise Mapes McPhee,1996 *Romance of the Ages* L. M. McPhee,2002-01-01 This devotional book is written in the tradition of such excellent commentaries as those by Watchman Nee H A Ironside C A Coates and E C Hadley Mrs McPhee was the mother of Margaret Jean Tuininga whose children s books have been fruitful and edifying Mrs McPhee delivers on her intention to help those who seem locked out from this tremendous portion of God s Word Very few have known such intimacy with their Lord so that they could venture to speak very much about Solomon s Song Mrs McPhee was one of those few For a generation swimming in sensuality this book sparkles and gleams with the pure air of heaven John Bjorlie [Women and Gender in Medieval Europe](#) Margaret Schaus,2006 Publisher description [The Song of Songs in the Middle Ages](#) Ann W. Astell,2018-10-18 Included among the sacred books of Judaism and Christianity alike the Song of Songs does not mention God at all on the surface it is a lyrical exchange between unnamed lovers who articulate the range of emotions associated with sexual love Ann W Astell here examines medieval reader response both interpretive and imitative to the Song Disputing the common view that the literal meaning of Canticles had no value for medieval readers Astell points to twelfth century commentaries on the Song as well as an array of Middle English works as evidence that the Song s sensuous imagery played an essential part in its tropological appeal Emphasizing the ways in which a complex fusion of the Song s carnal and spiritual meanings appealed rhetorically to a variety of audiences Astell first considers interpretive responses to Canticles contrasting Origen s dialectical exposition with the affective commentaries of the twelfth century ecclesiastical Marian and mystical According to Astell these commentaries present Canticles as a marriage song that mirrors a series of analogous marriages both within the individual and between human and divine persons Astell describes interpretations of the Song of Songs in terms of the various feminine archetypes that the expositors emphasize the Virgin Mother Hetaira or Medium She maintains that the commentat5ors encourage the auditor s identification with the figure of the Bride so as to evoke and direct the feminine affective powers of the soul Turning to literature influenced by the Song she then discusses how the reading process is reinscribed in selected works in Middle English including Richard Rolle s autobiographical writings Pearl religious love lyrics and cycle dramas The Song of Songs in the Middle Ages provides an innovative model of reader response that opens the way for a deeper understanding of the literary influence of biblical texts **Catalog of Copyright Entries. Messiaen's Explorations of Love and Death Siglind

Bruhn,2008 Olivier Messiaens lifelong quest centered on the colors and rhythms of a music that would serve as a vehicle for his thoughts about time his love of God and his enthusiasm for birdsong An additional topic about which he felt deeply is that of passionate fated human love and its relationship to death on the one hand the love of God on the other During the years 1936 1948 he composed five cycles of vocal music to his own texts as well as the Turangala Symphony the monumental centerpiece of his Tristan Trilogy The focus of this study is the in depth analysis and interpretation of these six works on love with particular regard for their unusual wealth of poetic sonic and visual colors and imagery The wonder of rainbows the magic of exotic sounds the fantastic attractiveness of surrealist representations and the majestic inexorability of fate in myths of various times and cultures define Messiaens lyrics as much as his idiosyncratic highly symbolic musical language which never fails to build bridges between this and another world

A Cultural History of the Emotions in the Medieval Age Juanita

Ruys,Clare Monagle,2020-08-20 Our period opens at the end of the Roman Empire when intellectual currents are indebted to the Greek philosophical inheritance of Plato and Aristotle as well as to a Romanized Stoicism Into this mix entered the new and from 313CE imperially sanctioned religion of Christianity In art literature music and drama we find an increasing emphasis on the arousal of individual emotions and their acceptance as a means towards devotion In religion we see a move from the ascetic regulation of emotions to the affective piety of the later medieval period that valued the believer s identification with the Passion of Christ and the sorrow of Mary In science and medicine the nature and causes of emotions their role in constituting the human person and their impact on the same became a subject of academic inquiry Emotions also played an increasingly important public role evidenced in populace wide events such as conversion and the strategies of rulership Between 350 and 1300 emotions were transformed from something to be transcended into a location for meditation upon what it means to be human

Fiddes,2021-09-23 This book explores the way in which the study and practice of love creates a common ground for different faiths and different traditions within the same faith For the contributors common ground in this context is not a minimal core of belief or a lowest common denominator of faith but a space or area in which to live together consider together the meaning of the love to which various faiths witness and work together to enable human flourishing Such a space the contributors believe is possible because it is the place of encounter with the divine This book is the fruit of a Project for the Study of Love in Religion which aims to create this space in which different traditions of love converge from Islam Judaism and the Christianity of both East and West Tools employed by the contributors in exploring this space of love include exegesis of ancient texts theology accounts of mystical experience philosophy and evolutionary science of the human Insights about human and divine love that emerge include its nature as a form of knowing its sacrificial and erotic dimensions its inclination towards beauty its making of community and its importance for a just political and economic life

Library of Congress Catalog Library of Congress,1950 **God's Beauty Parlor** Stephen D. Moore,2001 God s Beauty Parlor opens the Bible to the contested body of critical commentary on sex and sexuality known as queer theory and to masculinity studies The author pursues the themes of homoeroticism masculinity beauty and violence through such texts as the Song of Songs the Gospels the Letter to the Romans and the Book of Revelation *English Spirituality in the Age of Wesley* David Lyle Jeffrey,2000-12 **Imagination, Meditation, and Cognition in the Middle Ages** Michelle Karnes,2017-12-20 In *Imagination Meditation and Cognition in the Middle Ages* Michelle Karnes revises the history of medieval imagination with a detailed analysis of its role in the period s meditations and theories of cognition Karnes here understands imagination in its technical philosophical sense taking her cue from Bonaventure the thirteenth century scholastic theologian and philosopher who provided the first sustained account of how the philosophical imagination could be transformed into a devotional one Karnes examines Bonaventure s meditational works the *Meditationes vitae Christi* the *Stimulus amoris* Piers Plowman and Nicholas Love s *Myrroure* among others and argues that the cognitive importance that imagination enjoyed in scholastic philosophy informed its importance in medieval meditations on the life of Christ Emphasizing the cognitive significance of both imagination and the meditations that relied on it she revises a long standing association of imagination with the Middle Ages In her account imagination was not simply an object of suspicion but also a crucial intellectual spiritual and literary resource that exercised considerable authority
