The Founder of the Hare Krishnas as Seen by Devotees Kimmo Ketola, 2008-03-31 The Hare Krishna movement is one of the most well known new religious movements in the Western societies It was founded in New York in 1966 by the Indian monk A C Bhaktivedanta Swami Prabhupada 1896-1977 The fact that it emerged during the heyday of the countercultural protests is often invoked in the explanations of its success This book offers a completely new account for the rise and growth of the Hare Krishna movement by analysing it from the viewpoint of cognitive science of religion It focuses on the charisma of the founder guru through the writings of his earliest disciples and also takes a close look at the theology and ritual practices of the movement

The Darkest Sides of Politics, II Jeffrey M. Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics
