Silent Surrender The Multinational Corporation In Canada:

Silent Surrender Kari Levitt,1981 **Silent Surrender** Kari Levitt,1971 *Silent Surrender [sound Recording] : the Multinational Corporation in Canada* Levitt, Kari,Watkins, Mel,1974 Colonialism and Capitalism: Canada's Origins 1500-1890 BRYAN D. PALMER,2024-09-17 In the past decade Canadian history has become a hotly contested subject Iconic figures notably Sir John A Macdonald are no longer unquestioned nation builders The narrative of two founding peoples has been set aside in favour of recognition of Indigenous nations whose lands were taken up by the incoming settlers An authoritative and widely respected Truth and Reconciliation Commission together with an honoured Chief Justice of the Supreme Court have both described long standing government policies and practices as cultural genocide Historians have researched and published a wide range of new research documenting the many complex threads comprising the Canadian experience As a leading historian of labour and social movements Bryan Palmer has been a major contributor to this literature In this first volume of a major new survey history of Canada he offers a narrative which is based on the recent and often specialized research and writing of his historian colleagues One major theme in this book is the colonial practices of the authorities as they pushed aside the original peoples of this country While the methods varied the result was opening up Canada's rich resources for exploitation by the incoming European settlers The second major theme is the role of capitalism in determining how those resources were exploited and who would reap the enormous power and wealth that accrued The first volume of this challenging and illuminating new survey history covers the period that concludes in the 1890s after the creation out of Britain's northern colonies of the semi autonomous federal Canadian state Volume II to be published in spring 2025 takes the narrative to the present **Multinationals in Canada: Theory, Performance and Economic Impact** A.M. Rugman,2013-03-09 Multinational enterprises have become one of the distinctive institutions of our times Controversy over their economic and political effects and over appropriate public policy responses has become common in home and host countries and in international agencies Much of this debate is reminiscent of the role of large corporations generally particularly in their interregional and intergroup effects The multinational setting however would have raised distinctive issues even apart from the strong surges of nationalism and anti imperialism which have marked recent history Canada has a long and unusual experience with such enterprises Foreign control of capital in the nonfinancial industries manufacturing petroleum and gas other mining and smelting utilities merchandising was already 20 percent in 1930 and 25 percent in 1948 It rose to 36 percent by the late 1960s but has since receded to about 30 percent In 1975 fully 55 percent of the capital in manufacturing was controlled outside Canada as was 72 per cent of that in petroleum and gas and 58 percent in other mining These figures exceed those of other developed countries although there have been striking increases in recent decades About 80 percent of the direct investment capital in Canada is from the United States Recently Canadians have become aware of a surge of Canadian direct investment abroad which on a flow basis has exceeded inflows

Canadian Foreign Policy Steven Kendall Holloway, 2006-01-01

Canadian Foreign Policy Defining the National Interest will contribute greatly to intelligent democratic debate about what Canada should do globally Joseph Masciulli St Thomas University *Canadian Society in the Twenty-First Century, Fourth Edition* Trevor W. Harrison, John W. Friesen, 2021-03-03

Confederation may have established Canada's nationhood in 1867 but the relationships framing Canada's modern existence go back much further Employing a unique socio-historical perspective *Canadian Society in the Twenty-First Century* examines three formative relationships that have shaped the country Canada and Quebec Canada and the United States and Canada and Indigenous nations Now in its fourth edition this engaging text offers students an overview of Canadian society through a series of connections rather than a collection of statistics Trevor W. Harrison and John W. Friesen weave together complex aspects of the nation's economic political and socio-cultural development They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades Reflecting the most current scholarship in the field this revised edition features new discussions on issues such as the current crisis of neo-liberal globalization Canada's petroleum industry global warming the Wet suwet en dispute in 2020 and the COVID-19 pandemic Exploring the unique character of Canada today this text is a vibrant resource for sociology courses on Canadian society as well as courses in Canadian studies and Canadian history *The American Reaper* Gordon M. Winder, 2016-04-01 The American Reaper adopts a network approach to account for the international diffusion of harvesting technology from North America from the invention of the reaper through to the formation of a dominant transnational corporation International Harvester Much previous historical research into industrial networks focuses on industrial districts within metropolitan centres but by focusing on harvesting a typically rural technology this book is able to analyse the spread of technological knowledge through a series of local networks and across national boundaries In doing so it argues that the industry developed through a relatively stable stage from the 1850s into the 1890s during which time many firms shared knowledge within and outside the US through patent licensing to spread the diffusion of the American style of machines to establishments located around the industrial world This positive cooperation was further enhanced through sales networks that appear to be early expressions of managerial firms The book also reinterprets the rise of giant corporations especially International Harvester Corporation IHC arguing that mass production was achieved in Chicago in the 1880s where unprecedented urban growth made possible a break with the constraints felt elsewhere in the dispersed production system It unleashed an unchecked competitive market economy with destructive tendencies throughout the transnational American reaper networks a previously stable and expanding production system This is significant because the rise of corporate capital in this industry is usually explained as an outworking of national natural advantage as an ingenious harnessing of science and technology to solve production problems and as a rational solution to the problems associated with the worst forms of

unregulated competition that emerged as independent firms developed from small scale artisanal production to large scale manufacturers on their own and within the separate and isolated US economy The first study dedicated to the development and diffusion of American harvesting machine technology this book will appeal to scholars from a diverse range of fields including economic history business history the history of knowledge transfer historical geography and economic geography

