Manhood in Hollywood from Bush to Bush David Greven, 2010-01-01 A struggle between narcissistic and masochistic modes of manhood defined Hollywood masculinity in the period between the presidencies of George H W Bush and George W Bush David Greven's contention is that a profound shift in representation occurred during the early 1990s when Hollywood was transformed by an explosion of films that foregrounded non normative gendered identity and sexualities In the years that have followed popular cinema has either emulated or evaded the representational strategies of this era especially in terms of gender and sexuality One major focus of this study is that in a great deal of the criticism in both the fields of film theory and queer theory

masochism has been positively cast as a form of male sexuality that resists the structures of normative power while narcissism has been negatively cast as either a regressive sexuality or the bastion of white male privilege Greven argues that narcissism is a potentially radical mode of male sexuality that can defy normative codes and categories of gender whereas masochism far from being radical has emerged as the default mode of a traditional normative masculinity This study combines approaches from a variety of disciplines psychoanalysis queer theory American studies men s studies and film theory as it offers fresh readings of several important films of the past twenty years including *Casualties of War* *The Silence of the Lambs* *Fight Club* *The Passion of the Christ* *Auto Focus* and *Brokeback Mountain* **Pauline E. Hopkins** Hanna Wallinger,2012-06-01 Republished here for the first time it establishes Hopkins as an early advocate of black nationalism and one of the few women writers who joined the discourse on this topic **BOOK JACKET** *Style, Gender, and Fantasy in Nineteenth-Century American Women's Writing* Dorri Beam,2010-06-03 In this 2010 book Dorri Beam presents an important contribution to nineteenth century fiction by examining how and why a florid and sensuous style came to be adopted by so many authors Discussing a diverse range of authors including Margaret Fuller and Pauline Hopkins Beam traces this style through a variety of literary endeavors and reconstructs the political rationale behind the writers commitments to this form of prose Beam provides both close readings of a number of familiar and unfamiliar works and an overarching account of the importance of this form of writing suggesting new ways of looking at style as a medium through which gender can be signified and reshaped *Style Gender and Fantasy in Nineteenth Century American Women s Writing* redefines our understanding of women s relation to aesthetics and their contribution to both American literary romanticism and feminist reform This illuminating account provides valuable new insights for scholars of American literature and women s writing

Liminal Spaces in Children's and Young Adult Literature Mark I. West,2024-03-12 Scholars in the field of children s literature studies began taking an interest in the concept of liminal spaces around the turn of the 21st century For the first time *Liminal Spaces in Children s and Young Adult Literature* *Stories from the In Between* brings together in one volume a collection of original essays on this topic by leading children s literature scholars The contributors in this collection take a wide variety of approaches to their explorations of liminal spaces in children s and young adult literature Some discuss how children s books portray the liminal nature of physical spaces such as the children s room in a library Others deal with more abstract portrayals such as the imaginary space where Max goes to escape the reality of his bedroom in Maurice Sendak s *Where the Wild Things Are* All of the contributors however provide keen insights into how liminal spaces figure in children s and young adult literature *American Literature and the Culture of Reprinting, 1834-1853* Meredith L. McGill,2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political

dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834-1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights
