Acquired British Library,1927 Parapsychology and Religion Everton de Oliveira Maraldi,2021-06-29 Parapsychology and Religion is perhaps the most controversial research area in the psychology of religion However in recent decades psychology of religion has witnessed a growing literature bearing on ontological issues including parapsychological topics such as distant healing and near death experiences This book argues that despite the methodological and theoretical controversies that still surround the field of parapsychology the findings of research on alleged anomalous processes can inform the study of religious spiritual experiences Psychological literature on the paranormal is critically reviewed and it is argued that it became less a scientific endeavor and more an ideological program devised to denigrate paranormal believers and experiencers This volume explores how an open minded dialogue between parapsychology and psychology of religion might help us move beyond the present ideological disputes and reviews the complex relations between parapsychology and religion over time as well as their implications for interdisciplinary research on religion and spirituality Historicism and Its Problems Ernst Troeltsch,2024 In this volume Ernst Troeltsch embraces historical relativity while rejecting historical relativism and thereby provides a model for the philosophy of history The volume remains as relevant as it was in 1923

Animal Magnetism, Early Hypnotism, and Psychical Research, 1766-1925 Adam Crabtree,1988 **Books of 1912-**,1922 **The Subject Index to Periodicals** ,1928 *Subject Index to Periodicals* ,1924 **Science and Catholicism in Argentina (1750-1960)** Miguel de Asúa,2022-05-09 Science and Catholicism in Argentina 1750 1960 is the first comprehensive study on the relationship between science and religion in a Spanish speaking country with a Catholic majority and a Latin pattern of secularisation The text takes the reader from Jesuit missionary science in colonial times through the conflict ridden 19th century to the Catholic revival of the 1930s in Argentina The diverse interactions between science and religion revealed in this analysis can be organised in terms of their dynamic of secularisation The indissoluble identification of science and the secular which operated at rhetorical and institutional levels among the liberal elite and the socialists in the 19th century lost part of its force with the emergence of Catholic scientists in the course of the 20th century In agreement with current views that deny science the role as the driving force of secularisation this historical study concludes that it was the process of secularisation that shaped the interplay between religion and science not the other way around **The Occult Imagination in Britain, 1875-1947** Christine Ferguson,Andrew Radford,2017-12-15 Between 1875 and 1947 a period bookended respectively by the founding of the Theosophical Society and the death of notorious occultist celebrity Aleister Crowley Britain experienced an unparalleled efflorescence of engagement with unusual occult schema and supernatural phenomena such as astral travel ritual magic and reincarnationism Reflecting the signal array of responses by authors artists actors impresarios and popular entertainers to questions of esoteric spirituality and belief this interdisciplinary collection demonstrates the enormous interest in the occult during a time typically associated with the rise of secularization and scientific innovation The contributors describe how the occult realm functions as a turbulent conceptual

and affective space shifting between poles of faith and doubt the sacrosanct and the profane the endemic and the exotic the forensic and the fetishistic Here occultism emerges as a practice and epistemology that decisively shapes the literary enterprises of writers such as Dion Fortune and Arthur Machen artists such as Pamela Colman Smith and revivalists such as Rolf Gardiner **Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries** ,1927 Bibliography Jacques Waardenburg,1973 Sinceits founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline **Australia Unlimited** Edwin James Brady,1923 Aboriginal and Torres Strait Islander peoples are advised that this resource may contain images transcripts or names of Aboriginal and Torres Strait Islander peoples now deceased It may also contain historically and culturally sensitive words terms and descriptions **Bulletin** Omaha Public Library,1919