Canada's 1960s Bryan D. Palmer,2009-01-01 Focusing on the major movements and personalities of the time as well as the lasting influence of the period Canada s 1960s examines the legacy of this rebellious decade s impact on contemporary notions of Canadian identity **Canada** Harvey Lazar,Tom McIntosh,1999-02 **Canada and the World since 1867** Asa

McKercher,2019-09-19 This book is a history of Canada s role in the world as well as the impact of world events on Canada

Starting from the country s quasi independence from Britain in 1867 its analysis moves through events in Canadian and global history to the present day Looking at Canada s international relations from the perspective of elite actors and normal people alike this study draws on original research and the latest work on Canadian international and transnational history to examine Canadians involvement with a diverse mix of issues from trade and aid to war and peace to human rights and migration The book traces four inter connected themes independence and growing estrangement from Britain the

longstanding and ongoing tensions created by ever closer relations with the United States the huge movement of people from around the world into Canada and the often overlooked but significant range of Canadian contacts with the non Western world With an emphasis on the reciprocal nature of Canada s involvement in world affairs ultimately it is the first work to blend international and transnational approaches to the history of Canadian international relations *Social Scientists and*

Politics in Canada Stephen Brooks,Alain-G. Gagnon,1988-09-01 Social scientists have played many roles in Canadian politics since the Second World War Stephen Brooks and Alain Gagnon examine the forms and extent of social scientists involvement in the political process their relationship to the state and the complexities of their class position The unique development of the social sciences in Quebec and their relationship to Quebec nationalism are examined and distinctions between development in this community and in the predominantly anglophone community of the rest of Canada are contrasted

Understanding Canada Wallace Clement,1997 As corporations are restructured governments cut back and the international economy transformed there is an increasing need to understand the economic and political forces involved evaluate their implications and develop strategies to modify them to meet society s interests In light of the current situation the study of political economy is more relevant than ever Understanding Canada examines a variety of topics from viewpoints ranging from the established to the interdisciplinary Issues such as gender Native peoples race ethnicity and migration globalization foreign policy the welfare state regulation communications popular culture and space and the environment are examined as are the more traditional subjects of economic growth resources and The new Canadian political economy has emerged from its infancy and is now regarded as a respected and innovative field of scholarship Understanding Canada

This book originally published in 1982 analyzes the process of radical foreign policy change how states restructure their foreign relations and why they do so Using a common analytical framework the authors examine Bhutan Burma Canada China and Tanzania They distinguish between piecemeal foreign policy change and adaptation and the fundamental re ordering of foreign policy Their analysis underlines the extent to which non military and sometimes imagined threats such as dependency and external economic and cultural penetration can constitute an important cause of radical realignment activity

Federalism in Canada Thomas O. Hueglin, 2021-04-07

Federalism in Canada tells the turbulent story of shared sovereignty and divided governance from Confederation to the present time with three main objectives in mind The first objective is to convince readers that federalism is the primary animating force in Canadian politics and that it is therefore worth engaging with its complex nature and dynamic The second objective is to bring into closer focus the contested concepts about the meaning and operation of federalism that are at the root of the divide between English Canada

and Quebec in particular The third objective is to give recognition to the trajectory of Canada s Indigenous peoples in the context of Canadian federalism from years of abusive neglect to belated efforts of inclusion The book focuses on the constitution with its ambiguous allocation of divided powers the pivotal role of the courts in balancing these powers and the political leaders whose interactions oscillate between intergovernmental conflict and cooperation This focus on executive leadership and judicial supervision is framed by considerations of Canada s regionalized political economy and cultural diversity giving students a compelling and nuanced view of federalism in Canada

Continentalizing Canada Gregory J. Inwood, 2005-01-01 Free trade has been a highly contentious issue since the Conservative government of Brian Mulroney negotiated the first deal with the United States in the 1980s Tracing the roots of Canada s contemporary involvement in North American free trade back to the Royal Commission on the Economic Union and Development Prospects for Canada in 1985 also known as the Macdonald Commission Gregory J Inwood offers a critical examination of the commission and how its findings affected Canada s political and economic landscape including its present day reverberations Using original research including content analysis interviews archival information and surveys of relevant literature Inwood argues that the Macdonald Commission created an atmosphere and political discourse that made the continentalization of Canada possible by way of free trade agreements with the U S and Mexico Through the use of a suspect research program and with the aid of a select oligarchy within the Commission and the government bureaucracy opposition to continentalism from both the majority of the Canadian population and even several commissioners was ignored Accessible to readers interested in Canadian politics policy or economy Continentalizing Canada offers a thorough examination into the Macdonald Commission and the resulting discourse in the Canadian political economy

Canada and the Third World Karen Dubinsky, Sean Mills, Scott Rutherford, 2016-03-31 Even though they are aware of the Third World in relation to their daily lives most Canadians know little about the historical foundations and complex nature of their country s entanglements with non Western societies Canada and the Third World provides a long overdue introduction to Canada s historical relationship with the Third World The book critically explores this relationship by asking four central questions how can we understand the historical roots of Canada s relations with the Third World How have Canadians individuals and institutions alike practiced and imagined development How can we integrate Canada into global histories of empire decolonization and development And how should we understand the relationship between issues such as poverty racism gender equality and community development in the First and Third World alike
