Sentimental Notion:

The Sentimental Education of the Novel Margaret Cohen, 2018-06-05 The nineteenth century French novel has long been seen as the heroic production of great men who confronted in their works the social consequences of the French Revolution And it is true that French realism especially as developed by Balzac and Stendhal was one of the most influential novelistic forms ever invented Margaret Cohen however challenges the traditional account of the genesis of realism by returning Balzac and Stendhal to the forgotten novelistic contexts of their time Reconstructing a key formative period for the novel she shows how realist codes emerged in a hostile take over of a prestigious contemporary sentimental practice of the novel which was almost completely dominated by women writers Cohen draws on impressive archival research resurrecting scores of forgotten nineteenth century novels to demonstrate that the codes most closely identified with realism were actually the invention of sentimentality a powerful aesthetic of emerging liberal democratic society although Balzac and Stendhal trivialized sentimental works by associating them with frivolous women writers and readers Attention to these gendered struggles over genre explains why women were not pioneers of realism in France during the nineteenth century a situation that contrasts with England where women writers played a formative role in inventing the modern realist novel Cohen argues that to understand how literary codes respond to material factors it is imperative to see how such factors take shape within the literary field as well as within society as a whole The book also proposes that attention to literature as a social institution will help critics resolve the current vital question of how to practice literary history in the wake of poststructuralism

Dickens and the Sentimental Tradition Valerie Purton, 2014-10-01 Dickens and the Sentimental Tradition is a timely study of the sentimental in Dickens's novels which places them in the context of the tradition of Fielding Richardson Sterne Goldsmith Sheridan and Lamb This study re evaluates Dickens's presentation of emotion first within the eighteenth century tradition and then within the dissimilar nineteenth century tradition as part of a complex literary heritage that enables him to critique nineteenth century society The book sheds light on the construction of feelings and of the good heart ideas which resonate with current critical debates about literary affect Sentimentalism as the text demonstrates is crucial to understanding fully the achievement of Dickens and his contemporaries

The Psychology of Female Violence Anna Motz, 2016-12-05 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company The Literary Channel Margaret Cohen, Carolyn Dever, 2009-02-14 The Literary Channel defines a crucial transnational literary zone that shaped the development of the modern novel During the first two centuries of the genre's history Britain and France were locked in political economic and military struggle The period also saw British and French writers critics and readers enthusiastically exchanging works codes and theories of the novel Building on both nationally based literary history and comparatist work on poetics this book rethinks the genre's evolution as marking the power and limits of modern cultural nationalism In the Channel zone the novel developed through interactions among texts readers writers and translators that

inextricably linked national literary cultures It served as a forum to promote and critique nationalist clichés whether from the standpoint of Enlightenment cosmopolitanism the insurgent nationalism of colonized spaces or the non nationalized culture of consumption In the process the Channel zone promoted codes that became the genre's hallmarks including the sentimental poetics that would shape fiction through the nineteenth century Uniting leading critics who bridge literary history and theory The Literary Channel will appeal to all readers attentive to the future of literary studies as well as those interested in the novel's development British and French cultural history and extra national patterns of cultural exchange Contributors include April Alliston Emily Apter Margaret Cohen Joan DeJean Carolyn Dever Lynn Festa Françoise Lionnet Deidre Shauna Lynch Sharon Marcus Richard Maxwell and Mary Helen McMurrin *Feminism Confronts Homo Economicus* Martha Fineman, Terence Dougherty, 2018-08-06 The essays in this volume confront the inroads that economics has made into the legal academy Law and Economics uses principles of neoclassical economics to develop laws and social policies that maintain if not bolster current allocations of power from the Introduction The Law and Economics school has had a significant impact on the legal and governmental landscape in the United States It posits a perfectly rational economic man homo economicus who is unconstrained by familial and communal ties and who can and should make decisions solely in light of considerations of economic value *Feminism Confronts Homo Economicus* offers a major intervention in debates about how law has come under the influence of economic principles Drawing on the latest thinking in the fields of feminist legal theory critical legal studies and feminist economics the essays critique the notion that legal and policy decisions should be made solely through the lens of economics While the contributors question the wholesale incorporation of the neoclassical economic model into legal analysis they do not all discard economic analysis and theory Situated at the intersection of feminism law and economics *Feminism Confronts Homo Economicus* will appeal to scholars and students of these disciplines as well as policy analysts and social theorists interested in family education labor and welfare **Blameworthy Belief** Nikolaj Nottelmann, 2007-07-18 Believing the wrong thing may sometimes have drastic consequences The question as to when a person is not only ill guided but genuinely at fault for holding a particular belief is an important one It touches upon the roots of our understanding of such notions as criminal negligence and moral responsibility The answer to this question may influence the extent to which we are willing to submit each other to punishments ranging from mild resentment to harsh prison terms This book presents an extensive effort to shed light on the conditions under which we may appropriately deem someone blameworthy for holding a particular belief It regiments and unifies several debates within contemporary epistemology ethics and legal scholarship Finally the book brings a new philosophical look on issues like our power to control beliefs and the extent and nature of foresight **Children, Rights and Modernity in China** O.
